On the 25th of June Rev. Brother George, vice-president of the Christian Brothers' Business College of this city, left for his old home in Charlottetown, P.E.I. His aged wife, Mrs. Jeremiah and Julia Deagle, a brother, John F., and his sister, Minnie, yet live in the old home—stated to welcome him. In Massachusetts he will visit the following members of his no-race-society: Frank, Philip, Joseph, Augustus, Frank, Margaret and Emily. Brother George took the C.P.R. in Vancouver, B.C., and is to go by St. Paul, Chicago, Buffalo, Boston and Newport, R. I., to take boat from Newport to Charlottetown. On his return he is expected to come through Montreal, the Great Lakes and Winnipeg, and expects to be in Portland about the middle of August.—The Oakland Maple Leaf.

A correspondent from Belfast writing the Guardian states that on certain evening he visited the home of Harry McTavish, Eldon, and was entertained the greater part of the time examining inventions, and letters from all parts of Great Britain and Western Canada offering McTavish large figures for his patents, among the rest was a letter from Richmond & Co. of Bradford, England, offering him two thousand dollars for the patent folding box and congratulating him for his ingenuity in putting such a useful device on the market which will be of great service to all dry goods dealers. The visitor on interviewing McTavish could not get a satisfactory answer as to whether he would sell to Richmond & Co or not as he has several other good calls for his box but would learn by some good letters shown him that the deal is about closed and the young inventor is now being handsomely rewarded for his ingenuity and cleverness. This box can be set up in an instant and packed with goods and the cover goes on without hammer or nail and when empty can be folded down occupying little room on cars or boat. The box is called the Belfast Patent after the good old settlement of Belfast which is the home of the McTavish family. The box is not only superior to anything heretofore designed for this purpose but is unquestionably one of the best inventions of any kind ever brought before the public and the inventor deserves to be praised for representing his Island home beyond the Atlantic Sea. The adjustable bracing hook is another good device invented by McTavish.

Mr Horseman What do you consider points of vital importance in the standard bred stallion? Is it not size, style, action, speed, manners, and endurance. Where are you breeding to get these points? Did you ever consider about Kinaros 38,086, a horse of 16 hands high and nearly 1200 pounds in weight, a pure gaited fast trotter, with style, size and action, a road horse as well as a race horse. He will walk 5 miles an hour, and is of a kind, gentle, fearless disposition. And what about his breeding? why it's second to none. He is sired by (the fastest trotting son of the great sire and race horse Kremila) Kamares 2.102 and his Dam, where can you find a horse in this province that has a Dam half her equal? Russula, she is only 13 years old now and she has produced 3 two yr olds and 1, three yr old to enter the list (all trotters) and she has another 2 yr old, Ballson, and a grand daughter 2 yr old, in training at Readville this year, and we all know Mr. Allen, picks the best colts from the farm for training and racing, and her produce seems to be among first choice, her last two colts sold, brought \$1950.00 She produces size, speed, early and extreme speed. What about his second Dam? Russina she is a producing Dam being the Dam of Unkamet 2.214 a sire, etc., and she is a full sister to the worlds champion brood mare sire, Nutwood 2.182, the only horse that ever stood at a service fee of \$1000.00. And his third Dam, Miss Russel, is the greatest brood mare of all mares. She is dam of Mand S., 2.082, etc. and is the only mare with 2.10 trotters in the first, second, third, fourth, fifth and sixth generations. Kinaros 38,086, is backed up by the worlds championship brood mares, and speed and brood mare sires. And he will undoubtedly prove to be the greatest brood mare sire ever brought here, and we must have the brood mares before we can raise the trotters, and there is no part of the Island needs a horse of this class as badly as Kings Co. Here is one of the best bred horses you ever had the privilege of breeding to, and is making the season at owner's stables, Montague, the old home of the Maritime Champions, Brazilian 2.19, and Ozen. D. 2.19. For further particulars apply to, T. GORDON IVES, OWNER

QUALITY Do you want to be certain of results? Do you want to know when you start out to make a picture that you can depend on your materials? We know you do and you know it too. Films, paper, chemicals and other things you use in the making of the picture must be right. The material used in the manufacture of Eastman goods is carefully and systematically tested and the finished product is also subjected to a thorough series of tests before being packed and sent out for you to use. We cannot afford to take chances on supplying anything but the best as we hold your interests in common with our own, and if you wish to succeed you should use as much care in selecting our materials as we do in selecting ours. You'll find it true economy to buy high grade goods. They will save you trouble and will yield a minimum amount of quality at minimum expense. Eastman materials are high-grade materials. Stick to them. JOHNSON & JOHNSON
