

WEDNESDAY

In the death of Mrs. Silvester Kehoe which occurred at her home in Boston, that community lost one of its best and most deservedly respected residents.

The death from pneumonia of Mrs. Clark of Lower Montague came as a shock to all her friends and relatives.

Deceased was well known and highly esteemed by large circles of friends who will regret her passing away and will fully sympathize with her sorrowing family in their great loss.

In this city on January 2, 1922, Catherine MacLeod, beloved wife of L. H. MacLeod, aged 91 years, leaving a sorrowing husband and two sons to mourn the loss of a kind and loving wife and mother.

The funeral takes place from her late residence 131 1/2 Prince St. to Brookfield cemetery on Wednesday January 4th, 1922, at 10:30 a. m. funeral being held at eleven by team burial at Brookfield cemetery at two p. m.

The death of Mr. Andrew G. McKay of Clifton on Dec. 19th, was an unexpected one. He had been sick for a few days and seemed to be in his very prime, none but his near friends would have thought him 65 years of age.

His many friends were shocked and deeply grieved to hear of the death of one so young and so successful. He was the son of the late James McKay and was one of a large family of twelve of which but two are living.

His many friends were shocked and deeply grieved to hear of the death of one so young and so successful. He was the son of the late James McKay and was one of a large family of twelve of which but two are living.

THURSDAY

The Boston Traveller in its issue of Jan. 6th states that Mr. Weldon L. Crossman has been appointed vice-president of the Franklin Typographical Society at its 88th annual meeting held recently in that city.

NEW KING'S PRINTER—Mr. Frank L. Dillon, of Dillon & Coyte the Patriotic Job Printers, has been appointed King's Printer, has been assigned to Mr. George W. Gardner, resigned, Mr. Dillon is a practical and industrious craftsman and will no doubt give the government eminent satisfaction in his new office.

SUCCESSFUL ISLANDER IN THE WEST—His many friends will be pleased to hear that Mr. Ira Holmes has recently been elected Councillor for the municipality of Waddeck, Sask. Mr. Holmes was born in Hampshire. He enlisted in the war and had a fine record overseas. Returning he settled in the West. He is also a president of the Grain Growers Association of Sask.

CRUISE TO THE TROPICS—Mr. H. H. Hamilton of St. John, N. B., representing the Canadian Pacific Rail and Steamship Company is in the city for a few days, his object being to make known the advantages of the C. P. R. steamship service with the West Indies.

IMPORTANT MEETING CALLED—The Associated Boards of Trade has called a meeting of the executive of that body to meet the Federal members in the Board of Trade rooms at 8 o'clock this evening.

AMONG THE PEOPLE OF LABRADOR—In the presence of a large audience Mr. Donald C. Lewis delivered his graphic lecture on "Two Years in the Frozen North" at St. James' Hall last night. Mr. D. A. McKinnon presided and Mr. Walter Burke operated the stereopticon.

ACCIDENT—Brakeman Austin McDonald received some injuries in the yard at Emerald Junction on Tuesday. Stepping on the while the Borden train was shunted going down the yard he got jammed in a snow cutting that had not been shovelled out properly.

FOXMAN RETURNS—Mr. B. Roy Holman, one of the largest local dealers in raw furs, returned Tuesday evening from a buying trip, extending over a week to different parts of Nova Scotia and New Brunswick. During his trip Mr. Holman had the privilege of inspecting a large number of furs and made some extensive purchases.

with the running of street-cars. Business men generally appear to be satisfied that in the present abnormal times trade conditions are as good as can be expected.

FARMERS INSTITUTE—The twentieth annual meeting of the Clyde River Farmers' Institute was held at Kingston, Jan. 7th, after remarks by the retiring president, Mr. Nicholas Colville, the financial report was read which proved satisfactory to all.

BROTHERHOOD MEETING.—There was a large attendance at the Brotherhood meeting of the Church of Zion Presbyterian Church held Tuesday night in the church hall. Officers elected for the ensuing year were: President—S. Angus McDonald, vice-pres.—B. W. LePage, honorary pres.—Pres. Gordon Neeson, Vice Pres. Handmou Yunker, Secretary, and Treasurer, Samuel Newson.

SOLDIER WEDS.—A very interesting event took place on Saturday, Dec. 31st, 1921, at the Presbyterian Manse, Murray River, when Mr. Joseph Atwood Bell of Murray Harbor and Miss Sarah Kathryn Rockport, Miss. were united in the holy bonds of matrimony.

There died on Monday, December 26th, at St. Martin's Hospital, Antigonish, Wendell Fraser, in his 21st year, after a very short illness. Having completed his course at the University of St. Francis Xavier, he had returned to Antigonish to teach in the high school. He was a young man of exceptional character, of quiet and unassuming disposition, rather reserved in his manner, but once a friend he remained so till the end.

