- **Poultry Wanted. We will be buying dressed poultry starting November, every week day except Saturday. Buying on grade, paying top market prices, prompt returns, fair grading, try us. Ship express, Geo. Lightizer Co., Next Queen Hotel, Phone 841. L-1523-10-29-31.
- F. E. I. VEGETABLES FOR N. S.
- (C. P. By Guardian's Special Wire) SYDNEY, N. S., Nov. 7.—Several vessels laden with choice Prince Edward Island vegetables have arrived in port and are now disposing of their excess at local docks. Prices so far are much lower than last year.

HON. J. A. MACDONALD, M.P.
Who, to the deep regret of his constituents, announced at yesterday's annual meeting of the King's County Conservative Association that he purposed retiring from public life and would not again be a candidate for election.

Enthusiastic support of the policies of the leaders of both the local and federal Conservative administrations was voted in resolutions unanimously adopted at the annual meeting of the King's County Conservative Association, held yesterday afternoon at Georgetown.

At the meeting Hon. John A. MacDonald, M.P. for the County, who received very warm applause, announced, to the deep regret of the convention, that owing to pressure of business duties he purposed retiring from public life and would not again be a candidate for election. He delivered a splendid address, reviewing the activities of the Bennett administration during years of unparalleled world depression, and showing how by sane policies and aggressive leadership Canada today stands in the van of the world movement to prosperity.

The political situation provincially was ably reviewed by Premier MacMillan, who also was given an enthusiastic reception, as were his colleagues, Hon. G. Shelton Sharp, Minister of Public Works, Hon. A. A. MacDonald, M.D., and Hon. H. D. MacLean and Mr. J. Howard MacDonald. The latter speaker dealt chiefly with organization work. Stirring addresses were also given by Mr. Neil MacDonald, Montague, and Mr. Richard Murley, Murray Harbour, a veteran elector who recorded his first Conservative vote in 1869 and

Maritime Fishery Probe Continued

President Of Maritime National Fish Company Gives Evidence.

(C. P. By Guardian's Special Wire) OTTAWA, Nov. 7.—None of the products dealt in by the Maritime National Fish Co. lend themselves to the operations of a marketing board, A. H. Brittain, President of the company, told the Royal Commission on Mass Buying here today. He thought the smoked herring business on Grand Manan Island might, however, derive some benefit.

The marketing of the product was the greatest difficulty in the industry. The fish business was only a one-day a week business—Friday, sometimes carload lots were sent by freight; at other times when the demand was not so keen the fish had to be shipped by express, which added one cent a pound to the freight expense. It would not be profitable for the company to establish its own wholesale warehouses, said Mr. Brittain.

"What is there to prevent three or four large dealers getting together and saying we will pay one cent a pound more to the fisherman," asked Mr. Sommerville.

"It is all very well to say we will pay 1/2 cent more but it is a different proposition to sell the fish at the resulting higher price."

"But you did get together and pay 1/2 cent more this summer," insisted Mr. Sommerville. "All the companies did it at the same time. Was it as a result of a campaign for higher prices in the Nova Scotia press?"

"No, the press had nothing to do with it."

"But the two coincided."

"Just a coincidence," commented Mr. Brittain.

"Was there no agreement among you to raise prices?"

"No sir."

"Is there ever a meeting to decide selling prices in Montreal, Toronto and other cities? Or do you telephone among yourselves or come to an agreement in some other way?"

"We discuss the matter with other firms in the same line of business and agree by telephone on certain prices but it is unfortunate these agreements are broken down."

"It is just a gentlemen's agreement?"

"Yes."

"Has that been the practice for some years?"

"No, it began about two years ago and has been carried on at odd times. The agreement runs along until some one breaks the price. Then we get together again."

New Brunswick Approves Tuber Marketing Scheme

(C. P. By Guardian's Special Wire) WOODSTOCK, N. B., Nov. 7.—A scheme under the National Products Marketing Act to regulate the marketing of potatoes produced in the five Eastern Provinces was approved at a meeting of the Associated Shippers and Growers of New Brunswick here this afternoon. The plan was approved only by a small majority however, and the meeting decided not to assume authority of a decision for the whole province. A series of meetings will be held during the next few days to secure a consensus of others affiliated with the potato industry.

