ANNUAL REPORTS OF I.O.D.E.

Active Year For Royal Edward Chapter.
 The following reports, in addition to those published yesterday, were submitted at the annual meeting of the Royal Edward Chapter, I.O.D.E. on Monday:

Report of Chapter Educational Secretary, Year Ending December 31, 1934
 Madame Regent and Ladies: As Chapter Educational Secretary, it is my privilege to review for you the undersigned and accomplishments of the Educational Committee during the past year. Our Educational activities, have been, as in former years, chiefly in the City Schools. The Sarah Maxwell Memorial Prize for the best essay on "The Bravery Act I Know in the History of the British Empire" was completed for by the children of eleven and twelve years in all the City Schools, except Queen Square. Twenty-eight essays were received, fourteen from West Kent St., eight from Prince Street and six from Rochford Square. The judges were much pleased with their excellence and improvement shown over last season's efforts. First place was awarded to Leona Weatherly of Rochford Square, who took as her subject "William Avery Bishop." This essay was forwarded to Toronto but did not receive a National Prize. The local prize was presented to her by the Regent, Mrs. Mathison, in June.

GUIDE GIRL NEWS

1ST CHARLOTTETOWN COMPANY (ST. PETER'S)
 1st. Charlottetown Co. held their weekly meeting, Monday evening. Owing to the stormy weather the attendance was not as good as usual. Patrol books were marked company drill given and inspection was held and marks given to those who had worn their black shoes and stockings. A keen interest in being shown by the different patrols in the competition for the banner, which was won by the Canary Patrol a few weeks ago. This banner is given to the patrol who receives the most points during the period of two months. The girls are busy preparing for a concert to be given in the spring. A sing-song was enjoyed and the meeting closed with Auld Lang Syne and Tap. A new song is to be learned at next meeting.

In Memoriam

DEDICATED TO THE MEMORY OF CAPT. JOHN N. MACDONALD, KILKUIR, P.E.I.
 How honored remembrance that lingers to bless, The living of one who has gone, The memoried treasure that never grows less, Till the end of life's journey is won. For all that we are, just the friends that we knew In the morning and noontime of life, Who taught us to honour the good and the true, Through pleasure, uncertainty, strife. Ah, living example of all that in man Is worthy to hold and revere, Whose living was patterned to precept and true, Of all that is pure and sincere. Gone on but the ties of affection remain To comfort the ones who are left. Gone on, but the promise not given in vain To comfort the sorely bereft. How weak and how vain were the words to deny The presence of those we hold dear, The feeling, the healing, the love in each sigh, The sweetness in every tear. The sacred communion of hearts that attune So lovingly round us and near, Till 'ere through the night time, Through morning and noon, Their voices come sometimes so clear. For over beyond us far more than are here, Are multitudes gathered who wait, Who know every sorrow and trouble and fear. That's ours while we're nearing the gate. —James Matthew MacLean 2169 Nelson Avenue, New Westminister B. C.

Hospitals Are Vital Necessity Says Doctor

"There is no more effective weapon than the hospital with which to fight off the economic depression and win back a good measure of prosperity," says Dr. George F. Stephens of Winnipeg, Manitoba, President of the American Hospital Association—the largest and most influential organization of hospitals and allied institutions in the world—with central offices located in Chicago, and comprising all the standardized Hospitals of the United States and Canada. "That is true" says this outstanding leader, "because it is impossible for a sickly people ever to achieve any sort of economic recovery. Health has always been and must ever continue to be the most vital force a people have to restore business stability. The fact that the health of the people of the United States and Canada has never been better than it is today is ample proof of the efficacy of the hospital with its medical staff, personnel, and equipment. Hospitals are not only the chief agency in restoring the sick and injured to normal health, but they are the most important single influence in keeping well people well. "Despite every adverse condition hospitals are attempting to meet the needs of the public," says Dr. Stephens, "because of the demand for proper hospital care magnificent institutions have been developed so that now in the United States and Canada more than three and one-half billion dollars are invested in real estate, buildings, and equipment for hospitals. Prior to the present economic disturbance on the average one million dollars per day were being spent for new hospital construction. "It must be remembered that it takes approximately three million dollars a day, or one billion dollars a year, to keep the hospitals of the United States and Canada open. If the hospital can be spoken of as an industry it would rank fifth or sixth among the leading industries of the United States. Dr. Stephens points out that whereas in the United States during the past three years 1 out of every 6 banks has closed and one out of every 23 business and indus-

trial concerns has gone into bankruptcy, only 1 out of every 45 hospitals has been forced to the wall. "The work of the hospitals has been magnificent," says Dr. Stephens. "Despite the fact that their budgets have been slashed, their grants and donations cut down, and the number of pay patients enormously reduced, they have continued to extend adequate care to their communities, providing increasing service to part-pay and free patients. Certainly, great credit must be given the improved hospitals of the United States and Canada for their maintenance of high standards during the economic depression."