ISLAND LADY ENTERTAINED.—Miss Daisy Y. Adams of Port Hill, Prince Edward Island, was the guest of honor at an informal dance given by her cousins, Mr. and Mrs. Ralph C. Small, at their home at 18 Westland avenue, Boston, Mass., the evening of Dec. 29th. Among the invited guests were Mr. and Mrs. A. Aitken, Mr. and Mrs. P. Polson, Mr. and Mrs. A. Knox, Lieut. C. J. Chandler, Dr. J. B. MacPherson, Mr. A. G. Ayer, and Miss Alice Cutting. Miss Adams was also the guest of honor at a bridge party given by Mr. and Mrs. Large at their home on Beacon Hill, and during her three months' visit in Boston has been tendered numerous dinners, afternoon teas and informal dances at the Boston Masonic Club and other social centres.

On Christmas Eve D.L. McKinnon and L.M. McKinnon of the Montague Furnishing Co. was called upon at their office and presented with the following address accompanied by the presentation of valuable gifts.

Montague's industrial center has with delight this opportunity of extending to our respected and much esteemed employees a tangible expression of our deep appreciation of their many kindnesses.

We trust that the coming year will bring you both health and happiness, and prosperity and the Christmas of 1922 may find the employers and employees of this firm, as united as at present, by a continuance of kindly tolerance and forbearance on the one part and faithful service on the other.

Signed by THE STAFF. D. L. McKinnon replied by expressing his thanks and appreciation for the cordial relation and goodwill existing; also for the beautiful gifts.

Alvah L. Falla, aged 58, son of Mrs. J. A. Falla, of Boston, passed away after a lingering illness at his late residence, 55 Wymon Street, Arlington, Dec. 31. Deceased was born in Bay Fortune, P.E.I., but has lived here for the past forty years. The surviving relatives are his wife, Mrs. Florence McDonald of Arlington, his mother and brother Joseph of Boston.

Deceased was a man without an enemy and had hosts of friends in all walks of life. The funeral took place from his late residence, 55 Wymon Street, on Saturday, Jan. 1st, 1922, at 10:30 a. m. The services were conducted by Rev. Wm. Warren of the Presbyterian Church East Boston.

There died on Monday, December 26th, at St. Martin's Hospital, Antigonish, Wendell Fraser, in his 21st year, after a very short illness. Having completed his course at the University of St. Francis Xavier, he had returned to Antigonish to teach in the high school.

His remains arrived from Antigonish on the 4 p. m. train on Tuesday, Dec. 27th. A large number of his friends accompanied the remains to the home of his parents. On Wednesday morning at 9:30 a. m. the funeral services were held at St. Martin's Church, Antigonish, N.S.

On the morning of the 10th of Nov. at Fair View there passed peacefully away at her home her daughter, Mrs. Edward A. Currie, Sarah Darrah in the seventy-fifth year of her age. Deceased was the widow of the late Archibald McLean of Rice Point, Kingston, who she recently passed away who was the last member of a bright and beautiful family.

On the morning of the 10th of Nov. at Fair View there passed peacefully away at her home her daughter, Mrs. Edward A. Currie, Sarah Darrah in the seventy-fifth year of her age. Deceased was the widow of the late Archibald McLean of Rice Point, Kingston, who she recently passed away who was the last member of a bright and beautiful family.

among many. While in health she was always in her place in the Church, ever interested in the great work always willing and longing for the salvation of the people. When a young girl she found her Saviour and became a member of the Baptist Church, Long Creek, and followed faithfully to the end. How beautiful when the end comes, to know that she has done what she could. The late Mrs. McLean was loved by all classes who had the pleasure of her acquaintance.

There are left to mourn one daughter, Mrs. Edward Currie, two sons, John A. of Calgary, and Alexander, Rice Point.

The pall bearers were John McLean, William Stretch, Geo. Wilson, John Currie, Guilford Louther, Neil McEachern.

The services were conducted by the Rev. C. R. Freeman of Charlottetown, assisted by Rev. W. R. Wood of New Dominion. A large number of people followed the remains to the Long Creek Cemetery, where all that was mortal of a good woman was laid to rest.

In the second game of the N. B. and P. E. I. Hockey League played in this city last night, the Abegweits again came out on the long end of an 8 to 2 victory. Much to the satisfaction of the hundreds of friends present, the game started on time.

Referee Herrell called the teams to the face-off, Buntain and LeBlanc on the rubber, the puck was carried to Dorchester territory where it was nicely blocked and deflected to the Abegweits goal, Morgan making a nice stop.

A series of end to end rushes by both teams then followed, Dorchester notching the first goal two minutes of play, followed two minutes later by the second tally. Score 2-0.

The Abbies here took things in hand and forced the play to the Dorchester defence, Kelly finding the net in ten minutes to be followed by Gordon in three minutes, followed by the period ended 3-2.

