Obstruction of Cork Harbor Removed

(Special to The Guardian.)
BELFAST, Aug. 10.—A message from Waterford today says the obstruction which had been placed in Cork Harbor by the Irish irregulars has been removed.

Street Cars Run Again in Chicago

(Special to The Guardian.)
CHICAGO, Aug. 10.—Surface and elevated railway employees tonight voted 9,022 to 5,826 to accept a 10-cent-an-hour slash in wages and return to work, thus ending a strike which has paralyzed the city electric transportation system for the past six days.

Father's Curse And Fulfilment

LONDON, Aug. 9.—A curious instance of hereditary abnormality was disclosed at Nottingham by the inquest of a newly born child.

A doctor said the baby, like its mother and grandmother, had only one finger on each hand and one toe on each foot.
Mrs. Ann Carter, the grandmother, said that shortly before her birth her father cursed his wife because she interfered with his stocking-making appliance, and said he hoped her baby would be born without fingers. When he learnt she had only one finger on each hand and one toe on each foot he went mad.

Mrs. Carter was only one of a family of seven to be so born, but three of her 18 children suffer a similar handicap.

Man Dies After Head is Beaten With a Hammer

MONTREAL, Aug. 10.—Following a domestic quarrel in a home in Montreal North this afternoon one man tried to strike another with a wooden pole and the second struck back with a hammer. The hammer blows proved more effective, and John Kirkpatrick, aged sixty-six years, is dead of a fractured skull. The man who wielded the hammer, William Dible, aged thirty-eight years, is held at police headquarters for the coroner's inquest tomorrow.

BATHED IN RESERVOIR

LONDON, Aug. 10.—Four visitors from Manchester were ordered to pay fines amounting to £7 10s for bathing in a reservoir of drinking water at Whaley Bridge, Cheshire. It was stated that the residents, finding that the people came from Manchester, where scarlet fever and measles had been prevalent, demanded the emptying of the reservoir. The defendants were camping at the time.

Lloyd George And Poincare in Grave Conference

(Special to The Guardian.)
LONDON, Aug. 10.—Lloyd George and Raymond Poincare conferred with their respective cabinets today to state off if possible the impending collapse of the allied economic conference. Financial experts and ministers of the Allies reported to the premiers that they were unable to reach agreement on a plan for dealing with the German Reparations question.

Crerar Influenced Final Decision

(Special to The Guardian.)
WINNIPEG, Aug. 10.—Crerar influence among Manitoba Grain Growers is held responsible for the final decision today by the new government not to undertake co-operation with Saskatchewan and Alberta for grain board this year.

Further Particulars Re Cruiser Raleigh

(Special to The Guardian.)
ST. JOHN, Nfld., Aug. 10.—The entire crew of the British cruiser Raleigh, which went aground on Point Amour in the Straits of Belle Isle early today, was landed safely, according to reports reaching here tonight from the scene of the wreck. The 800 men are ashore on an uninhabited coast and will be taken to Halifax.
The Raleigh, flagship of Admiral Sir William B. Cakenham, struck during a dense fog at most at the spot where H. M. S. Lily became a total wreck. The big cruiser is in a perilous position, and vessels of the North Atlantic Squadron stationed at Bermuda, have been ordered to rush to her assistance.
The Raleigh, under the command of Captain Jellicoe, was on her way to take off the officers and crew.

HALIFAX, Aug. 10.—The last official information of the stranding of H. M. S. Raleigh received by Commander Jellicoe, Naval Commander of the Canadian Dock yard at Halifax, at 7.15 o'clock last evening, was to the effect that the Raleigh was ashore a quarter mile west of Point Amour, on the Labrador side of the Strait, and all were safe. This was sent from the Navy Department at Ottawa. Commander Jellicoe had no official word that the ship was a total wreck.

Americans to Aid.

At midnight the U. S. S. Olympia closed this morning to the aid of the Raleigh and she will do so unless these orders are cancelled in the meantime. The Destroyers Patriot and Patrician, of the Canadian Naval Forces also stand ready to proceed to the Raleigh's assistance.

When word came of the stranding of the Raleigh, Rear Admiral McCully, Commander of the United States Squadron now in port, offered most sympathetic services to Commander Jellicoe and put through a high powered message from his ship to Washington acquainting the Chief of Naval Operations there of the Raleigh's difficulties. In response came a quick reply to the effect that the whole of the American Naval Forces was at the service of the British Naval authorities, ready to render whatever aid they could to the Raleigh. As a result orders were given the Olympia to proceed at 8 o'clock this morning.