The meeting recommended that the government take further steps to secure the removal of the embargo on Canadian potatoes in the British market. It further recommended a sixteen ounce limit for

Canada grade 1 potatoes for the Canadian trade.

A. A. H. Margison, of Venteville, president, and S. L. Keith, Centreville, acted as secretary. Also present were L. F. Burrows, of Ottawa, secretary to the Canadian Horticultural Society, J. K. King, Deputy Minister of Agriculture and chairman of the board. Others present included: B. Frank Smith, M.P., Florenceville; F. G. McLeod, F. W. Pirie, M.L.A., Grand Falls; F. G. McLeod, Moncton.

Mr. King said the Department of Agriculture had no intention of forcing the scheme on the potato industry. He pointed out the plan had already been approved by Ontario, Prince Edward Island and Nova Scotia, while Quebec had in general expressed its consent.

NEW DEAL TIDE SWEEPS TO CLIMAX

Democrats Masters In Both Houses As Result of U. S. Election.

(By Ken Clark, Canadian Press Staff Writer) (C. P. By Guardian's Special Wire) NEW YORK, Nov. 7.—The power of the old-line Conservative Republicans was broken in yesterday's Congressional elections and tonight the Democratic party, or the New Dealers, found themselves masters of the Senate and House of Representatives, rapidly moving toward complete and solid control of governorships and legislatures in 23 states.

In the fifth winter of a depression the voters of the United States declared with no uncertain vote for the policies of Federal relief and Government control of business and agriculture instituted during the past two years by President Roosevelt.

Yet the markets, lethargic in the early hours of today, became brisk toward the close. Stocks were bought briskly as prices rose; wheat went over a dollar a bushel; cash corn rose to the highest premium in a number of years.

The Rooseveltian New Deal tide spared neither age nor reputation in its devastating sweep.

Down went the old guard leader, Simeon D. Fess in Ohio; the famous debater and skillful lawyer backed by the House of Mellon, Senator David A. Reed in Pennsylvania. Down went Senator Frederick C. Walcott, close friend of ex-president Herbert Hoover, in the rock-ribbed Republican state of Connecticut. The flood engulfed Senators Arthur Robinson of Indiana, Roscoe C. Paterson of Missouri, Felix Hebert of Rhode Island, all stout supporters of some form of rugged individualism.

Outstanding Survivor

The outstanding survivor among the Republican Senators was ARTHUR H. VANDENBURG of Michigan. Vandenberg, sometimes thought of as a presidential candidate, was this way and that about the new deal. He was elected.

Bronson Cutting, the Senator from New Mexico, looked upon as a bit of Progressive and a friend of Roosevelt's claimed the right to criticize the New Deal and at latest reports was still possibly on the outside of the Senate Chamber looking in.

Hamilton F. Kean, the wealthy New Jersey Senator, lost his seat to

Visits Ottawa

HON. WILLIAM PHILLIPS

Reports were revived in Ottawa that Canada and the United States were renewing efforts toward a re-approxy treaty and toward further discussions on the St. Lawrence waterways project, by a visit to the capital of Hon. William Phillips, United States undersecretary of State.

Reports were revived in Ottawa that Canada and the United States were renewing efforts toward a re-approxy treaty and toward further discussions on the St. Lawrence waterways project, by a visit to the capital of Hon. William Phillips, United States undersecretary of State.

VISION LOWER TARIFFS WITH UNITED STATES

(C. P. By Guardian's Special Wire) OTTAWA, Nov. 7.—The sweeping victories of the Democrats in the United States elections yesterday are interpreted here as strengthening the hand of President Roosevelt in his efforts for lower tariffs with Canada and possibly the St. Lawrence deep waterways. With majorities so substantial behind him he would be better able to overcome sectional opposition.

The two countries have been drifting towards freer trade relations since the new administration took over in Washington. A comparison of conditions now and then with the President's consideration of the tariff shortly after his inauguration show that many of the causes of friction then have been eliminated.

One of the practices which business interests across the border look upon as an exception to the general rule of free trade is the imposition of dumping duties. Also, when the Canadian dollar was at a discount, which sometimes ran as high as 20 percent, Canada, in fixing values for duty purposes, took into consideration the difference in the value of the dollar as it was then.

