SCHOOL MEETING - The annual meeting of the Montague school took place in the School House on Tuesday June 19th inst. and was largely attended by the entire population of the district. Owing to a slight misunderstanding between one or two of the rate payers and one of the teachers during the past year, it was thought this meeting would be somewhat out of the ordinary. Nothing occurred however, the meeting being a repetition of former ones. The same supplements were voted, and on the whole everything was most satisfactory. Mr. N. J. Nicholson, who is one of Montague's prominent citizens, has been selected to serve on the Board of Trustees, to fill the place vacated by the retirement of Mr. L. H. Coffin. Mr. Nicholson is a gentleman who has always taken a deep interest in educational matters, and his appointment is most deserving. The building of a new school, which some of the rate payers were so strongly in favor of, has apparently met with too much opposition, and the matter, at least for the time being, seems to have been dropped.

GRAND TRACADIE NOTES - A very successful ice-cream festival was held at Corran Bann on Thursday evening June 27th. Several boating parties left Grand Tracadie Harbour on Sunday July 1st, the day being an ideal one for a very enjoyable time was spent among the beautiful sand hills overlooking the Gulf. Mr. Allen J. MacDonald, one of Grand Tracadie's most enterprising young farmers was a recent visitor to Charlottetown. Mr. Ames MacDonald spent a few days at Mount Stewart, business and pleasure combined. Miss Katie MacDonald, stenographer for the J. J. Hughes Co. of Souris, is spending a few days with her parents Mr. and Mrs. R. J. MacDonald. Miss Lewis teacher of Grand Tracadie was a passenger by the Eastern Train on Cardigan. Mr. Peter Hughes has purchased a new gasoline boat and certainly showed speed on Sunday last. Mr. Lester MacDonald has purchased the farm recently owned by James McLoughlin. Miss Katie MacDonald and Miss Rose Watts report lobster fishing quite a fine art, and expect to become much more expert at it, in the near future. The work on the new parochial house which is being erected at Corran Bann, is progressing very favourably under the careful supervision of Mr. Hugh Campbell.

Opera Star Praises Recovery

Opera Star Praises Recovery

MISS PEGGY MACDONALD

Miss Peggy MacDonald, 237 Horton Street, London, Ont., petite opera singer, is another deserving favorite of the public who expresses deepest gratitude for benefits derived from Tanlac. Miss MacDonald is now appearing with the Gladie Players, under summer contract at the Majestic Theatre.

"Tanlac has done me so much good," said Miss MacDonald, "that my gratitude is unbounded. For three years or more I had indigestion so bad I was actually afraid to eat, and often I suffered so I could hardly go on the stage.

"Tanlac has not only relieved my awful suffering, but has built me up nine pounds in weight. I have a perfectly wonderful appetite and everything I eat agrees with me perfectly. I just wish I could send the good message of Tanlac to everyone suffering as I did, and I'll gladly tell anyone personally about it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

Mrs. Fred Foley is visiting friends in Georgetown.

Misses Grace and Elizabeth Douglas, Georgetown, are visiting Montague.

Mr. Fred Delorie, Georgetown, was a passenger to Charlottetown yesterday.

Rev. Father Mack and Rev. Father Campbell, Boston, recently visited friends in Georgetown.

Mrs. Nicholas Landrigan, of Charlottetown, is visiting Georgetown.

Mrs. Harold McDonald, Toronto, is visiting her mother, Mrs. McLaren, Georgetown.

Misses Annie and Helen Solomon, Georgetown, spent the week-end at Montague.

Mrs. Helen McDonald, of Montague, is visiting friends at Georgetown.

Miss Inez Gordon, Boston, is visiting her sister, Mrs. Norman McDonald, Georgetown.

Miss Eleanor Leslie returned to her home at Georgetown after visiting friends in Boston.

Mr. E. J. Hodgson Morrissey, Georgetown, is visiting his cousin, Mrs. J. E. Lockerby, Bridgewater, N. S.

Mrs. Lyons and her two daughters, Louise and Nora, are visiting Mrs. Lyons' niece, Miss Marion McDonald, Georgetown.

Misses Evelyn and Doris McDonald, Halifax, N.S., are visiting their aunt, Miss Estelle Aitken of Georgetown.

Miss P. McPhee, Boston, reached home on a visit to her parents, Mr. and Mrs. Neil McPhee, Big Pond.

Mrs. Wadman and children Brownville, Me. are on a holiday visit to her father, Mr. Joseph Currie, Clear Springs.

CROW'S NEST PASS AGREEMENT SUSPENSION CONTINUED FOR ANOTHER YEAR

OTTAWA, July 3.—The Government has continued the suspension of the Crow's Nest Pass agreement which expires on July 6 for another year. An order-in-council providing for a year's continuation of the suspension has been passed. The rates on grain and flour are not affected by the order-in-council. Under an amendment to the Railway Act passed at the last session of Parliament, these commodities are carried under the rate provided by the Crow's Nest Pass agreement.

Girls Long Cruise In Small Yacht

Girls Long Cruise In Small Yacht

(By Dominion News Service.) PARIS, July 5.—Two French girl students, who have been making a cruise of 300 miles by themselves in a small sailing yacht, are expected to reach Marseilles from Corsica this evening.

The girl sailors, who are students at the Sorbonne are Mlle. Maillart and Mlle. Hermione de Saussure, granddaughter of the celebrated physician, Horace de Saussure.

They left Toulon last month in their sailing yacht, Perlette, which is but 22 feet long.

97 And Still Working

(By Dominion News Service.) LONDON, July 5.—An incident which is probably unique in the annals of the British Army took place at Windsor a few days ago, when General Sir George Wentworth Alexander Higginson, described as the "Father of the Guards," inspected the 3rd Battalion of the Grenadier Guards at Victoria Barracks.

