ALL NEWS OF LOCAL INTEREST

At the Police Court yesterday before acting Stipendiary Magistrate Smallwood two drunks, Frank Worth and A. McNeill were each fined \$2 or 10 days.

A SPECIAL meeting of the Board of Trade of Alberton called to consider the new railway station site, declined unanimously upon placing it right out on Church street. They want the "Y" done away with entirely too, and ought to have their way.

In its illustrated edition of "Some Faces seen at the National Live Stock Convention," the Farming World of Toronto, issue of April 11th, has a fine picture of Rev. E. Atte Barke, as representing Prince Edward Island.

The concert next Tuesday evening in Grace Church may be about the last of the season, but by no means the least. The members of the Orchestra and others are making great preparations to give the public a good entertainment. Be sure to reserve the night.

THOMAS Robins of Central Be leque has notified C. R. Smallwood, the exhibition secretary, that he will repeat the offer of last year by giving prizes for foals of 1904 sired by his thoroughbred stallion June Day. 1st prize, \$10; 2nd prize \$8.00; 3rd prize, \$4.00. Other offers will be gladly received.

YESTERDAY The Guardian had a pleasant call from William Brennan, one of Pictou's Town Councillors. Mr. Brennan has been in the city since Tuesday last and returns by the Minto this morning. While here he purchased from George Handrahan, two exceptionally fine draft horses weighing 1245 and 1300 lbs. These horses will be used by the Town Council of Pictou. While in the city Mr. Brennan was the guest of his father-in-law, John Fraser, in this city.

THE Oddfellows are making extensive preparations for celebration of the 85th anniversary of their natal day on April 26th. On Sunday April 25th they will attend the Baptist Church in procession headed by the 4th Regiment Band where a sermon will be preached by Bro. Rev. G. R. White. On Tuesday evening April 26th a grand reunion will be held in the Oddfellows' Hall, Brown Block to which all Oddfellows their wives and the daughters of Rebekah will be invited.

THE long and severe winter and the fact that a sufficient supply of fuel was not laid in makes many uneasy about the Maytens, whose sufferings have been reported by telegraph. There is little wood supply in the islands, the fuel being imported from C. B., and such a winter as we have gone through must have quickly exhausted the ordinary supply. There is a population of over five thousand souls in the islands who live practically by fishing. The Government was to send a relief steamer to their assistance first chance. It ought to be easy to get there now.

HIGH BANK NOTES.—Mr. and Mrs. Byron are visiting Mrs. Byron's mother, Mrs. Marchison.—Jas. McLeod arrived home Friday from Colorado, after an absence of thirteen years. He was accompanied from Boston by his daughter Theresa. Mr. McLeod was engaged in mining while in Colorado.—The fishermen are daily crossing the straits to Pictou Island where they are making preparation for fishing. There is now no ice to be seen in the strait.—The entertainment and social held in the school house on March 11th was a social and financial success. The program which consisted of recitations, dialogues, readings, speeches and singing was carried out by the pupils of the school in a manner creditable to children of their ages.

CONSIDERABLE excitement was caused on Victoria Row last evening about six o'clock by the runaway of a horse driven by Pictou C. Brown. The animal got beyond his control while turning Prowse's Corner and dashed towards the sidewalk. In front of Stanley Bros. he broke a wooden post but the iron one at James Paton & Co's brought him to sudden halt. Mr. Brown was thrown on the mud but was not seriously injured.

The Castle Hall of Empire Lodge, Knights of Pythias presented a pretty scene last night on the occasion of the dance and supper given by the dance to their friends. The guests included the members and their friends and during the evening a most enjoyable time was spent. The music for the dancing was furnished by Miss Josie Smith and the caterer for the evening was F. B. Armour. It is needless to say that both music and refreshments were up to the highest standard. The rooms of the Knights of Pythias are especially well adapted for such gatherings as that of last night and it is to be hoped that they will be of frequent occurrence.

A GREAT LITTLE WORKER.
During a long life time the heart will propel half a million tons of blood through the body, and so long as the blood is in a healthy condition it will repair itself as fast as it wastes, patiently keeping up the play of its valves and the rhythm of its thro'. If the action of the heart gets weak, irregular and fluttering, the blood is lacking in nourishing qualities and requires just such assistance as is best supplied by Dr. Chase's Nerve Food, the great blood builder and nerve restorative.