An earlier report from the Canadian Government steamer, Arranmore off Harrington, Canadian Labrador, six lives were lost from the British cruiser Raleigh, ashore near Point Amour, Straits of Belle Isle. This was stated in a message from the Arranmore to Halifax. The rest of the crew were landed. The message further stated that the engine room of the Raleigh was flooded to the water line, and that the warships Calcutta and Cape Town were standing by.

BIG GAS AND OIL WELL HOLDS UP ALL TRAFFIC

BRISTOW, Okla., Aug. 10.—A "wild cat" well shooting 30,000,000 cub. feet of gas a day is holding up all progress and freight traffic on the Frisco here. The well is but 150 feet from the tracks.

New Stamp Tax Will be Great Money-Maker

(Special to The Guardian.)
OTTAWA, Aug. 10.—There are indications that the new stamp tax is to be a great money maker for the government.

The amount of revenue which will be obtained from this source cannot be accurately estimated, but reports from various centres show that in the ten days since the act became operative, the receipts have swollen to a marked degree, single transactions of \$5,000 worth of stamps being quite common.

The tax on receipts becomes effective next January and this also materially supplement the revenue.

Free State Troops Drove Rebels From Cork

(Special to The Guardian.)
DUBLIN, Aug. 10.—Rebels were driven from Cork in the biggest battle of the Irish revolution, it was reported here today.
The city was attacked by thousands of Free State troops who rushed from Dublin to Cork by water. The Free State troops disembarked in small boats ten miles from Cork and marched on the rebel stronghold, firing heavy artillery at rebels standing along the way.

Although there were no reports of casualties hundreds are believed to have been killed or wounded in the terrific battle and, the offices of the Examiner, Cork Institution, the Hotel Victoria and the military barracks were blown up during the fight.

DUBLIN, Aug. 10.—National forces succeeded in landing at Passage West, Cork's port for large ships, it was officially announced last night. The National also landed at Youghal and Union Hall. Passage West is about seven miles from Cork.

LONDON, Aug. 10.—A daring stroke was performed by the government forces when they sent four ships containing 1,500 men with artillery from Dublin to Cork and successfully effected simultaneous landings at York, Young and Bantry, according to a despatch to the Times tonight. The despatch states that severe resistance was met with only in the case of Bantry.

The correspondent calls the coup the most daring stroke of the campaign. A plan was blown up by the National forces, who landed from the steamers in small boats. The irregulars offered some resistance to the disembarkation, but were overpowered. The Nationals captured West Union Hall and took complete possession of the town. The irregulars will now be compelled to give battle or disperse to the hills.

The Times correspondent cites the statement of a mercantile skipper who arrived in Dublin and said he saw the Cork barracks affire.

450,000 Methodists In Dominion of Canada

(Special to The Guardian.)
Total membership of upwards of 450,000 will be reported to the quadrennial general conference of the Methodist Church in Canada, to be held for two weeks in Toronto, commencing September 15 next.

The membership of the church in 1918, the beginning of the present quadrennium, was 382,042. Reports received by the conference officers indicate that the gains of the four years, after deducting deaths, removals, etc., will be an increase of more than ten per cent.

Wellington Mission

The mission at Wellington, which opened on Sunday, July 30 was brought to a successful close on last Sunday evening.

DeValera Will Appear at Meeting of Irish Parliament

(Special to The Guardian.)
LONDON, Aug. 10.—It is reported in Irish circles in London that Eamonn De Valera is planning to appear at the meeting of the Irish parliament on Saturday and confess the failure of the armed rebellion and offer to carry on as one of the leaders of a constitutional Republican Party in the New Free State.

It is stated this decision is due not only to the complete military failure, but to a lack of financial and other support from the United States and Irishmen abroad whom he relied for monthly money to carry on the republican fight.

The Colonial office which is responsible for relations between England and Ireland is skeptical, thinking DeValera incapable of keeping his mind made up at any time.

It is possible, however, that some of his followers may take this course.

The Free State is offering pardon to all rebels who will promise to refrain from rebellion in the future.

Murderers of Field Marshal Wilson Were Hanged

(Special to The Guardian.)
LONDON, Aug. 10.—Joseph O'Sullivan and Reginald Dunn, were hanged this morning in Wandsworth prison for the assassination of Field Marshal Sir Henry Hughes Wilson on June 22.

