We Take the Risk

We know you will be delighted with the O-Cedar Polish Mop. We know you will welcome the relief it brings.

We know you will appreciate the hard work it saves. We know you will be pleased with the way it dusts, cleans and polishes—all at the same time.

That is why we say:— Try the O-Cedar Polish Mop for 2 days at our risk. If it is not satisfactory, we do not want you to keep it.

The price—\$1.25—will be returned without question if it is not all, and more, than we claim. You to be the judge.

AROUND THE FOX EXCHANGES

Among the prominent foxmen that were in the city this week was Mr. Frank Tuplin, of Summerside, one of the owners of the fox industry. In the course of conversation, Mr. Tuplin expressed the most optimistic opinions regarding the future of the business. He said that he would much rather have the next five years in the business than the last five years. He thinks that the industry is still in its infancy, and that it has the brightest future before it, and alone on the experience of past opinions given by Mr. Tuplin, his view of the matter is bound to receive the greatest consideration.

The Guardian representative was told yesterday on his call at the Royal Exchange, the latest of the fox and investment exchanges established in the city, that options were moving very freely, and that at the end of last week several had been bought and turned over through that exchange. These were local sales. It was further stated that there is a keen demand for options.

That outside capital is being slowly but surely attracted to the business is evident by the large number of inquiries that are being received from various sources abroad. Yesterday one of the exchanges received communications from California, London and Liverpool, inquiring into the business.

Mr. D. J. Bonnell, of the Fur Farmers' Bureau, has just returned from a visit to St. John, N. B., in connection with a big fox proposition which will shortly be announced. Mr. Bonnell's business was successfully carried out.

At present in the city are Messrs. George J. McQuarrie, of New Glasgow, N. S., and W. T. Dean, of Sydney, C. B., who are connected with the sales organization of the Fur Farmers' Bureau. They will be here for several days.

As already mentioned reports from the various ranches are very favourable with regard to this year's crop of foxes; and it is the general indication that the number of pups produced this season will be in advance, proportionately speaking, of that of previous years.

The fame of the fox industry has certainly become world-wide. Yesterday among its mail the Royal Exchange received two letters from the far Transvaal, inquiring about the industry and desiring to invest \$2000 in fox shares.

Within the last two weeks the Fur Farmers' Bureau has had an unusual number of inquiries, both written and verbal, about the industry; in fact, a number of persons making special trips to the island in order to investigate the business for themselves. On Monday the Fur Farmers' Bureau entertained quite a party in the Superintendent's private car on a special trip to Summerside, where an interview was had with Mr. Frank Tuplin. The outcome of this trip will no doubt be quite a boost to the industry.

Dr. Dalton of Boston, is now actively interesting himself in his father's great industry. He is already a director of the important company, and now comes the intimation that he has joined with Mr. Hackett in the formation of the Hackett-Dalton Silver Fox Company, the prospectus of which is about to be issued. The Hon. Mr. Dalton is naturally proud that his son should follow in his footsteps.

Foxmen and others who are interested in the fox business have expressed their high appreciation of the introduction of this column in

The Guardian, and at present there is an unusual demand for information of a reliable character about the business.

A new fox company, The American Silver Black Fox Company, has been organized in Boston with a capital of \$400,000. The company intends to ranch 25 pairs of Silver black foxes and will establish its ranch next to that of the Massachusetts company on Mt. Edward Road. It is understood that they are buying options from that company. Mr. J. E. Newsom, Secretary-Treasurer of the Massachusetts, is President of the new company, and with him is a very strong directorate composed of some of the most influential business men of Boston. Already a large part of the stock has been subscribed. The company has been organized entirely in the United States. Mr. Newsom, who is a member of the firm of Newsom & McLeod, Boston, is one of the successful merchants of that city.

CENTRAL GUARDIAN

THE STEAMERS—The Earl Grey docked in Pictou yesterday afternoon at 4.10 taking over 29 passengers, 10 sacks mail and 63 tons freight. The Minto at 3 o'clock was 4 miles from Panmure Island making slow progress and would not dock last night. She has on board 2 1/2 tons freight, 1 1/2 tons express, 35 sacks mail and 15 passengers.

THE ICE BOATS—Yesterday morning at 10.55, seven boats left Cape Traverse and arrived in Cape Tormentine at 2.10 with 453 sacks mail. At 11.20 seven boats left Cape Tormentine and arrived in Cape Traverse at 3.50 with 62 sacks mail. The mail special from Cape Traverse arrived in the city at 6.15 and left again at 8.45 p. m.

LOCAL STEAMER SERVICE.—Tenders closed on Wednesday with regard to a contract with the Government for the running of a steamer of about 200 tons register, certified to carry no fewer than 200 persons and capable of steaming not less than ten knots an hour, from Charlottetown to Crapaud, Orwell, East River and West River, respectively, once a week. It is understood that a number of tenders have been received.