Illustrative of hospital conditions throughout the United States and Canada, Dr. Stephens cites the service furnished in New York City where in the public hospital bed occupancy has increased from 75 per cent to 101 per cent during the past three years, and out-patient visits from 842,291 to 1,678,988. "With the necessity of hospitals being so great, and the quality of their work insuring the saving of human lives wherever possible, it would be disastrous for our hospitals to be forced to close because of insufficient funds. Many of our hospitals today are feeling the extra pressure. Their load has become increased and they are seriously troubled, but they are carrying on, giving more and more free service so that the health of the people may be maintained during these trying times. After all, no matter what happens, hospitals must continue to exist so that human lives may be saved in increasing numbers."

The large reduction in the average days stay of patients in hospitals and the lowering of mortality rate, Dr. Stephens attributes to better means of diagnosis, treatment, and general care, more efficient teamwork in surgery, better nursing, and a developing of the personnel consciousness that the work of the hospital is the saving of human lives.

Twenty years ago the average stay of a patient in a hospital was less than 20 to 30 days. Today he stays but 10 to 12 days. In other words, the average stay has been cut in half or even more in some cases. "In former years it was quite common to hear of death rates from 8 to 9 per cent in hospitals. Now the average is never more than 3 to 4 per cent, showing that the chances of recovery in hospitals providing good medical and nursing care have more than doubled."

Life Insurance Grows

TORONTO, February 23.—Nearly \$28,000,000 of new ordinary life insurance was sold in Canada and Newfoundland last month by nineteen companies having 91 per cent of the business in force. January sales by provinces, according to figures given out today by the Life Insurance Sales Research Bureau were—

Alberta	\$ 1,105,000
British Columbia	1,808,000
Manitoba	1,508,000
New Brunswick	828,000
Nova Scotia	833,000
Ontario	11,209,000
Prince Edward Island	106,000
Quebec	9,346,000
Saskatchewan	983,000
Newfoundland	199,000

Premier Bennett Will Be In St. John Tomorrow

(C. P. by Guardian's Special Wire) SAINT JOHN, N. B., Feb. 26.—Announcement that Prime Minister R. B. Bennett would be in Saint John on Wednesday for the opening of new harbor facilities was made here by Mr. H. O. Schofield, president of the Saint John Harbor Commission. The Prime Minister, said Mr. Schofield, would attend a luncheon aboard the S. S. Duchess of York, first passenger liner to use a new dock in the navy island area of Saint John Harbor. The Duchess of York arrived yesterday, and made the heaviest demand on harbor facilities since the winter shipping season opened.

IN MEMORIAM

MR. STANLEY MCLEOD
 On Wednesday, December 27th, Mr. Stanley McLeod, a very highly esteemed young man of Ebenezer passed peacefully away in the Charlottetown Sanitarium at the early age of 30 years. The deceased had not been in a very good condition of health for more than a year, but up until about four months ago he had been able to do more or less work about the farm. In hopes that his health might be fully restored, he entered the Charlottetown Sanitarium in October last. For a while he was apparently improving but later it was learned that the gain in health was only a temporary one. His appetite began to fail him and it was not until he began to lose ground again. He sank gradually until the end came quietly. Mr. Murdoch McLeod, father of the deceased passed away when residing in Springfield some years ago. Besides a sorrowing mother, Stanley now leaves to mourn their loss, two brothers, Leslie McLeod in the American Navy and Gordon McLeod, Martinvale, P. E. I. The deceased was a young man of strong character and held in high esteem by all who had the pleasure of knowing him. He had travelled considerably and had a large circle of friends and acquaintances. He will be much missed by all. But while all of these shall miss him, it is in the old home that the loss will be most keenly felt. The other two brothers being always absent, his mother will always be lonely without him. No one can fill his place, and yet through it all, Mrs. McLeod is bearing up bravely and is able to say "Not my will O Lord, but Thine be done." The funeral which was quite largely attended was held on the afternoon of Friday, December 27th. The service was conducted by Rev. R. Hensley Staver. The pall bearers were: Messrs. Kenneth McRae, Elmer McRae, Peter Matheson, Clifford Matheson, Chester Dover and Wallace Dover. Interment was in the Portage Cemetery.

