AIRMEN DID NOT PASS OVER SWITZERLAND

LONDON, Nov. 28.—Winston Spencer Churchill, first Lord of the Admiralty, replied in the House of Commons today in response to a query from Frederick H. Booth, the allegation that the French and British aviators who recently made a raid upon the Zeppelin airship factory at Friedrichshafen had crossed Swiss territory in their flight.

"Aviators who are flying at high altitudes," he said, "find it almost impossible to determine the course which they are taking. However, the British aviators who made the recent attack upon the Zeppelin factory had explicit instructions to avoid crossing the neutral territory. They carried maps indicating the course which they were to follow."

Mr. Churchill added that no agreement had been reached at the Paris conference regarding the passage of belligerent air craft over neutral countries.
