

Legislative Assembly

(Continued from Page 1.)

concerning which a petition was presented to this House last session; also if it is the intention of his Department to repair the road from Nine Mile House to Bedford and thence to Tracadie Harbor during this coming summer. Hon. Mr. McDonald replied that attention would be given to these matters.

Hon. Mr. Stewart presented a message from His Honor the Lieutenant Governor, conveying a report of the Department of Lands at Ottawa respecting the Acts of the Legislature passed at the last session. Then Mr. Blanchard resumed the debate on the Budget. He pointed out that the City of Charlottetown gets out of the revenues of the Province \$320,000 a year, while the rest of the Province gets \$450,000 and argued that the Hon. Member for Charlottetown ought not to complain about the cost of the small schools of the country. He contended that the salaries of the teachers should be increased—not lessened in any way. He criticized at some length the remarks of Hon. Dr. McMillan and enlarged upon the importance of education to the youth and the future welfare of the Province, in closing he submitted a lengthy review of the acts of the two parties in the Legislature.

Hon. Mr. Myers replied to the Hon. member for Tignish and referred to the work of his Department. He explained why there are fewer small schools now than when the late Government was in office and pointed out that Charlottetown is obtaining no undue advantage as to education over the country districts. As to the remarks of the Hon. member for Tignish, he said that fifty-three convictions for drunkenness in Charlottetown last year—the smallest number since records were kept—was a proof that the law is being better administered than it was in former years. He compared the financial record of the late Government with that of the present Government, and contended that by the administration of the late Government the Sinking Fund, maintained to pay the debt of the Province at their maturity—had been considerably depreciated by the late Government. The present Government had, he said, restored the Sinking Fund and had by so doing improved the credit of the Province. He stated that the arrears of taxes had been tabulated in the Treasurer's Office and that when the bills for taxes go out, taxpayers in arrears will receive accounts for the amounts they owe. As to the dismissal of returned soldiers he showed that untrue statements had been made and that the Government had exercised moderation in that regard as compared with the late Government. In respect to the roads there is one difference. It is that the cost of road-making was \$800 to \$1200 per mile under the present Government while under the late Government it was \$1200 to \$1500 per mile. As to the purchase of the incubator by the Egg and Poultry Association the fact is that the Department of Agriculture against losses during the first year of operation. As to the lime crusher and clover huller the Minister of Agriculture explained the measures he had adopted for the benefit of farmers by whom their use was available.

Today he pointed out, crushed lime is landed at Borden for \$4.50 per ton—as a result of his representations to the railway authorities. He said that the live stock at Falconwood, today, is just as good as ever it was; and he remarked that it is questionable whether the Government should maintain pure breeds to compete with those of the professional breeders who are doing so much to improve the stock of the province and create an interest in it. The Government is rather promoting the production of pure breeds and pure seeds. He remarked further that eighteen car loads of potatoes had recently been sent as far west as Calgary, and that hundreds of car loads had already, this spring, been exported from the Province by way of the Car Ferry and the C.N.R. As to technical education in the Province he expressed the opinion that the technical school was costing altogether too much money and that its close was therefore justifiable. With seven students in it the cost to the Province was \$20,000 a year—a cost that was much too great. "Short courses" had been established instead and better results were obtained. In the past year four thousand lbs. more wool were exported than ever before. The question whether a supply should be granted to His Majesty was then put and carried without division.

At the afternoon session this vote was revoked and Mr. J. B. McDonald, continued the debate, criticizing vigorously the speeches of the Leader and other members of the Opposition and warmly defending the Government. He said that strict economy was necessary at this time. An effort, he said, should be made to obtain from the Federal Government practical recognition to the Federal subsidy of the just claims of this Province. He felt sure that the Government would do what they could in the interests of the people of the province.

Mr. Buntain followed. He reviewed the record of the two parties, contrasting the loose administration of the Liberals with that of the members of this Govt. He said that he believed that for honesty, ability and honor, the Premier, Minister of Public Works and Minister of Agriculture were the equals of any who had previously held their offices. The present Minister of Agriculture has done everything in his power to promote the interests of the farmers and everything that he has done has prospered. All the Agricultural Associations in the province have been practically encouraged and assisted and the youth of the Province are being taught that "Home Sweet Home" is the best place to live in, after all. He contended, too, that the Prohibition Commission is doing better work now than has been done in the past. The electorate at large are better satisfied now than they have been in past years.

Mr. Irving said that he thought the best kind of a Government for this Province is a Liberal Government. Agriculture is the basic interest of the Province and the best in Agriculture is found in dairying and eggs and poultry. Shipping raw products reduces the fertility of the soil. More attention should be given to fruit growing. He felt sure that fruit growing here could be made profitable. As to immigration he was glad to learn that the Provincial and Federal Government are co-operating. He thought that the Hebrideans would be a good class of settlers here and would do much to increase the products of our fisheries. Prince Edward Island looks small on the map; but measured from the chin up the people are among the best in Canada. We have acre for acre the best Province in Canada for agriculture. We have climatic advantages and advantages second to none.

