Stock Prices Steady At N.Y.; Decline In Canada

NEW YORK, Feb. 8.—(AP)—The stock market steadily followed a steady price course today while major commodities tumbled again. Closing prices, at the end of a pre-see session, showed a scramble of small gains and losses, mostly around a point or less. An occasional pick-up in buying interest, held out the hope of a decisive move but demand was never urgent enough to do more than keep the market stable. Turnover was above many recent slow days but fell short of yesterday's 1,300,000 shares. Turnover amounted to 960,000 shares. Wall Street was impressed with the wheat, corn, and oats futures had plunged the limit allowed at Chicago. Declining grains and other commodity prices had forced a scramble of additional margin. Many traders have sold stocks to raise the money and this type of selling has created a steady pressure against stock prices. A turnaround in commodities, it was suggested, might have a tonic effect on demand for stocks. The Associated Press average of 60 stocks remained at 629 with a slight decline in the industrial group and a small lift in the rails. At Toronto TORONTO, Feb. 8.—(CP)—All groups were pushed farther back on the Toronto Stock Exchange today. Base metals showed an almost solid list of losses and western oils dipped from opening firmness. Golds tried to make their own upward climb in early trading following news that South Africa had sold some of its gold at a premium price, but faltered in the last hour as junior issues turned downwards. Ford Oreille and its subsidiary, Reeves MacDonald, were the only gainers in base metals, adding five cents each. Hudson Bay, International Nickel, Quenont and Waite Amulet backed down fractions and Normetal, Osisko, Labrador and Falconbridge showed losses ranging from four to 10 cents. Calgary and Edmonton, Okalta and Foothills lost 10 cents in the opening. The group opened stronger but slipped towards mid-session. Central Leduc went against the trend, gaining five cents at \$1.20. At Montreal MONTREAL, Feb. 8.—(CP)—Se-
