### Sudden Death Of Mr. David Schurman

Word was received in Summerside yesterday of the sudden death that afternoon of David Schurman at his home in Reading, Mass. Mr. Schurman was 88 years of age and was well known in Summerside and Charlottetown having for some years the agency for Frost and Wood farm machinery for the island. Mr. Schurman was a native of Prince Edward Island, the son of Peter Schurman of Centreville Bedeque.

The family were well known in the Maritime Provinces as Peter Schurman ran the Point Du Chene hotel at Point Du Chene for many years. David Schurman was 35 years ago and later in Charlottetown. He afterwards removed to Centreville Bedeque and remained there until he moved to Reading, Mass., about ten years ago. At Reading with his son, Vernon, he carried on a large florist business. He was a public spirited man and a great worker in the cause of temperance. He was an adherent of the United Church.

The late Mr. Schurman leaves to mourn his widow, formerly Miss Emma Black, of Bedeque, one daughter, Miss Winnie Schurman, R.N. of Summerside and one son, Vernon of Reading, Miss Schurman left on Saturday morning for Reading.

### S'ide Defeats Miscouche

On Wednesday afternoon a picked team of Summerside's younger ball players journeyed to Miscouche and handed the MacLean League entry from there a severe drubbing.

Utki Arsenault, young pitcher who performed for the C. Y. M. L. this year, was seldom in trouble on the mound for Summerside, allowing only one run in the first and another in the fifth.

F. Gaudet, on the mound for Miscouche, was batted hard and allowed seven runs in the first inning and four more in the second. After that Summerside seemed to score at will.

**LINEUPS**

### Health Survey For Ontario Unemployed

(C.P. By Guardian's Special Wire) TORONTO, Aug. 2.—Emergency sleeping quarters used by unemployed since the Ontario Government's order removing single men in hostels for relief rolls on Aug. 1 went into effect, were vacant last night as the men returned to their former homes to remain pending a government survey of their physical fitness.

After representations by the Co-operative Commonwealth Federation and the Canadian Legion Premier Mitchell F. Hepburn said today that the survey had been completed because the Ontario welfare department had promised physically fit men who refused jobs would be ejected from the hostels.

Toronto has been the only municipality so far to meet the arrangement, said Mr. Hepburn. He added it would be limited probably to Hamilton, Windsor and Ottawa where hostels were located.

Less than a minute was required by the board of control at a special meeting to open the six city alleys to the 1,100 unemployed single men. Led by a pipe band from the C. C. F. organization, they marched to the registration office and dispersed to the various hostels.

**GIFT TO ART GALLERY**

DUBLIN, Ireland, (C.P.)—Sir John Lavery, B.A., is giving the Dublin Municipal Art Gallery a group of 33 pictures painted by himself in memory of his wife who died last January. The paintings are historical pictures of the period of the Anglo-Irish treaty of 1922.

Mr. and Mrs. C. W. Redmond and daughter, Miss Dorothy Redmond, B.A., have returned to their home in Moncton, N. B., after visiting friends on Prince Edward Island. They were accompanied by Miss Ethel Strong, who will be their guest for a few days, S.

Mr. and Mrs. Maynard Schurman have as their guests, Rev. Stewart Linkletter and Mrs. Linkletter of Colorado, S.

### ALL-STAR DEFEND HIGH SCHOOL TEAM

### Industrial League Leaders Triumph At Western Capital.

The All Stars, leaders in the Charlottetown Industrial League slugged out a convincing 17-6 victory over Summerside High School last night. The younger inexperienced school outfit put up a good fight until the seventh at which time the score was 9-5 in favor of Charlottetown but a six-run attack at this time put the game in the bag.

The All Star infield was clicking to perfection and was very pretty to watch. Stewart the diminutive pitcher for the visitors was in fine form and was supported well by his mates. He kept eight hits well scattered and struck out 10 batters. The Summerside High ball for Summer Side High but was afforded only fair support by his infield. He struck out 12 batters but was touched for 20 hits including two home runs and four doubles. Both Summerside pitchers were somewhat conflicting but, some years ago, the Privy Council upheld the act. Lord Haldane, in the decision rendered at that time, held that, while the provinces dealt with the sale of liquor, drunkenness in Canada had attained such proportions as to become a National menace. Therefore, in view of this fact, national-wide tendency the act was sustained as within the legislative competence of the Federal Parliament.

There will be much interest as to whether the same conditions are held to prevail and thus justify the continued operation of the Act.

Telephones to Rome were kept busy throughout the day as Benito Mussolini's shadow falling over the behind-the-scenes negotiations despite the miles separating him from Geneva, was kept informed of developments.

### WAR BETWEEN CHURCH AND STATE ON, SAYS CATHOLIC GAZETTE.

(C.P. By Guardian's Special Wire) BERLIN, Aug. 2.—Concurrent with the announcement today of the Nazis' most drastic criminal law for treasonous opponents of the Fuehrer or any of the Nazi policies, the official Catholic Gazette of the Berlin diocese lashed out for the first time against the third Reich and declared "the war between the state and church is on."