Mr. McEwen complimented Mr. Irving on the speech he had made. It was, he said, the best speech delivered from the Opposition side of the House. To find fault and throw mud is not in the line of statesmanship. If the members of the Opposition have any suggestions for the good of the country let them be made. The interests of the country should be the first consideration. Those who control the public departments have done so satisfactorily. All are working together unanimously for the good of the country. He attributed the fact to the leadership of Premier Stewart. Of course the Govt. cannot please everybody. But if the Government Party continue to work together for the good of the country as they are doing the people of the country will sustain them. He expressed the opinion that the Opposition had made a mistake when they voted against the address to the Dominion Government in the matter of the loss of the officers defrauded by Mitchell. If the Dominion will not pay those losses, the Province will have to do so. As to the Prohibition Liquor law, it is a good law if enforced. It is not enforced here; it is not enforced anywhere. Bootleggers and moonshiners are thriving. If we had free ale and wine the bootlegger would, in his opinion, be soon out of business. Mr. McEwen went on to say that the Sinking Fund had been depleted by the late Government. It had since been made intact by the present administration; and the value of our bonds had considerably appreciated. They are now selling at 101½ and 102. Mr. McEwen spoke at length concerning the past and present conditions and future prospects of this Province.

Mr. Dennis pointed out that the Prince of Wales College property could be greatly improved by the planting of good shade trees. He referred to the deplorable "Mitchell case." He did not wish to condone the errors of the late Government. But he contended that the late Government was not to be blamed, though deceived. How were they to know that Mitchell was a crook? The farmers here have too much land. They are land poor. The example of the farmers of Denmark should be followed. If it were the population would be increased to three or four times what it is today. Mr. Dennis was dealing with the Prohibition question when the House rose to take recess.

After the evening recess Mr. Dennis referred to the administration of the Prohibition Liquor Law and contended that as the present Government had dismissed the former Board of Commissioners and appointed another Board, were responsible for the results. The object of the late Government was, he said, not to obtain revenue from Prohibition; but to create a temperance sentiment. The object of the present Government seemed to be rather to obtain money. Last year they received \$51,000. That was pretty good business. But it was not a wise way of raising a revenue. He quoted the case of Quebec as represented by the Archbishop and Bishops to show that the Government sale of light wines and beer did not stop boot-legging. He recommended the continued betterment of the cattle on Falconwood farm. He contended that the lime deposit at Mimisquam might be exploited on behalf of the farmers of the country. As to the Dairy business, he conscientiously believed it to be the one salvation of the back. But in his, he said, going back. The quality of the cheese is deteriorating. So is that of butter. Not one package of butter made last year was graded "special." Notice has been tabled of the following resolution:

WHEREAS the Dominion of Canada, Department of Agriculture, Health of Animals Branch has by Order in Council dated December 11th 1922 made regulation regarding the eradication of Bovine Tuberculosis from Restricted Areas. AND WHEREAS Prince Edward Island offers exceptional geographical advantages as a Restricted Area.

AND WHEREAS the late Government had done well in respect to sale of Provincial debentures bearing interest at the rate of 4½ per cent. \$17,934.50. As between the issues of 1922 and 1924 there was a difference of \$17,934.50 in favor of the latter and there was a difference of \$15,000 in a comparison of the years 1921 and 1924. The business of all the Departments was well conducted by the present Government. He referred particularly to the Department of Public Works, showing that the Hon. Mr. McDonald had saved large amounts of money in the improvement of the public roads. The average cost of the road projects under the present Government was \$1080 per mile and under the late Government \$1980 per mile. Mr. McDonald moved the adjournment of the Debate on motion of Hon. Mr. Stewart the bill respecting the Supreme Court of Judicature was read a second time and committed. Mr. Buntain in the chair. Hon. Mr. Stewart explained that the bill was similar to that of the Act in force in other parts of Canada and that it simplified the rules of Court. Progress was reported. On motion of Hon. Mr. Stewart the Registration of Shares in Extra-Provincial Companies was read a second time and committed. Mr. Buntain in the chair. The bill was reported agreed to without Amendment.

Hon. Mr. Stewart presented a bill entitled "The Succession Duty Act." It was read a first time. At 10:55 o'clock the House adjourned until 10 o'clock today.

Min. of Customs May Retire (Special to The Guardian) OTTAWA, Ont., April 3.—Reports that come here indicate that the result of a breakdown, and while his retirement is imminent, it is well understood that it will occur whenever the re-organization takes place. Since the session opened Mr. Bureau has been here but a few days.

Japs Plan Big Naval Program TOKIO, April 3.—The Japanese Navy Department today announced plans for the construction of twenty-two warships with a total tonnage of 124,900 to include eight first class cruisers, three second class cruisers, ten destroyers and an airplane mother ship.