The question of the fair market value, with the application of dumping duty when goods were sent to Canada at a lower price than similar goods were sold in the United States, is not nearly as pressing as it was.

The establishment of the codes under the NRA fixed fair market values which the Canadian Department of National Revenue accepted. This made it unnecessary for the department to probe into the production costs of American firms, which had been a source of much irritation.

The Canadian budget last year reduced several imposts against United States and it is learned that the whole tendency of the Department of National Revenue, of which Hon. R. C. Matthews is the head, is to lower dumping duties, wherever possible.

WILL SEEK POWERS UNDER DOMINION ACT

(C. P. By Guardian's Special Wire) OTTAWA, Nov. 6.—Exercise of provisions in the Dominion Marketing Act, and the powers vested in the Federal Government to preserve "peace, order and good government," will be sought by Premier L. A. Taschereau and those associated with him in the effort to prevent the export of newspaper at a price which he claims to be less than production cost.

It was learned in Ottawa tonight that preliminary overtures had been made to Prime Minister R. B. Bennett to secure his cooperation in the fight of both Premier Taschereau and Premier Mitchell Hepburn of Ontario to rehabilitate the newspaper industry so important to those two provinces.

On the several occasions Mr. Taschereau has stated that he would ask the Dominion Government to exercise its extraordinary powers and place an export embargo on newspaper if forced to do so, "as a last drastic resort."

No official comment will be forthcoming from the Dominion Government until formal request for action is received. Under the two statutes named the government has ample power to restrict, control or prevent the export of natural products and it is anticipated that Mr. Taschereau will demand that newspaper export price be fixed at a minimum level.

ACCIDENT PROVES FATAL

SUSSEX, N. B., Nov. 7.—His first day's work at a mill near Petticoe died of Harvey Leake, of Sussex. He died in hospital here tonight from a fractured skull, suffered when a pulley broke.

DOUMERGUE LEAVES OFFICE THIS MORNING

Refusal of Radical Socialists to Support Premier Leads To Cabinet's Fall.

(By John Evans, Copyright 1934 By The Associated Press) (A. P. By Guardian's Special Wire) PARIS, Nov. 7.—Premier Gaston Doumergue—"Papa" and "Gaston"—left his office at 10 o'clock tomorrow morning.

The aged premier, his nine-months-old truce cabinet wrecked by Radical Socialist opposition to his plans for reforming the French constitution, announced tonight that he would present his cabinet's resignation to president Albert Lebrun.

Doumergue came to power amid storms, the bloody Stavisky riots of January and February.

His resignation amid political storms and dire forecasts of new strife to come.

His mind is at rest, however, and he feels that the blame is not his.

Situation Clear

"The situation is clear," he said tonight, after announcing his cabinet would meet for the last time at the Elysee Palace tomorrow.

"The responsibilities for breaking the political truce are established and I am more at ease. I go to the cabinet meeting tomorrow as calm as you see me."

"Naturally, if my ministers abandon me, I won't go before the Chamber of Deputies tomorrow afternoon."

A stormy session of vice Premier Edouard Herriot's bloc of radical Socialist ministers, at which they decided to maintain the resignations they presented yesterday, preceded the premier's announcement, which came to confirm what all Paris knew was inevitable.

Radicals Withdraw

The radicals would not back the premier's main plank in his constitutional revision structure—that stripping the Senate of power to dissolve the Chamber and giving it to the premier and the president—and Doumergue would not yield an inch.

The retiring cabinet head said tonight he would not seek dissolution of the chamber. That step, he said, would throw all the issues into the laps of the voters.

"I must have cabinet order to ask for dissolution," Doumergue explained. "I have no intention of creating a minority government for I would be accused of being a dictator. I will state the full reasons for my resignation in my letter of resignation."

A peaceful day that followed the

(Continued on Page 3)

Officers Are Blamed For Disaster

(A. P. By Guardian's Special Wire) WASHINGTON, Nov. 7.—Blame for the heavy loss of life in the Morro Castle disaster was placed on the ship's officers and crew today in the United States government's report on the tragedy, but no attempt was made to fix the origin of the flames that caused 134 deaths.