The second period opened at 9:07, both teams making every effort to score, but the splendid defence work and especially of the goal tenders. Their was many shots that looked good for a tally.

At 9:20 the Abbies on a combination run notched up another goal duplicating this feat three minutes later, McEachern scoring on a pass from Moore. Score 4-2.

The Dorchester team then came out on the ice at 9:25, succeeded in making their third tally, with two minutes to play, the puck was given several fast passes on the ice by Moore, Ridd and Kelly but no further scoring was done and the period ended 5-2.

FRIDAY

FIREMEN MEET—The annual meeting of the Chemical Car and Hose Company was held Wednesday. After the regular routine business the following officers were elected: Capt. A. E. Hearty; Lieut. Wm. Bradley; Secretary, Fred Large. One new member, Chas. Large Jr., was added to the roll of the Company.

ATTENDED TRURO MEETING—Superintendent J. A. Clark of the Caledonian Club Rooms has returned from attending the annual meetings of the Maritime Live Stock Breeders Association at Truro. He reports a large and satisfactory meeting. Other Island stockmen present were Messrs. J. A. Roper, W. H. McGregor and Ray Horne.

The list of Honorary Aides de Camp to His Excellency, Baron Byng Governor General of Canada, has been published. Among those selected are Lt. Col. Ralston, D.S.O. of Nova Scotia; Lt. Col. A. MacMillan, D.S.O. of New Brunswick; and Lt. Col. D. A. MacKinnon, D.S.O. of this city.

This is an honor, not only to Col. MacKinnon, who served with distinction in the Great War, having been decorated with the Distinguished Service Order by the King of England and the French Croix de Guerre by the Republic of France, but to the Province and The Examiner heartily congratulates the Colonel on his new appointment.

Before a large audience in the Caledonian Club Rooms last evening Principal S. N. Robertson, L.L.D. delivered the inaugural lecture of the winter series, before a crowded audience. Dr. Robertson's subject was "Scottish Ideals in Education" and he traced the history of man from the earliest times to the present, showing clearly and effectively what the present generation had gained from the efforts and endeavours of their predecessors, reaching back thousands of years, and asked what we of the present day were doing that succeeded generations may be benefited.

The chair was occupied by the President, Mr. J. H. Malcolm. In announcing his subject as an educational one the speaker's intention was not to conjure up awful images of youthful school experiences, from which we have all so fortunately escaped, but merely to give some subject round which to group the thoughts of his hearers on the essential dignity of human life.

"In our present age man lives amid assured plenty and has gained control over nature. But it was not always so. Never did more destitute and helpless immigrants land on barren shores than was Man when he was driven out of Eden to fare through the outer world, by the sweat of his brow to eat his bread. Bread is only a figurative term for there was no bread. Primitive man went forth to hunt for his food—for berries, nuts and roots whose juices might keep him alive—or to overpower some more helpless animal, or to catch with his bare hands some fish in the small streams. It is only in these cities that we now get a chance to estimate the intensity of the early struggle for existence.

"As numbers increased food was more difficult to find and life became more precarious. At some time, however, the hunter conceived the idea of herding the wild animals and so providing himself with a supply of food and clothing from the young, as does the foxman in Prince Edward Island. In the herd hunt man moved from the solitary life of the hunter to the life of the herdsmen, and the problem now was to get grazing and to safeguard the herd. And so community life was developed.

"But at a later stage agriculture was discovered, and by the breaking of the soil for the seed-fearer grazing was got for the herds and so settled habits became possible. Henceforth the family abandoned its movable tent and had to own its separate house upon its own acres. Side by side acres settled, and so we get little communities that become nations. I have seen that man has attained considerable education, but he has extended so that it may be available to all. Not available, merely, but compulsory and necessary, in all, so that every person may begin his life well fitted to make his

struggle successfully, and so ever get heard tell of Edward a Scotchman to live on the thin of hilly Scotland has enabled to subsist, even upon the salary offered in the schools, no matter small!"

At the close of a vote of thanks accorded the lecturer on the part of Dr. Alexander Ross, seconded by Mr. James McIsaac and supported by Lieut. Governor MacKinnon, the next lecture will take place on Thursday, when Mr. John Alexander will read and explain his "Tam O'Shanter."

Many a man, after trying to give his wife for years, pleaded guilty rather than be by a jury of 12 women.

Why Beauty Fails A CONDITION DUE ENTIRE TO POOR, WATERY BLOOD

The girl who returns home from school or from work thoroughly out will be fortunate if she escapes a physical breakdown. Cause this getting tired so early is probably the first warning symptom of a thinning blood that soon be disregarded if her health is to be preserved.