Receives \$10,000 for Libel Devotes it to Charity

(Special to The Guardian.)
LONDON, Aug. 10.—J. H. Thomas, Labor leader, who some time ago secured a judgment for £2,000 for damages for libel against a communist newspaper has now received the money, he says, will be devoted to charities, largely in his own constituency.

Twenty-eight Thousand Bodies Recovered After Chinese Typhoon

HONG KONG, Aug. 10.—Typhoon stricken Swatow, a mangrove and miserable caricature of the port of a week ago doggedly goes about the first ghastly task that falls to the survivors of a storm burial of the dead. Bodies of 28,000 have been recovered, a death toll that triples former estimates and cuts in half the former population of the native city. These figures were given in a circular issued by the Swatow chamber of commerce from its branch in Hong Kong.

The rude coffins have been hampered together with lumber salvaged from the wreck of the city. But these cannot be knocked together fast enough to dispose of bodies which are a sanitary menace. Gunny sacks and mattress bags have been made into crude shrouds. Graves are hurriedly dug in the alluvial flats on which the port was built that bodies may be interred as they are recovered from the wreckage.

Shortage of food may prove another menace. Britishers in Hong Kong already have sent \$10,000 for relief to the British consul at Swatow. Rice is being shipped from the British colony. The Swatow Municipality Charitable Association has organized a relief fund to which subscriptions are being sought. Benevolent societies in Hong Kong are uniting in relief measures for the sufferers.

Bandits, making grim capital of the city's disaster are reported to have raided homes and robbed pedestrians in the native section. Ghoulis sought to loot the dead, but were promptly stopped by native policemen.

Swatow is a heap of ruins. The tidal wave which swept the road along the harbor while the storm was at its height completed the devastation that the storm started. Water front buildings, crumpled before the assault of water, lie in tangled mounds of debris. Three steamers caught in the storm were piled on the beach. Smaller craft, demolished when they sought shelter in Swatow harbor, add to the tangle on the water front that swirls with the tide. Bodies of many victims have drifted out to sea. They have been sighted by steamers as far as fifteen miles from the devastated port. Many will never be recovered.

U. S. Coal Strike Settlement Again Looks Promising

(Special to The Guardian.)
CLEVELAND, Aug. 10.—The policy committee of the United Mine Workers of America today pivoted to proceed with the negotiation of a wage scale agreement with the operators of Ohio, West Virginia, Pennsylvania, Indiana and Illinois, who are here for the joint conference that was called with the view of breaking the soft coal strike.

Announcing the committee's decision, President John L. Lewis, predicted that when a scale is made here that 75 per cent. of the bituminous tonnage now on strike will sign the scale and return to work within a week. Settlement of the strike in the Anthracite regions, which also have been shut down since April 1, when the miners walked out would "naturally follow" the resumption of work in the soft coal industry. Mr. Lewis said.

This settlement however, would be reached through negotiations with the miners and the Anthracite operators and no date has yet been set for the resumption of their negotiations, which were broken off in June.

Prince of Wales Receives Substantial Recognition from Lloyds

(Special to The Guardian.)
LONDON, Aug. 10.—As a token of their appreciation for the services rendered by the Prince of Wales in the cause of the Empire and a testimony of the untiring devotion to the Crown of the Underwriters of Lloyds and of the Royal Exchange have contributed a sum of one hundred thousand pounds which is approximately four hundred and fifty thousand dollars to the guarantee fund of the British Empire Exhibition, of which the Prince is chairman and the site of which they recently inspected.

The offering is made in a beautiful album setting forth the motives that prompted the gift which is signed by hundreds of Underwriters, who have contributed varying amounts.

Rabbi's Daughter Defends the Flapper

BERKELEY, Calif., Aug. 10.—The bobbed-haired, short-skirted and scantily-clad modern girl, commonly known as the "flapper," has found another defendant.

She is Miss Anita Nieto, twenty-year-old daughter of Rabbi Jacob Nieto, of San Francisco.

Miss Nieto thinks the world a cruel place for women in general and college girls in particular. Women, she says, are surrounded by "cuts" and "dents" which make them slaves of manners and customs of a modern age.

And just to show that for one she can snap her fingers at traditions and conventions, she is startling college circles with a new form of attire which she classifies as "absolutely perfect" for campus wear. The outfit consists of:

One pair of grey tweed knickers worn with long knitted hose and low-heeled oxfords.

