LETTER OF SYMPATHY

To Brother John W. McDougall.

Dear Sir and Brother,—Whereas I have pleased Almighty God in His infinite wisdom to remove you by death, your dear father and mother and to call them unto himself, therefore we, in behalf of our sincere sympathy and condolence in this your double bereavement, praying that in this time of trial, He who doeth all things well may comply and strengthen you. All afflictions for the present are grievous, but God bereaveth them to our good. He bereaveth the end from the beginning. We commend you to His care and keeping.

GEORGE INMAN, W. M.

DOMINION WOOL MARKET REPORT

Week Ending October 25, 1921. Canadian wools are moving steadily in all but the lower grades. More movement in coarse, low combing and low medium combing has been expected for some time but has not yet materialized. Some low mediums are selling, but rather slowly. Quotations which have not changed range from 19 to 20 cents for the medium down to 10 cents for coarse. The Boston market is reported as having been rather quiet during the past week, apparently because of the lack of optimism shown by the clothing manufacturers. Another government wool sale is to be held there shortly. The English market reports activity but with no increase in prices.

GRAPE JUICE

Prohibition has given a wonderful boom to the grape-juice business. The manufacture of this kickless beverage has become within a few years a very important industry—so to its early beginnings. Two men squeezing Concord grapes in a kitchen at Vineland, N. J., started in forty-two years ago. They put up a dozen bottles of the stuff, which was used for sacramental purposes by the village church. Other churches heard about this "unfermented wine" and were eager to buy it; so that before long the two men were bottling it in large quantities, and found it worth while to buy a hand press to squeeze the grapes. Soon there came to be a demand for grape juice as a beverage, and it grew so fast that machinery had to be installed. There were not enough grapes grown in the neighborhood of Vineland to supply the factory, and so it was removed to Westfield, Mass., where there were more to be had. Before long the factory was consuming several thousand tons of grapes annually. "We have the product of whole vineyards is purchased under contract, and the picking is done under the eye of the factory's inspectors. After picking the grapes are not touched by hands. All the processes are performed by machinery.

Minard's Lintment for Dandruff

PARDON 300 YEARS OLD

A free pardon granted by James I to a man named Richard Humfrey who killed his father in 1609, and bearing the second great seal of that monarch, has been discovered at the bottom of an ancient chest, and has been placed in a glass case and fixed in Hetherton church, Essex, England. The vellum was taken to the British museum for translation from the original Latin. The translator reports that the parchment revealed was that of a man who was preparing to shoot some wild fowl when the weapon was accidentally discharged and wounded his father, who died from the effects some months afterwards. The Humfrees owned most of the Parish of Hetherton up to well into the Eighteenth century.

..GOING TO SOURIS—Mr. Peter Curtis, New Zealand, is selling his farm to Mr. Jack Lutz, and moving, with his family, to Souris.

..FARM PROPERTY TRANSFER—There are quite a number of property transfers in the country this fall, mostly farm lands. The inflated prices of war time and soldiers' re-establishment are now coming back to normal, and farms are now selling at real values, and many of them, and which keeps Provincial Land Surveyors very busy. Mr. Daniel Gregory (a native of Souris West) of Boston, has been on the island looking for a suitable place to spend his declining days and has purchased the farm of John Lutz, New Zealand, for a handsome sum, and will reside on the place as soon as the proper boundaries, delineated by the surveyor, are marked on the deed.

EASTERN PERSONALS

..Mr. Joseph Durant, Summerside, recently visited Georgetown.

GREAT FORCE IS INITIATIVE

Its Possessor May Be Reasonably Assured of Making a Successful Life's Work.

Success in life may be nearly always measured by the amount of initiative shown in doing one's work. This conquering and elevating force must come from within and is the development of a genuine desire to keep from becoming lost in the crowd; a will to do those things in hand as though the whole future depended upon the result. Men who have become famous and successful in all walks of life have developed their sense of initiative to the same extent they have gained knowledge and then, what is most important, have applied that quality to real problems of life. Without this no amount of duty tasks and problems become complex, difficult, onerous and commonplace. But, these difficult tasks become easier to the individual showing initiative, because he or she leaves the beaten path and finds a better solution, gaining at the end of the day a reward of sheer personal happiness at having accomplished something worth while in spite of all obstacles.—Thomas A. Edison.

Aches And Pains Of Rheumatism

Sometimes They are Unbearable

There are weather conditions that make rheumatism worse. They are not the same in the cases of all persons. Some rheumatism sufferers more in dry warm weather than in moist, cold weather, but all suffer more or less all the time.

The cause of rheumatism is an excess of uric acid in the blood, affecting the muscles and joints causing aches and pains. Hence the blood must have attention for permanent results in the treatment of this disease.

Hood's Sarsaparilla has given entire satisfaction in thousands of cases. Do not fail to try it.

For a laxative take Hood's pills.

INSTITUTE WORK

Report of Women's Institutes of Prince Edward Island

MURRAY HARBOR: This month the Queen Mary Women's Institute was entertained at the home of Miss Sadie Jordan. The meeting opened with the singing of the Institute Ode. The roll call was answered by suggestions for Xmas gifts. A paper entitled "How to Make Enjoyable Sundays" was read by Miss Nettie Cook. This was followed by some violin and gramophone selections which were greatly enjoyed by all. During the month an Afternoon Tea was given in honor of the elderly ladies of the community, a very enjoyable time was spent.

