No Increase

tension of the Dominion Central Farm at Ottawa.

There will be no increase in the sessional indemnity this year. That was made clear by the prime minister when he met with an insistent gathering of his followers late last evening. In what language that final pronouncement was clothed is not available for publication, but creditable reports agree that they were forceful and unmistakable and just as forceful and unmistakable were the expressions of opinion about the vagaries of parliamentary government and coming from the private members, according to the same creditable reports. There was rebellion in the air, but it did not settle to the ground.

What has astonished outsiders has been the celerity with which the demand for an increase in sessional indemnity has travelled through the corridors. Finally there were only two or three ministers including the prime minister, openly opposed to the proposal. It is understood that the leader of the Opposition assumed a position of benevolent neutrality and so far as can be learned there was only one private member, Thomas McMillan, (Liberal, South Huron), declaring himself as opposed to the proposal. The agitation was actively promoted by prominent private members in the Liberal, the Conservative, the Progressive and the Labor groups.

Aside from a latent fear of the mind of the prime minister that some opposing member or opposing candidate in the next general election might use favorable action on this request as a sledge hammer in the coming appeal to the people, there is another big factor that stood as a "bete noir" to these seeking more pay in the House, and that was the prime necessity of also including the senators in the deal. If any hope for the measure's final passing was to be entertained and it probably will be, this ancillary "relief" for members of the upper chamber made the Prime Minister hesitate. It would not be a happy corollary to his "reform" program. Prorogration is still in the air.

200,000 LEFT CANADA

OTTAWA, Ont., June 11.—Over 200,000 people moved from Canada to the United States the year after the full force of the Fordney tariff came into effect in that country, said Hon. R. B. Bennett, Conservative leader, in the House of Commons today. The Canadian government had encountered that movement by lowering the protection in this country.

"How many of the 200,000 came back?" Mr. Bennett was asked. "Not more than ten percent," the Conservative leader replied. Now another tariff more far-reaching was before the Senate of the United States, having passed the House of Representatives, Mr. Bennett continued. How was the government meeting this crisis? it has done nothing. The new tariff would mean an increase, in many cases, $20 a head on cattle going from Western Canada to the United States. The prime minister comes in with his majority and says, "Hush, hush, don't provoke them over there they might do something to you," Mr. Bennett asserted. The real issue that faced this country at this moment, was dependency. The danger was that Canada should become dependent on another country for butter, fruit, meats and manufactured articles.

Premier King interjected to remark that he had not used the word "hush", in his budget speech. Hon. James A. Robb, Minister of Finance, who followed Mr. Bennett, remarked that it was unfortunate that the budget speech of the leader of the Opposition had been so long delayed. Mr. Bennett was much exercised over the fact that down in Washington "where the weather is hot" Congress is contemplating to determine how much it would tax the women and children of the United States on the milk, butter and bread which they require for their livelihood. Until Mr. Bennett had a more definite policy to outline, Mr. Robb concluded, he thought the House might very well go on with the business and vote supply. The House thereupon went into supply thus terminating the debate.

::Painless and perfect in their action, Miller's Worm Powders are always a safe reliable remedy for children who show symptoms of worms. These symptoms are easily recognizable in a feverish restlessness, frequently ending in convulsions. A point of notable importance is that after Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

SEIZURE OF STEAMER—A regrettable error occurred in the sub heading of a news article in yesterday's Guardian concerning the seizure of the steamer "Amla," which should have read: "Claim made that wages have not been paid by Government subsidized company." The omission of the last two words made the heading misleading.

MINISTRY DEBATED AT CONFERENCE

Presbyterians Make Changes in College Staffs and Discuss Qualifications of Ministers at General Assembly.

OTTAWA, June 11—Affairs of the Presbyterian college, Montreal, occupied practically all of this afternoon sederunt of the 55th general assembly of the Presbyterian church in Canada held in St. Andrew's church here.