Other outstanding events in a particularly controversial and active day were:

"Dissolution of the Catholic War Veterans' Association in the Rhineland because the existence of this confessional league could break national solidarity and provoke religious conflicts among veterans."

Orders from Gen. Werner von Blomberg, War Minister, that all members of the army who formerly were storm troopers must salute chiefs of the New party when the latter are in uniform; The order of explosion of Ernst Klein, Berlin correspondent of the Basler Nachrichten, important Swiss newspaper, within five days because he was an "Austrian Non-Aryan" and had attacked Nazi policies;

Impressive ceremonies throughout the Reich, with all flags at half mast, commemorating the first anniversary of the death of President Paul von Hindenburg.

The Gazette of the Catholic diocese, which until now had refrained from direct counter-attacks against the state, declared, "there is no longer any doubt that our adversary has lined up against us. The profs lie in their frank hostility against Christianity. Their call to battle goes from the cold negation of Christian creeds to blasphemy charged with hatred. Their object is to drive Christianity from our country. One tells us that Christianity and Germanism are incompatible, and goes so far as to declare that to accomplish our national destiny it will be necessary to extirpate Christianity from Germany."

The days of Christianity in German are numbered, say the anti-Christians. But the Church remains calm, which is a strong sign."

**SKIRTS LINED WITH GOLD**

SOUTHERN, Eng. (C.P.)—Gold sovereigns and half-sovereigns to the value of \$1,850 and bank notes worth \$720 were found sewn in the hem of Mrs. Louisa Mitchell's skirt, when she was admitted to the poor house. She is 80 years old.

**MINISTERS IN DEMAND**

DURBAN, South Africa, (C.P.)—Ministers of religion were in record demand recently. There were not enough to go round owing to the number of weddings and funerals.

LONDON, (C.P.)—Determined to serve seven days imprisonment for exceeding the speed limit Miss Fay Taylor raised vigorous objection when somebody paid her fine but she was evicted from jail.

dispute to be tossed back into the League's lap if that failed.

Apparently only Ethiopia's consent to the new compromise plan, which succeeded where two previous ones had failed, was needed. It appeared that no great difficulty would be experienced there.

The surprise session was called after members, despairing of an agreement today, had given up and gone to the home of C. A. Venol, League of Nations Secretary General, for cocktails.

Agreement had been foreshadowed earlier in the day when the British asserted the situation was distinctly improved. A spokesman said: "We hope to have good news late today."

### Guard Against Sabotage

(Copyright 1935, By The Associated Press) ADDIS ABABA, Ethiopia, Aug. 2.—Emergency precautionary measures to keep open the Addis Ababa Djibouti railway line, this capital's only outlet to the world, were taken today after three Italian saboteurs, natives of the Dodecanese Islands, were killed in an unexplained wreck.

Emperor Haile Selassie and his advisers were authoritatively reported ready to impose martial law in the capital, and to guard against sabotage and control the wild tribesmen rushing to answer yesterday's call for recruits.

Still another major problem faced the King of Kings in militant women demanding the right to bear arms against Italy in the event of war. A leading spokesman for the would-be-feminine warriors, Woizero Asazdatch, daughter of Commander Dedjazmach Haptemikael, urged her sisters to follow her into battle, and announced:

"I will organize and lead my own army of women."

A protest by the Italian legation was understood to have followed the death of the Dodecanese in the train derailment, which tied up traffic along the somewhat rickety line all through the week.

Determined to keep intact Ethiopia's channel to the sea, the Emperor detailed picked troops to guard bridges spanning the enormous chasms along the way to Djibouti. He entrusted the biggest construction company in Ethiopia with the task of providing material for repairs.

### Criticize Hoare's Speech

ROME, Aug. 2.—(A.P.)—Assertions that Italy would not let Geneva come again, her definite program in Africa were made today.

The controlled press, silent on the Geneva situation, lashed out at Sir Samuel Hoare's speech on the Italo-Ethiopian crisis before the House of Commons yesterday, terming the British Foreign Secretary's remarks "inauspicious and irresponsible."

### NEW APPROACH TO CURRENCY STABILIZATION

(By F. L. Bret, Havas Staff Writer) (Copyright 1935 By The Havas News Agency)

(C. P. Havas Bureau Guardian's Special Wire)

LONDON, Aug. 2.—Great Britain, it was believed here today, will attack the problem of world monetary stabilization as soon as the next general elections are out of the way, providing of course the National Government is returned to power. But the approach will probably be somewhat different from the lines suggested in the past.

British financial circles seem to have adopted generally the view that parity must be based on comparative prices, and not on an inflexible gold standard or any other such rigid system.

### Flexible Parities

Flexible parities that can vary within certain ranges, regulated through a fund comparable with the exchange equalization fund, which has been found satisfactory, are now favored. As financial circles here remarked, the government already has stabilized the pound for all practical purposes without taking any formal action to that end. The purpose of the new arrangement would be to retain the advantages of the exchange equalization fund and do away with certain disadvantages.