One man's soft shirt turned down at the collar and ornamented with a man's black knit tie and regulation scarf-pin.

One tweed box coat to match knickers.

And, lastly, one man's regulation "senior plug," heretofore worn only by important male personages of the graduating class on the campus.

CROP CONDITIONS GOOD

CALGARY, Aug. 10.—"Crop conditions have materially improved during the past ten days," remarked D. C. Coleman, vice-president of the Canadian Pacific Western Lines, who was in Calgary today on a brief visit. "The chance for the better owing to the recent rains has been most marked," he added.

Asked how the Wheat Board would affect the movement of wheat, Mr. Coleman remarked that he did not anticipate that this would greatly affect the movement to the head of the Lakes, especially during the early part of the season.

Deposed Chinese President Arrives At Hong Kong

(Special to The Guardian.)
HONG KONG, Aug. 10.—Sun Yat Sen deposed President of the Southern Republic at Canton, arrived this morning from Fanten Harbor, aboard the British gunboat Mohen.

In the forenoon he boarded the steamship Empress of Russia for Shanghai.

Assistance for Stricken Chinese At Swatow

HONG KONG, Aug. 10.—Chinese overseas are being appealed to by the Chinese Chamber of Commerce here to aid their stricken countrymen at Swatow, the port 250 miles north of here which virtually was destroyed by a typhoon and tidal wave a week ago with the loss of 28,000 lives.

The general Chamber of Commerce of Hong Kong is inviting subscriptions for the Swatow sufferers. The Chinese Tungwah hospital committee has applied \$1,000. The British-American Tobacco Company gave \$1,000 to the relief fund and shipped rice to Swatow. The government of the British section of Hong Kong shipped another hundred tons of rice last night.

The directors of Swatow municipalities have written the British consul at Hong Kong expressing appreciation for the generosity of his countrymen. British and Japanese steamers are carrying supplies to Swatow free.

Railway Wages May Not Be Cut Without Notice

(Special to The Guardian.)
OTTAWA, Aug. 10.—Substantial confirmation by the Department of Justice of the view which obtained generally among the railway employees in the shopen's organization, to the effect that conditions as to wages and hours upon which the employing railways and men disagree, must remain unchanged until the dispute involved has been dealt with by the Board of Conciliation, is conveyed in a telegram sent by the Prime Minister to Charles Dickie, Secretary of Division No. 4.

Introduction of "Drive to Right" Delayed in N.S.

HALIFAX, Aug. 10.—The legislation passed by the Nova Scotia legislature at its last session to change the rule of the road in this province from left to right, has been disallowed by the federal government, according to a telegram received by the Nova Scotia government from the department of the secretary of state, Ottawa, and given out here tonight.

The legislation was disallowed on the request of the local government, who announced that the request was made because of certain misunderstandings concerning the date when the legislation included amendments to Chapter 51, Revised Statutes, regulating the use of all the roads of the province, and to the Motor Vehicle Act, to bring it into conformity with the general law as amended it was provided that the amendment to the general act should come into effect January 1, 1923, but through inadvertence, it is said, no date was fixed for the coming into effect of the Motor Vehicle Act amendment. The effect of the disallowance of the legislation, according to government statement tonight "is to leave the law as it stood prior to the meeting of the legislature namely "turn to the left."

"The matter will no doubt again be considered at the next session of the legislature and there seems to be no reason why it should not then be changed to "turn to the right."

DOMINION REPORT IN ERROR APPLES OF N. B.

FREDERICTON, Aug. 10.—A serious error which reflects on the fruit crop of New Brunswick is contained in the last dominion fruit crop report. The report states that practically all varieties of apples in this province are affected by scab. The fact is that the only varieties affected are Fameuse and Macintosh, other varieties being clear.

Poincare's Attitude At London Confer- ence Approved

(Special to The Guardian.)
PARIS, Aug. 10.—The French cabinet at a special meeting held this morning presided over by President Millerand, is understood to have approved entirely the attitude taken by Premier Poincare at the London conference on the reparations problem.

The meeting had been called hurriedly to consider a M. Poincare's report on the developments of the London Deliberations. President Millerand came especially to Rambouillet to preside.

After the meeting a telegram was sent to Premier Poincare, informing him the cabinet had unanimously approved the stand he had taken.