Premier Herriot Gets Confidence Vote (Canadian Press) PARIS, April 3.—The Chamber of Deputies today voted confidence in Premier Herriot, 530 against 26.

Premier Herriot Gets Confidence Vote (Canadian Press) PARIS, April 3.—The Chamber of Deputies today voted confidence in Premier Herriot, 530 against 26.

Treasure of Famous Bandit Revealed (Canadian Press) TETUAN, Morocco, April 3.—The place where Raisul, famous Moroccan bandit hid most of the treasure he stole during the many years he raided the countryside has been revealed to Abdelkrim, leader of the rebels in their warfare against the Spaniards. Raisul is a prisoner of Abdelkrim at Exdir. Many mules, it is declared, will be required to bring to Abdelkrim's headquarters valuable loot which consists among other things of rugs, silks and jewels.

Jewish National Home Endorsed (Canadian Press) JERUSALEM, April 3.—Representatives of nine governments, including the United States, France and Italy again endorsed the establishment of Jewish National Home in Palestine, expressing the deepest sympathy of their countries and governments with the new Hebrew university on Mount Scopus, at a dinner given here last night by the board of directors of the university following the dedication exercises. Nahum Sokolow, Chairman of the Zionist executive presided.

On Fifteen Counts

TORONTO, April 2.—Fifteen counts are recorded in a true bill brought in by the Grand Jury in the general sessions this afternoon against Michael J. Haney, former president of the Home Bank. The charges are run in a series of three, each based on five dates during 1917-18-19, when Mr. Haney was president of the bank and are laid under the Bank Act. The bill was returned in general sessions before Judge Coatsworth.

In brief, the Crown charges in fifteen counts that on five dates given in the year 1917, 1918, and 1919, Haney as president of the Bank, willfully made false or deceptive statements allowed such statements to be sent to Ottawa as a true bill representing the position of the bank, and did so negligently.

HOCKEY

Sherwood 8 Southport 3 On Wednesday night 18th the Tigers and Beavers as they are better known met at the Arena for the final game of the season. The former winning comfortably through very fast playing. Mr. Phil McDonald got the teams away about 9.15 p. m. after a minute of play an accidental goal is scored for the Beavers off Campbell's skate shortly followed by a clean goal shot by J. Ellsworth score 2-0. The Tigers take hold of things and R. Roper scores on a pass from H. Stead amid loud applause, and again repeats the play from another pass from H. Stead. Ending the period a tie. Period two gets away fast and shortly after face off Campbell works the puck towards opponents not and finally counters number 3 for Tigers, E. Duffet secures rubber and through a mix-up in front of net tallies. Shortly followed by McCarron for Beavers, after some fine head-work Campbell is playing an impressive game on defence scores from centre ice. The period ends Tigers 5, Beavers 3. The final period shows speed fast head-work and good stick-handling by both teams especially the Tiger forwards. Campbell after some fast skating and following up scores but goal is disallowed on referees decision. The Beavers frequently threatens to score but it seems impossible to get by the impenetrable defence of H. Roper and Campbell. H. Stead then scores twice in succession by some clever stick-handling as does Phillips who scores the two final goals of the game, which end 9-3.

ROMANTIC TYPIST (who has not): "You were talking of our future, darling our home, the beauty of a room by firelight, and your longing to smash old monkey face" —London Opinion.

Make Home Cheery with a Singing Bird. Happy is the home where a sweet-voiced canary fills the house with its cheering song—the most beautiful natural music in the world. Birds are inexpensive pets, easily cared for and their glorious singing, their liveliness and prettiness endear them to everyone. They may be kept in health, vigor and voice, if fed with Brock's Bird Seed and cared for according to the instructions in Brock's Book on Birds.

This Book Sent FREE. This is a large book. It tells about Food, Diseases, Breeding, Judging, Washing and coloring of Canaries, with valuable information on Parrots and other cage birds. Success with birds is sure if you use this complete work as your guide-book. It contains 281 pages and 42 illustrations. Regular price 25 cents.

CHILD'S DRESS OF BLUE CHAMBRAY TRIMMED WITH BLACK AND YELLOW

Chambray is a soft tone of blue is used for the interesting little dress sketched above. Cretonne of black with yellow roses is introduced in two inset strips at the front of the frock. Plain black is used for the rest of the trimming and for the little square pockets. The back of the frock is perfectly plain. This model would also be effective in pink chambray with blue and white cretonne for trimming and plain blue bindings.

Bronchitis?

Quick attention to bronchitis will usually ward off its serious complications. Shiloh reduces inflammation in the tubes, eases the dry, painful cough and heals the raw throat tissue. At your druggist. 30c and 60c.

SHILOH FOR COUGHS

Use Celery King a gentle laxative "Tea" relieves sick headaches. At your druggist 30c and 60c.

BURNS! Mix Minard's with sweet oil and apply at once. It removes inflammation, stops the pain and heals quickly.
