

The Doctor's First Question
 "How are your bowels?" This is generally the first question the doctor asks. He knows what a sluggish liver means. He knows that headaches, bilious attacks, indigestion, impure blood, are often promptly relieved by a good liver pill. Ask him if he approves of Ayer's Pills. Then follow his advice.

At the annual intercollegiate debate between representatives of McGill and Toronto Universities, held in the McGill Union Hall some weeks ago the following subject "Resolved that the House of Lords should be abolished" was debated by the following students:—for McGill, John F. McNeill and A. S. Christie; for Toronto, N. A. McLarty and F. M. Wyatt. The affirmative was taken by the Toronto men, and the negative by the McGill team. The Hall was well filled with an enthusiastic audience and when Henri Bourassa, who with R. W. Reford and Prof. S. Peacock, acted as Judges, announced that McGill had won a perfect storm of cheers arose. John T. McNeill, as above mentioned, whose record was here and at McGill has been an exceptionally brilliant one, is a fourth year Art student at McGill, and also the president of the Literary Society of that college. Mr. McNeill is one of the candidates from P. E. Island for the Rhodes' scholarship this year.

A most enjoyable evening was spent at the Forester House Pownal on the 9th inst., it being the birthday of the genial proprietor. Some twenty-five of the leading men and women of Pownal and vicinity assembled to offer their congratulations and wishes. The first number on the program was to give George, the grand bounce, which was done with a hearty good will, after which he was gently placed in a handsome and beautiful pilastered Morris chair, presented by admiring friends in a very complimentary speech by the leader A. A. Moore. It was replied to in Mr. Carver's usual happy manner, after which the fun grew fast and furious. Soul stirring and entrancing music was furnished by Shed Jardine, than whom none ever drew a better bow, accompanied on the piano by Miss Linda Smith, making a combination altogether formidable. Those who felt inclined to trip the "light fantastic," others engaged in games and singing etc. The charming and accomplished hostess, took a hand in the game, and the guests were ushered into the spacious dining room where a feast was spread in the well known style of the Forester House. Mr. Carver was the recipient of numerous and useful presents, showing the high esteem in which he is held by his fellow citizens. In the "you sma hours ament the twal," the joyous time came to a close by singing Auld Lang Syne and "He's a jolly good fellow."

At New Wonderland, last night, a program of exceptional excellence was well patronized. During the first turn Miss Holcomb sang three songs, viz: Carrisama, The Mirror song and Poor John, while Mr. Bixely gave a black face monologue and the song, No. No. (Oh No. The next two turns, they gave their travesty on Shakespere, Mr. Bixely doing his part in black face, and so changing the sketch that it was almost entirely new. It was simply splendid, and the audience were most generous in appreciation of it. As a black face impersonator, Bob Bixely is inimitable, and keeps the audience in roars of laughter, and by special request the order of the way has been changed and they will present their sketch under the revised conditions again this evening. It is worth seeing, clean and good and one of the best which ever came this way.

Norman Campuell, City, was a passenger by the outward western train yesterday.

The coldest temperature registered in this City on Tuesday night was eleven degrees above zero. At nine a. m. yesterday morning it was thirty-two above and at nine last night it was seventeen above. The warmest registered yesterday was thirty-four degrees above.

At the City Police Court yesterday morning Martin Murray for keeping a disorderly house on Kent Street was fined ten dollars and costs or thirty days. Martin put in an appearance and promised that never again would he permit strangers to come in and take charge of his home such as was done on the night of the eleventh. The charge against Edward Murphy for being drunk and disorderly on the night of the twelfth was dismissed for want of evidence.

At the morning session of the Medical Association which meet in this City yesterday, a profitable discussion took place on Dr. McNeill's (Summerside) report of his use of anti Streptococci serum. A very valuable paper on two cases of brain disease with the pathological findings was read by Dr. McIntyre of Montague, followed by a discussion by a number of the members. Dr. Carruthers submitted excellent reports of cases of acute intestinal obstruction and exophthalmic goitre. Both cases elicited quite a general discussion which resulted in the interchange of some valuable experience. The necessity of systematic record with report to Board of Health of all conditions calling for such, was dealt on. With the disposal of some matters of business the midwinter session closed a most profitable meeting.