A Good Sardine Herring Run in Lower Bay Weirs

ST. GEORGE, Aug. 10.—A run of sardines and herring, in which nearly all the weirs along the coast came in for a share, came with the month of August. Twelve and thirteen dollars a hoghead were paid by the packers. The weirmen have been through three lean years and old timers say the little fish are due this late summer and fall. The market is bare or nearly so and the price should keep up. Conditions are much the same as they were four years ago when sardines were scarce for fortunate weirmen and money poured into the eastern end of Charlotte and into St. John counties.

The rain which started on Thursday last found many farmers with hay down and tons are out soaked with the downpours of the past few days. The storm Monday evening was one of the heaviest ever experienced in this vicinity and for a couple of hours the downpour was terrific.

Thirty Whales

(Special to The Guardian.)
ST. JOHN'S, Nfld., Aug. 10.—The fishermen of Keels, Bonaville Bay, secured thirty sperm whales out of a school which appeared off that place on Saturday and they were still playing their harpoons vigorously and successfully today. If the fishermen can dispose of the whales they will make big profits but they are faced with a problem in finding a market as all of Newfoundland's whale factories have ceased operation.

Niobe Seized

(Special to The Guardian.)
ST. JOHN'S, Aug. 10.—Three writs have been issued against the former Canadian cruiser Niobe, now lying in Halifax harbor awaiting delivery to the United States firm that purchased the hull for junk and Sheriff Hall, marshal of the admiralty court, has seized the craft pending result of deliberations in the court. Three firms are bringing suit for debts, and the total amount against the Niobe is in the vicinity of \$4,000. The Niobe was one of the vessels which were to be scrapped in St. John, but her sale to local men was not consummated.

Announcements, Coming Events, Meetings, Etc

RATES.—10c per line per day. 2c. per line per day for 3 days or over. 5c. a line per day for 6 days or over. Count 5 words to a line. Groups of 2 figures, initial letters, count as one word. 10 per cent. discount for cash. Address forms part of ad. and must be paid for.

Walk Out in Protest Against Troops in Yard

JOLIET, Ill., Aug. 10.—First efforts to restore industrial peace here after several hectic days of war, including the killing of two men and wounding of another the arrival of State troops for carrying concealed weapons near the Elgin, Joliet and Eastern railroad yards strike zone, and the solemn burial of the two victims this afternoon were seen late this afternoon in the announcement that a formal conference has been called between Elgin, Joliet and East end officials and leaders of the Big Four tomorrow.

It was hinted that the strikers would meet the railroad executives outside the meeting place and there decline to go into conference before troops had been withdrawn from the vicinity of the yards.

Operation of the yards was practically at a standstill as a result of the walkout of engineers, firemen, conductors and brakemen, maintenance of way men and other workers last night in protest against the stationing of troops in the yards.

Received Two Thousand Volts, Has Chance For Recovery

(Special to The Guardian.)
ST. JOHN'S, Nfld., Aug. 10.—After being suspended in mid air from a live wire on which he had been working and receiving two thousand volts, which burned through the flesh of his arms and back, John Hammarford, an employee of the St. John's Electric Light and Power Co., is in hospital here with a fighting chance for recovery. He was rescued from his position by a fellow worker.

To Pay Canteen Profits To Overseas Forces

(Special to The Guardian.)
LONDON, Aug. 10.—In a written reply to a question asked a few days ago, Sir Laming Worthington-Evans, Secretary of State for War, in the House of Commons on Friday, just before adjournment, stated that interim payments on account of war canteen profits had already been made to the overseas forces of Canada amounting to £321,000; to the Australian Imperial forces, £243,000, and to the South Africa expeditionary force, £16,000.

Steps are now being taken, stated the Minister, to make final allocation of the balance due each force.

MR. MEIGHEN ON WAY WEST

OTTAWA, Aug. 10.—Right Hon. Arthur Meighen, leader of the Opposition in the Federal Parliament, accompanied by Mrs. Meighen, left today for Vancouver. Mr. and Mrs. Meighen will probably visit other points in the West.

The Weather, Temperature, Tide, Moon, Etc.

TORONTO, Aug. 11.—Light to moderate winds. Fair and warm. High tide this afternoon at 1:31. 51 and to-morrow morning at 1:31. Sun sets this evening at 7:16 and rises to-morrow morning at 4:56.

Last quarter moon Tuesday Aug 15th, at 4:46 p. m.

Tide is high in Summerside 13 minutes later than in Charlottetown.