FEAST OF ST. JOSEPH—Yesterday was the feast of St. Joseph and was celebrated in Charlottetown by special services held in St. Joseph's Convent. In the morning at 8 o'clock in St. Joseph's Convent, Bishop O'Leary celebrated Mass at which the members of the Sodality of the Holy Family, in a body, received Communion in the honor of their patron saint. In the evening at 7 o'clock a sermon was preached by Rev. J. J. McDonald, Rinkora, appropriate to the occasion. Father McDonald took for his text: "And Joseph Rises up from Sleep and is the Angel of the Lord Commanded him." Matthew, chap. II, v. 24. In the course of his learned and able discourse the orator referred to the fact that the St. Joseph's Sodality of Charlottetown was just fifty years old, it being fifty years ago since the present St. Joseph's Convent was hailed down on the ice from St. Andrew's, and the Sodality started. After the sermon fifty-two new members were received into the society by the Spiritual Director, Rev. Dr. G. J. McLellan. This was about the largest number ever received into the Sodality at one time and makes the membership exceptionally large. Pontifical Benediction was then held by His Lordship the Bishop. Father J. J. McDonald was deacon and Father Pius McDonald, sub-deacon, while Rev. G. J. McLellan was Master of Ceremonies.

There is no doubt that in the development of fur farming in this province Persian lamb will prove one of the greatest resources. This fur, worn by all classes, always fashionable, always in demand and more durable than any other fur, will always hold its place in the market and will always command a price which must of necessity make its production a profitable industry. It is gratifying to know that in the development of the fur industry in this province a splendid start has been made in the direction of producing this valuable fur.

THE C. C. YOUNG KARAKUL SHEEP CO.

The Karakul sheep introduced into this province by Dr. C. C. Young have already proved their value. Their lambs born on the farms on which these sheep are kept are veritable beauties having fleeces which will compare favorably with the highest priced Persian lamb fur now worn by the most fashionable. That these sheep will thrive here is now a certainty. That their offspring will be most profitable is equally certain and there can be no doubt that in the very near future much of the \$10,000,000 worth of Persian lamb brought yearly in this country and the United States will be produced on the farms of Prince Edward Island. Those who get into this industry at its commencement, like the pioneers in the fox business, are those most likely to reap the largest profits.

In this connection, attention is directed to the advertisement in this issue of the Dr. C. C. Young Karakul Sheep Company, Limited, of which Mr. J. Walter Jones is Secretary-Treasurer and who will give all desired information as to the prospects and possibilities of the industry.

This is an opportunity which no one should miss of getting into a most profitable business. Read the advertisement. There is no better authority in the province on fur and fur farming than Mr. Jones and he will be pleased to supply any information that may be asked for.

## New Haven Fox Co.

### Share in the Profits of 1914

Shares \$25.00 Each

#### An Established Ranch That Has Met With Success

#### The Stock Consists of

seven pairs of foxes, one Silver Black male and a female purchased from Mr. J. R. Dinnis. The male is the father in 1913 of three pups, and the female had a litter of four 1912 and three in 1913; also a cross male father of a litter of three in 1912 and six in 1913.

Also two females born in the ranch from the Dinnis parents, and three beautiful Silver Black Foxes, purchased in the Peace River District, and equal in appearance to any foxes in the province—beautiful specimens of the Silver Black Fox. In many ranches foxes are capitalized at \$16,000.00 which are no better than these; and yet the total capital of this company is only \$32,000.00 for seven pairs of foxes, or an average of \$4571.00 per pair.

If you will carefully read the Hudson Bay Company Fur Sales Reports you will observe that foxes from this district are commanding almost as high a price as our own coveted Silver Black Foxes.

Also one pair of good Patches from litter of five, 1913, full brother sold for \$6000.00 this season.

One good pair of cross foxes from prolific stock; male shows some rust; female 90 per cent black.

One good pair of Western Patches of good size and quality.

#### A Good Proposition

This we believe to be the best opportunity offered this season and should pay dividends of not less than 75 per cent, and it is quite possible for a proposition of this kind to pay 300 per cent.

We know of instances where people in this province have made 1300 per cent in a similar proposition.

#### Only a Small Lot Offered For Sale Now

If you wish to share in the 1914 profits make application at once, 20 p.c. with application balance in 30 days.

#### Cost of Keep

Arrangements have been made with S. H. Colwill of New Haven, who has had charge of the ranch for the past four years, to keep, care for and maintain the same for ten per cent of the increase. No charge whatever to be made for the keep of the old foxes now in the ranch.