Germany Honors Its Dead Heroes

(A. P. by Guardian's Special Wire) BERLIN, Feb. 26.—Germany's 2,000,000 war dead were heroes Sunday, as under Nazi influence the national mourning day became national heroes' memorial day. Goose-stepping Reichwehr regiments, with bayonets out, paraded down the gay avenue Unter Den Linden, before a living wall of tens of thousands of young and old cheering Germans. The war dead, said General Warner von Blomberg, Nazi Minister of Defense by their supreme sacrifice should be honored by being admitted to the Fatherland and be used to foster heroism in the country. Bearing war-torn imperial regimental colors, the Reichwehr regiments paraded before President Paul von Hinderburg, Supreme Commander General and Field Marshal, the entire cabinet headed by Chancellor Adolf Hitler, and diplomatic corps, in front of a memorial to the war victims.

PROBATIONARY PERIOD URGED FOR THOSE WISKEY TO WED

TORONTO, Feb. 26.—E. Fred Singer, Conservative member of the Ontario Legislature for Toronto St. Andrew, tonight advocated reform of the Province's marriage laws, by speaking before a women's Conservative association. He urged in addition to the probationary period provision for civil marriage of those who did not wish to become wed in churches. "The law at present," he said, "does not recognize sufficiently the civil responsibilities of those who marry. When a husband becomes impossible to live with and does not support his wife and family, the wife has little recourse except to drag through the juvenile and family courts. Incompatibility is a great cause of unsuccessful marriages, but it is ignored."

"NERVES" she called it — it was really her KIDNEYS

She tried to get through each day as best she could. Never comfortable—always distressed. Low in vitality—lower in spirits. She hadn't thought of her kidneys, until a friend suggested Dodd's Kidney Pills—for over three generations the favorite kidney tonic and remedy. Seeking relief she immediately took Dodd's. "The washed out" feeling was soon replaced by clear headed energy and restful sleep. Headache, backache, and other signs of faulty kidneys soon disappeared. Now feeling well—Thanks to Dodd's Kidney Pills

REPORT OF LEAGUE OF NATIONS COMMITTEE 1933-34

Madame Regent and Ladies: On account of the regretted removal to Halifax of Mrs. Williams, the very able convenor of the League of Nations Committee of Royal Edward Chapter, the duties of that office have devolved on Miss Irving and myself. The principal undertaking of the year was the course of study and the work of the League of Nations for Grades IX and X of the city schools, 10 classes in all. In addition to literature made available to the pupils, a series of notes was supplied to the daily newspapers each week, covering a period of eight or ten weeks. On December 15th an examination was given on the course, and at the Christmas closings prizes of money were awarded to the most successful participants. The co-operation of the teachers in this work was most gratifying. The committee would acknowledge also with gratitude the courtesy of the newspapers in publishing the notes, and the kindness of Mr. H. H. Shaw and Mr. R. H. Rogers in preparing the examination paper. The committee is also indebted to Judge Duffy, Mr. Shaw and Mr. Rogers for the trouble taken in delivering lectures in the four schools on the subjects, "The International Court of Justice," "The general covering of the League," and "Mandates respectively." It is pleasing to report that the Women's Institutes of the Island are also interesting themselves in the work of peace education. The very active convenor of League of Nations Work, Mrs. L. E. Mollich, of Montague, and the Superintendent of the Institute, have been good enough to make use of the material gotten together by the Chapter committee, and are distributing it to the Institutes throughout the Island; and the Montague branch has expressed the hope that the course of peace education initiated by Royal Edward Chapter may be extended to all the schools in the province. We regret that as yet we have had no active part in the National peace study project now being promoted by the Canadian League of Nations Society, through the medium of the radio, the press and discussion groups. At least, let us try to listen in to the broadcasts each Sunday afternoon at 3:15 o'clock, and hear what some of Canada's outstanding speakers have to say on the subject. A nation is made up of individuals, and let each individual in Royal Edward Chapter I.O.D.E. do what she can to promote world peace. The outlook dark we know, but God is in His Heaven. There is a gleam somewhere—let us follow it.