After a careful examination of the wreck and evaluation of the testimony," said the report submitted by Dickerson N. Hoover, assistant director of the steamboat inspection service, "it is not possible to state what the exact cause was."

Blame for the catastrophe was placed by the government also on the construction of the vessel itself.

New Perth Meeting Unanimously Favors The Marketing Scheme

A well attended meeting to discuss the potato marketing scheme recently drafted with the co-operation of the Dominion Marketing Board was held last night at New Perth, presided. The speakers were Messrs. Gillies and Trainor of the Provincial Marketing Board, John A. Dewar, William Cain, John Mustard, Mont Anear, M.L.A., and others.

Mr. Gillies reviewed the steps leading up to the formation of the Provincial Board and the proposals made for a potato marketing scheme up till the time of the Ottawa potato men's convention. From this point Mr. Trainor carried the discussion forward, explaining the decisions reached at the Ottawa conference, which he produced,

Crowds Follow Judging Closely At Fox Show

Great Interest Taken In Yesterday's Activities. Keen Competition In Classes.

Yesterday morning was disagreeable again for the Silver Fox Show, but the afternoon was clear and fine and the judging theatre was crowded with people who watched with the greatest interest the big classes of the afternoon being judged. It was probably as appraising and appreciative an audience as has ever graced the show and the victors in the classes were the recipients of considerable applause.

It was almost 4:30 before judging was finished although only half an hour had been allowed for dinner. The medium silver class which was the last judged had 24 entries and each and every one of them was a show fox, but of course some of them were better than others and it took a lot of care to separate the eventual winners.

Tomorrow Judge Calbeck will be up against an even harder proposition when he tackles the yearling medium silver females with an entry list of 25, the male light medium silver pups with an entry list of 26 and the female light medium silver pups with no less than 45 entries, the largest class that has ever shown at any silver fox show in this country.

Owing to this unprecedented entry the Directors will this morning take into consideration the giving of additional prizes other than 12 and the probability is they will award six or eight more.

DARK MEDIUM SILVER ADULT FEMALES—This was the first class judged in the morning and all the entries were good foxes and splendidly fitted. Johnston Bros., New London, won first with Robert Baker, North Bedque, second and A. L. Rogers, Kensington, third.

YOUNG SILVER YEARLING FEMALES—This was quite a large class and once more the en-

NUDE PARADE THREATENED IN NEW ORLEANS

(C. P. By Guardian's Special Wire) NEW ORLEANS, Nov. 7.—The men that go down to the sea in ships when there are ships to go in are threatening to parade nude through New Orleans streets unless the Government clothes them.

Some 200 unemployed seamen, says "The Best-Laid Scheme," publication of the waterfront employee council, headquarters for jobless sailors, will have to parade to relief headquarters in the altogether because the "Lookout" charges the relief administration requires "bare nakedness" as proof they need clothes.

And further, says the "Lookout," "Lady Godiva on horseback won't have anything on 200 nude seamen who will have to walk to Carondelet Street in the near future."

SCHOONER PILGRIM IS SOLD

NORTH SYDNEY, N.S., Nov. 7.—(C.P.)—The Gloucester schooner Pilgrim, damaged last summer when she ran aground on the Cape Breton coast, has been purchased by Raymond Salthill, manager of the Cape Breton Salt Company. Captain Ben Pine of Gloucester, one of the owners, was here last week negotiating for a sale.

Miners Vote To Continue Walkout

(C. P. By Guardian's Special Wire) NORTH SYDNEY, N. S., Nov. 7. Two hundred miners who tied the Sullivan, Tom and Moose collieries two weeks ago, voted today to continue their strike on demands for wage increases a met by the operators.

The vote was taken after a committee had conferred with Thomas Hartigan, manager of the Indis Cove Coal Company, and had been told that the company was unable at present to meet the demand for increases to 10 percent for day men and 12 1/2 percent for contract workers.

Nearly all the Amalgamated Mine Workers' local unions in the district have promised to assist in day to continue their strike until demands for wage increases are met by the operators.

They ought to call this dieting craze—the back to the farm movement!