Sierbrooke: On October 18th, the regular meeting of the Institute was held at the home of Mrs. A. J. Linkletter. There were nineteen members and three visitors present. The meeting opened with the singing of the Institute Ode. The roll call was answered with "Ideas for House-cleaning". A paper on "Ideal Home Life" was read and discussed. The subject of "keeping vegetables in the cellar" was discussed. It was decided that a yard stick, roller towels, and soap be applied for the school. Supplies for the next meeting in November.

Montague: On October 21st the Women's Institute of Montague met at Graham's Hall, eighteen members were present. It was decided that the members undertake the making of an autograph quilt, the subject of giving a play during the winter was discussed. The next meeting will be held on November 1st, at which a demonstration on "Making of Supper Dishes from Left-Overs" will be given by the Supervisor.

Fredericton: The women of Fredericton met at the school house for the regular monthly meeting of their institute. Eight members were present. When the business was concluded three papers were read which were very interesting to the members. It was decided to repair the window blinds for the school, also to repair the windows. The next meeting will be held in the school house on November 16, at 3 p. m.

North River: The North River Women's Institute met at the home of Mrs. John McKinnon on October 18th. Seven members and ten visitors were present at the conclusion of the business a social evening was spent. The next meeting will be held at the home of Mrs. Warren on November 9th. A demonstration on "Left-Overs" will be given by the Supervisor.

Springfield: The regular meeting of the Springfield Women's Institute was held at the school house on Oct. 21st. There were ten women present. After the opening Ode, roll call was answered by the giving of hints to improve the institute. It was decided to have a social evening in the hall on Nov. 15th, inviting all in the district. One new member was added to the club. At the next meeting on November 18th, a demonstration on Millinery will be given by Miss Carruthers.

Priest Pond: The regular meeting of the Institute was held at the home of Mrs. D. F. Keays on Oct. 17. There were 17 women present. The minutes of the last meeting were read and adopted. After the business of the meeting, lunch was served and a number of musical selections on the organ and violin given. Two new members were added to the club. The next meeting will be held at the home of Mrs. Nell McEachern.

Traveler's Rest Women's Institute held its regular meeting at the home of Mrs. Dan McDonald. Twenty eight members and eight visitors were present. The meeting opened with singing of the Ode, after which the minutes were read and adopted. Roll call is to be answered at the next meeting with suggestions for community improvement. It was thought a good idea that each household have his name and the name of his farm posted at the gateway. A paper, entitled "Our Canadian Women" was read and enjoyed. The members were each to make an article for the Orphanage and to pass these in at the next meeting. The next meeting will be held at the home of Mrs. David Walker on November 17th. Miss Carruthers will give a demonstration on Desserts at this time.

Spring Park Road: The regular meeting was held at the home of Mrs. Gough on the evening of Thursday, Oct. 27th. There were twelve women present. Roll call was answered by the giving of "words." It was decided to hold a fancy work sale in December. Each of the members will contribute one article and material will be bought to be distributed among the members and to be made-up by them for the sale. Four new members were added to the club at this meeting. Miss Car-

Free
A 10-Day Tube of Pepsodent to show you how to end film. See below.

Five Quick Effects

When you brush teeth in this way

This new way of tooth brushing brings five desired effects. Some are immediate, all are quick. A ten-day test, which costs you nothing, will clearly show you what they mean to you.

Leading dentists everywhere advise this new-day method. Millions now employ it. You see the results in glistening teeth wherever people gather. Now let your own teeth show them.

You must fight film

Brushing does not save the teeth if you leave the film. That's why well-brushed teeth so often discolor and decay.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste does not end it, so very few people have escaped its damage.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. So dental science has in late years sought ways to fight that film.

Scientific methods

Efficient methods have been found. Able authorities have proved them by many careful tests. The best dental opinion endorses them.

These methods are combined in a dentifrice called Pepsodent. And to let all know its benefits a 10-Day Tube is being sent to everyone who asks.

A 10-day test is free

Pepsodent quickly proves itself. The results are unique and conspicuous. And a book we send tells what each one means.

One ingredient is pepsin. Another multiplies the starch digester in the saliva, to digest starch deposits that cling. The saliva's alkalinity is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

Pepsodent, twice daily, attacks the teeth's chief enemies.

Send the coupon for this 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The results in ten days will amaze and delight you. Make this test now. Cut out the coupon so you won't forget.

Central Royalty: A Women's Institute was organized in this district on the afternoon of October 28th. The meeting was held at the school. After a talk on the work of the Women's Institute by Miss Carruthers, the following officers were appointed: President, Mrs. Hammond Harper, Vice President, Mrs. Jas. Roper, Secretary, Miss Myrtle Ross; Directors, Mrs. H. B. Arling, Mrs. Swan, Miss Cullex, Auditors, Mrs. Agnew and Mrs. Fred McRae. The first Thursday of each month was chosen as the day of meeting. The first regular meeting will be held at the home of the President, Mrs. Harper, on Thursday, November 3rd, at 7:30 p. m. All who are interested in the work are cordially invited to attend. Mrs. Swan, Miss Cullex, and Mrs. Agnew and Mrs. Fred McRae will be present.