General Higginson, who is 97 years of age, motored over from his residence, Glyderscroft, Marlborough-Thames, unattended, save for his chauffeur.

The "general salute" was given by the troops drawn up in line under the command of Lieut. Col. Lord Henry Seymour, at whose invitation General Higginson paid his visit.

Stepping from his car in sprightly fashion, General Higginson, despite his advanced age, walked with firm step and upright carriage to the saluting base. The battalion, 400 strong, then marched past in fours, and as the command "Eyes right," was given the veteran General returned the salute with nerve. General Higginson appeared on the parade grounds in morning dress.

General Higginson, addressing the battalion, said he joined the Guards in 1845, and was adjutant of the battalion in 1850, fighting in the Crimea.

He told the troops something of the hardships and troubles of soldiers in the days when he was a young man stationed at Victoria Barracks in 1850.

Before departing General Higginson was cheered to the echo. The Grenadiers took off their bearskin head-dresses and placed them upon their bayonet tops, while they held their rifles aloft to give him a rousing send-off.

CLOSE GAME AT GASPEREAUX

Gasperaux on Dominion Day between the Murray River and Gasperaux clubs—the latter winning on the close score of 9-8.

From start to finish excitement had no place—and the game was replete with fine plays by members of both aggregations.

The visitors are a smart bunch of players—game sports—who know how to fight against the breaks of the game as amply evidenced by their splendid rally in the eighth and ninth innings when they managed to tie the score 8-8. The team is captained by their first baseman Tom Cook—a veteran of many contests who needs no extra mention and who played his regular cool heady game. Neither has their team misplaced its confidence in electing McDonald to do mound duty. Likewise all other members of their team, although a few of them apparently on the youthful side are competent players and certainly

Table with 2 columns: Player Name, Position. Gasperaux: L. Dunn (1st. Base), King (2nd. Base), Vanidestine (3rd. Base), Beaton (Short Stop), Riley (Right Field). Murray River: Cook (Cook), Moore (Moore), Ferguson (Ferguson), Keenan (Keenan), Lowe (Lowe).

neither at bat nor in the field did they impress the fans as being novices at the game.

For Gasperaux R. Dunn pitched much better ball than in the last game Montague but had it not been for the clean throwing and snappy work of their fielders a vastly different result might have been announced. Their team got away to a good start the score standing 8-4 in their favor about the middle of the game. They continued to hold the lead until the eighth innings when the River boys tallied twice. They repeated with two more counters in the ninth—Gasperaux in the meantime failing to score. The highest excitement prevailed at this point in the game the score standing 8-8 with Lowe of the River team on third and two men down. Their batsman however drove out a short infield fly which was limited by Beaton and this retired their side. It was then the last turn of Gasperaux to bat and it was only here that the game was decided. W. Dunn at bat made a bases and managed to score on a passed ball and thus ended what proved to be the most keenly contested game seen here for years.

S. S. Hessian M. P. P. acted as umpire and C. McSwain base judge.

The line up: Gasperaux: L. Dunn (1st. Base), King (2nd. Base), Vanidestine (3rd. Base), Beaton (Short Stop), Riley (Right Field). Murray River: Cook (Cook), Moore (Moore), Ferguson (Ferguson), Keenan (Keenan), Lowe (Lowe).

The season is very near when the potato growers will have to use a poison to kill the potato bug. In fact efficiency and cost on a potato main considerations. Paris Green is a preparation that was originally designed for use as a paint, was until lately the poison in general use. The high cost of manufacturing the green and the demand of the growers for a cheaper poison led the manufacturers to place Arsenate of Lime on the market. After a test extending over several years by the experimental stations of the United States and Canada, and many potato growers on both sides of the line, it is now displacing all other poisons when efficiency and cost is considered. Arsenate of Lime containing 40 per cent. Arsenic Oxide is being delivered here a liquid spray it mixes perfectly to the growers cooperatively at 18c and in a blower covers better and per pound. A good Paris Green should contain 57 per cent. arsenic oxide, and comparing it with the (Patriot and Agriculturist please price of arsenate of lime should copy.)

AN OPEN LETTER TO THE POTATO GROWERS OF PRINCE EDWARD ISLAND

sell for 25c. per pound. We have in the Province about 35,000 acres of potatoes and assuming that two pounds of green per acre was used (which is likely less than is actually used) costing at present prices \$1.20 per acre. In arsenate of lime the same poisoning efficiency could be had for 50c. or a saving on the total acreage of twenty-four thousand dollars.

There is much complaint about the high cost of what the farmer has to buy, but here is a case where an account of prejudice or want of knowledge of value the farmer is making an unnecessary addition to his costs. We do not wish the farmer to get the idea that the dealer is making an excessive profit on the green he sells. If the grower would demand arsenate of lime, the dealer would supply him at probably about the same net profit as he now has on the green. There is not much prospect that the price of poisons will be lower for some time. Paris Green and Arsenate of Lime both get their poisoning properties from the arsenic they contain. In the green it is combined with copper and expensive material in the Arsenate it is combined with lime a comparatively cheap material and is easy to manufacture compared with Paris Green. From the experience of our growers who have used the Arsenate for some years, we are confident it will be profitable for all potato growers to give it a trial. In Arsenic Oxide is being delivered here a liquid spray it mixes perfectly to the growers cooperatively at 18c and in a blower covers better and per pound. A good Paris Green should contain 57 per cent. arsenic oxide, and comparing it with the (Patriot and Agriculturist please price of arsenate of lime should copy.)