The assembly accepted the resignation of Rev. Principal D. J. Fraser, D. D., of the college and appointed Rev. Prof. F. Scott MacKenzie, M. A. Th. D., in his stead. It also filled the vacant chair on the church history and homiletics by the appointment of Rev. A. Scott Pearson, M. A., B. D. D., Th. of Glasgow, Scotland.

There was considerable opposition to this appointment and an amendment was proposed to delay the appointment for one year and in the meantime have a respresentative committee study the whole question. It was finally decided to effect the appointment at once. The name of Rev. Wm. McCullock Thompson, M. A., of Sydney, N. S., was added to the judicial committee to take the place of Rev. James Wilson B. A., of Brampton, Ont., who is unable to act.

May Be Enrolled

The main recommendation of the Senate which was adopted, provides that ministers of the Presbyterian church, graduates of colleges that are now in the United Church of Canada, may be enrolled as alumni of the Presbyterian college, Montreal. J. Alex Cameron, of Montreal, chairman of the board of management of the Presbyterian college, Montreal, presented the report of that board. Its chief recommendation provides that the chair of church history and homiletics be filled.

James Rogers of Westmount, Quebec, convenor of the Trustees of the Church Extension Fund, presented the report of that committee. Loans to churches to the amount of $252,000 were approved during the year.

"The limit set for the borrowing power of the Board," said the report, "has about been reached and it will be impossible for this Board to approve further loans until sufficient funds are available." Mr. Rogers suggested that the clergy and elders interest the people in the church extension fund so that this important work of the church might be continued and pushed forward.

The report was adopted.

Many Appreciations

Rev. Dr. D. T. L. McKerroll, B. A., of Toronto, reported for the committee on the reception of ministers. Since 1925, he stated, 236 applications were received. Of these 125 were received, and 111 either referred to the board of education or no action taken. During last year 47 applications were made of which 25 were received and 22 referred to the board of education or no action taken.

Dr. McKerroll paid a high tribute to ministers who have come to Canada from Scotland, Ireland, England and other parts of the world. "The church," he said, "owes the men a great debt of gratitude."

Rev. Dr. T. Warnlaw Taylor of St. Andrews-on-Sea, N. B., urged abolition of this commission. He stated that all ministers accepted into the church from other churches should come before the Assembly.

"It is now time to do away with the emergency measures in accepting ministers."

Rev. Dr. Robert Johnston, of Ottawa, stated that there was no question of non-confidence in the commission. The question was, does the emergency still exist. He contended that it did and urged the continuance of the commission.

Rev. W. L. Newlon, of Saint John, N. B., asked if these ministers who, returning from the United Church, are so repentant why don't they take some of the vacant charges in the Maritimes instead of looking for large city charges.

OTTAWA, Ont., June 11.—Alarm at the increase in youthful offenders in Canada was mentioned by Brigadier-General J. P. St. P. Hughes, Superintendent of Penitentiaries, speaking before the fifty-fifth General Assembly of the Presbyterian Church in Canada this morning. The assembly was considering the report of the Board of Sabbath Schools and Young People's Societies.

"We must turn right about face in the management of our boys, otherwise we face disaster," he declared. After referring to the dangerous increase in inmates under 30 years of age in penal institutions, he emphasized the necessity of segregating them from older men. He issued a warning against crime stories in magazines and crime news in newspapers.

Prince Of Wales To Marry Is Rumor

LONDON, June 11—Belief is expressed in some quarters here that announcement of the engagement of the Prince of Wales to Princess Ingrid, daughter of the Crown Prince of Sweden, may be made within the next two weeks. Two possible occasions are suggested, the Prince's 35th birthday on June 23, and an elaborate ball which the Swedish embassy has arranged for the beautiful princess June 14.

It is not the first time that there have been rumors that the British heir would marry his 19-year old second cousin from Viking land, but not before have there been the combination of circumstances and events giving background and lending weight to the reports.

::Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain, and various other irritants may set up a trouble impossible to irradicate except through a sure preparation such as J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.