Stabilization is seen as the prime prerequisite for world recovery of international trade. It would make possible negotiation of long-term contracts and would allow abolition of many taxes and quotas designed with certain disadvantages. Exchange fluctuations and their consequences. It would give a stable basis for negotiation of international loans whose servicing and amortization would be facilitated by re-establishment of world exchange operations.

### Envisages Parity

Sir Arthur Salter, whose authority is assured by his position as a member of the government's economic committee, has published two articles in the last two numbers of the economist envisaging establishment of parity among the United States, France and Great Britain, with the pound at \$4.86 and the franc at 160.

The plan would be fixed by the French, but which Sir Arthur thinks should be at least 80 per cent of its current parity.

The parities would include a certain moderate range of fluctuation. The contracting parties would agree to practice no policy susceptible of leading to depreciation of currency below the limits set.

Maintenance of parity under this theory would be assured by the two banks for international settlements would create and manage a central equalization fund whose resources would be provided by the participants in the scheme and which would help maintain the established parities.

If all these moves failed to keep the money at par, the country affected would have the right to readjust the value of its currency.

### "Tiger" Mauled Wilson Says Versailles Sleuth

PARIS, July 29.—The late Georges Clemenceau, "Tiger of France," seized the late Woodrow Wilson by the throat, spat in his face and called him "Boche, Boche," during the Versailles peace conference, L'Intransigeant said to-night.

The incident was described in memoirs by Sir J. Basil Thompson, former British intelligence service chief who guarded statesmen at Versailles. They included this hitherto untold incident:

During peace conference discussion of the Saar, Wilson and Clemenceau were already near the breaking point when the "Tiger" offered Andre Tardieu's compromise solution.

Wilson rose, straightened his glasses and replied France should have nothing to do with the Saar. He rejected all of Clemenceau's suggestions.

The "Tiger" rose, white with fury. He spluttered something unintelligible to his colleagues about the conference table, then sprang at Wilson's throat.

He shook him violently, as though to strangle him, spat, and shouted "Boche, Boche."

America's apostle of peace picked up his glasses ran to the door then he changed his mind.

He returned to a fireplace, contemplated the damage in a mirror. His collar was unfastened, his collar torn. With the room death-like in its silence he repaired the damage as best he could.

Clemenceau, ghostly pale, re-seated himself and watched the strange toilet with compressed lips. David Lloyd George, the British prime minister, witnessed the scene in silence. He contemplated his penic point, avoiding the Tiger's attention.

His clothing adjusted as well as possible, Wilson squared his shoulders, crossed the room and went slowly through the door.

"That," Sir Basil said, "was the peace conference's most dramatic moment."

### MIXED TREND ON MT'L MART

(C. P. By Guardian's Special Wire) MONTEREAL, Aug. 2.—Deprived of leadership from any particular section of the list, stock prices on the Montreal Stock Exchange today charted their own course and at the close the trend was mixed.

Weakness seeped into the Exchange at the opening bell and when bulls attempted to bolster the market, the tone became highly irregular. One or two firm spots were in evidence but most issues were inclined to point downward. Changes were confined to narrow limits.

In the textile group Canadian Celanese Preferred was a firm issue and gained a point to 119. Metals were inclined to be a little lower. Hollinger Mines slipped 20 cents to 13.50 while International Nickel wavered slightly and closed at 27.34, unchanged. Consolidated Mining and Smelting failed to appear.

Sherwin Williams slipped 1-2 point to 11 1-2 while Dominion Steel and Coal "B" at 4 3-4 and Dominion Coal "C" advanced New at 17 3-8 were up 1-8 point each.

Total sales were 8,430 shares; bonds \$85,150.

### Grand Circuit Opener At Rockingham

(A. P. By Guardian's Special Wire) SALEM, N. H., August 2.—All of the eligibles for the great Hambletonian classic at Coshuen, with the exception of J. J. Baker's Greyhound, probably the greatest three year old trotter in training, will swing into action tomorrow in the \$5,500 American stake that tops the opening Grand Circuit program at Rockingham Park.

Greyhound, ineligible for the American and also next Thursday's \$5,500 National stake, will compete in a three-year-old trotting event here next Tuesday. All of the other Hambletonian entries will go through their final dress rehearsal in the National on Thursday.

The second step would be to obtain the co-operation of other countries of the sterling bloc, and the gold bloc.

### Writ to Seize Church Building

(C. P. By Guardian's Special Wire) MONTEREAL, August 2.—Judicial history was believed made today here when for the first time in the province of Quebec, a seizure of a church was provided for. The Superior Court issued a writ to seize the church building and presbytery of the financially-harassed parish of St. Etienne.

The writ, issued to satisfy a claim of Dame Emillienne Delorme for \$6,287 which she had loaned to the parish, places the church property sole exception of the surrounding land under seizure, to be sold by Sheriff's sale and the proceeds to be applied to the wiping out of her claim.