REPORT OF THE COMMITTEE ON CHILD AND FAMILY WELFARE

Madame Regent and Ladies: The name Immigration Committee has become a misnomer. The soldier settlers are being eliminated from our lists as they become self supporting and their places are taken by names of families of our own returned men. Our rolls is confined as far as possible to the children in these families, a special effort being made to make it possible to keep them attending school. This means helping with school equipment and warm clothing. The Education Sec. report gives a detailed account of the books and school supplies given to these boys and girls; but books would be of little use this winter without the warm clothes. The distribution of this help was made possible through the generosity of many members in the primary grades, these books were not expensive. The United Empire Magazine was gain subscribed for each school. In addition to this magazine, we gave each month copies of "MacLean's," "The Canadian," "The Canadian Home Journal," "The National Home Monthly," and "The Canadian Geographic." Respectfully submitted, BESSIE BETHUNE, Chapter Educational Secretary

Best Remedy for Cough Is Easily Mixed at Home

No Cooking! No Work! Real Savings!
 You'll never know how quickly a stubborn cough can be conquered, until you try this famous recipe. It is used by more homes than any other cough remedy, because it gives more prompt, positive relief. It's a trouble all at to mix and costs but a trifle. Into a 15 cc. bottle pour 2 cc. of Pinex; then add granulated sugar syrup to make 10 ounces. Syrup is easily made with 2 cups of sugar and one cup of water, stirred a few moments until dissolved. No cooking needed. Then pour your four times as much cough medicine for your money, and it's a pure, better remedy. It never spoils, and tastes fine. Instantly you feel its penetrating effect. It loosens the germ-laden phlegm, clears the air passages, and soothes and heals the inflamed membranes. This three-fold action explains why it brings such quick relief in severe coughs. Pinex is a highly concentrated compound of menthol, pine, used for generations for its healing effect on throat membranes. It is guaranteed to give prompt relief, or money refunded.

Terraplane — Hudson Distributor Appointed

Mr. W. A. Gaudet of Charlottetown has been appointed distributor in this area for the 1934 Hudson-built line, according to the announcement to-day of Mr. Ross Mackinnon, general sales manager of Hudson-Exess of Canada Limited. Orders of Terraplanes and Hudsons on hand for immediate shipment total more units than were shipped from the Canadian factory during the first five months of last year, states Mr. Mackinnon. A continued demand for immediate delivery to buyers is noticeable throughout the Dominion and the Hudson employment figure for February reveal that the number of workers has trebled as at the same period in 1933. For 1934, Hudson-Exess of Canada has the broadest line of models in the company's history and buyers are able to choose from thirty-two separate types. The present volume of sales lies in the fact that the Terraplanes are in the lowest-price field while the Hudsons are in the lowest price straight; eight ranges since the introduction of the revolutionary Terraplanes, there are more than double the number of Canadians engaged in the sale of the Hudson-built line than there was a year ago. Already the Hudson sales organization shows an unusual degree of optimism both in factory and sales network activities to the buyers in Charlottetown. The play off game between the Bulldogs and Cornwall C.C. at Alton Rink, scheduled for thirty-three night, is being eagerly looked forward to, as these teams are competing for the Bethune trophy. At present the Bulldogs are one point in the lead.

FAIRVIEW AND VICINITY

Nearly every night, despite the severe weather, the new Afron rink at New Dominion has been in full swing. A real good brand of hockey has been furnished the fans by the Nine Mile Creek Bulldogs and other neighboring teams, and with skating after the game, the rink has been well patronized. Miss Hilda Mullins, Cumberland, has been among those attending the recent short course in the city, which came to an end on Friday last. Many friends were interested to hear of the marriage, in Cambridge, Mass., on Feb. 24th of Miss Stella Currie, formerly of Fairview. Mr. John N. McPhee, Fairview, returned home on Thursday from the P.E.I. Hospital, fully restored to health. A large circle of friends and relatives were saddened recently by the death in the Provincial Sanitarium of Miss Martha Gorst, and although the day was stormy a large number attended the funeral in Charlottetown. Quite a lot of excitement was caused on Tuesday of last week by the forced landing of the mail plane in a field on the farm of Mr. J. Dowling, South Shore. Messrs Seymour Murphy, Stanley Taylor and Norman MacDonnell returned home recently from a pleasant holiday trip to Boston. The young people of Rocky Point are busily practicing for a play to be presented in Afron Hall in the near future. Friends are sorry to learn of the continued illness in the P.E.I. Hospital of Mrs. Robert Currie, Cumberland, and also regret to hear that Mr. Ed. Doull, New Dominion, is under the Doctor's care. Mr. and Mrs. A. E. McPhee and Master Lloyd, New Dominion, have taken up their residence in Charlottetown. Mr. McPhee having purchased the grocery business of M. A. A. McLeod on Prince Street. They will be greatly missed in the neighborhood. Mr. and Mrs. Alex Strang expect to occupy their former residence at New Dominion. Hungarian partridges are becoming very plentiful in this district, and it is quite a familiar sight to see a dozen of them taking a stroll along the West River Road. They are quite tame. Mr. Newton Taylor, Nine Mile Creek, has purchased the 250-acre farm of Mr. Frank King in Rocky Point, which he intends to reside. A good many farmers have been employed recently in heading po-
