Some time ago one of the crosses of the St. Dunstan's Cathedral spire was blown down. This cross had been left for some time and the copper fastenings on the inside of the base of the cross corroded, greatly weakening the fastenings and leaving practically no strength to resist the force of a gale which entirely separated the cross from its base. Now the other cross is being taken down and new ones placed in the places of the old ones. Five men are employed on the work and their high degree of workmanship will perhaps aid them in the proper performance of their contract.

### There Are No Others

that combine all the superior qualities that our "Gem" Icecream freezers do. They are the best freezers made for quick results. No salt can enter the freezer or no ice stops the cogs. It is easy to work, takes less ice and gives better satisfaction than any freezer made.

It is the "Gem" of them all.