PUBLIC IS AMAZED AT CONTINUED ENORMOUS DEMAND FOR TANTALAC

restored to health and happiness by taking Tantalac. Tantalac has never been advertised, a cure all or that it perform unheard of wonders. Its advertising has been straightforward, and conservative. Actual facts and figures have been stated and stated in a business-like way that has demanded the confidence of all conservative claims set forth. The enormous demand for Tantalac is due to merit alone. The amount of advertising would continue to sell any article that does not pass real merit. Under value underlays the article, the advertising will steadily fall of its own weight. It is the reason why the people of the time, but you can't fool the people all the time. Tantalac has been well advertised, but you can't fool the people all the time. Tantalac has been well advertised, but you can't fool the people all the time.

Day after day the question is being asked all over the United States and Canada: What is the reason for the phenomenal success of Tantalac? Why do we hear report after report that Tantalac sales are keeping increasing every time when other medicines seem to have a short-lived popularity and are then forgotten?

The answer is simple enough. The test of time has proven to people all over the American continent that Tantalac always gives the most gratifying results and that the remarkable relief it brings seems to be more permanent than ever before believed possible. Tens of thousands of persons everywhere, who took it when it was first introduced six years ago, report that they are still enjoying excellent health and millions of American homes are now using Tantalac as the family medicine. After first trying it out thoroughly and proclaim it the World's Greatest Tonic.

Thousands of men and women of all ages and in all walks of life afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse have testified publicly that they have been fully restored to their normal health, strength and weight by its use.

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour gas, stomach, coated tongue, foulness of breath, constipation, had depression, loss of appetite, sleeplessness at night and terribly depressed, depressed feelings, state that they have been entirely relieved of these distressing symptoms and individual desires and becomes civilized.

"Man naturally, however, is selfish. He must have his food and his clothing and his house. And if there be not enough for all he must fight for it as did the stage whose skeletons were found with antlers interlocked. But man has discovered that his own advantage is not by giving way to others. Despite the odds, he has learned to estimate his importance in comparison with other animals. He needs food, clothing and houses as they do. But he only has discovered means to secure these. He is the only animal that uses implements and his use of implements has assured him priority as the more efficient implement in the late war.

"Man has triumphed over nature. He has triumphed over himself. He believes he has. The British Empire to which we are proud to belong has been a 'natural' part. She is prosperous, healthy, efficient. She has the good-will of other nations and wishes to be friends with them, not entirely for her own selfish advantage, but because she believes, but also for righteousness and for existence.

"Man then is a conqueror. His memory is stored with the results of all the experiences through which he has passed and so each new experience is solved from those similar ones that have preceded it. The fact that man has risen so far shows that he is out of the catable. That he has risen so high amid so many disadvantages shows that he may rise still higher. And should we not give to man—having a worthy object and a worthy purpose—an education that will carry him still higher, until he is able to be as promised, 'a little lower than the angels'?"

In concluding, Prof. Robertson remarked that when he had been asked by the Chief, Mr. Burdett, to speak he had named his subject "Scottish Ideals in Education." He might now be asked, "What about his subject?" Well, he continued pleasantly, "we have here the three parts—the Scotchman, the Ideal and the Education. I have shown that man has attained considerable education, but he has extended so that it may be available to all. Not available, merely, but compulsory and necessary, in all, so that every person may begin his life well fitted to make his

struggle successfully, and so ever get heard tell of Edward a Scotchman to live on the thin of hilly Scotland has enabled to subsist, even upon the salary offered in the schools, no matter small!"

At the close of a vote of thanks accorded the lecturer on the part of Dr. Alexander Ross, seconded by Mr. James McIsaac and supported by Lieut. Governor MacKinnon, the next lecture will take place on Thursday, when Mr. John Alexander will read and explain his "Tam O'Shanter."

Many a man, after trying to give his wife for years, pleaded guilty rather than be by a jury of 12 women.

Why Beauty Fails A CONDITION DUE ENTIRE TO POOR, WATERY BLOOD

The girl who returns home from school or from work thoroughly out will be fortunate if she escapes a physical breakdown. Cause this getting tired so early is probably the first warning symptom of a thinning blood that soon be disregarded if her health is to be preserved.

When the blood becomes impure the patient becomes pale, haggard and angular. She not only tires out easily but suffers from headaches, palpitation of heart, dizzy spells, and a loss of appetite. This condition is not taken to account and the rich blood supply. To the rich, red blood that brings glow of health, no other medicine equal Dr. Williams' Pink Pills. If given a fair trial they bring rosy cheeks, bright eyes, good appetite and good spirits. Williams' Pink Pills have thousands of pale, languid, active and strong. On the first of poor, thin blood moths insist upon their daughters to take a fair course of these pills. It will not only restore health, but will save further doctor bills. Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50 cents a box or by mail at \$2.50 for the Williams' Medicine Co., Brockton, Ont.

MUTT AND JEFF—For a Moment Jeff Was Classing Himself With Washington and Lincoln.
