

ALMOST FAINTED IN THE STREET

In Daily Fear Of Death—Until "Fruit-a-lives" Brought Relief. CHATHAM, Ont., April 3rd, 1913. "Some two years ago, I was a great sufferer from indigestion. One day my eye caught a billboard of "Fruit-a-lives" and I said to myself "if Fruit-a-lives will build me up like that, it is good enough for me!" I bought some. After taking these wonderful tablets for only three weeks, I found myself wonderfully improved. In a short time longer, I cured myself entirely. My case was no light one, either. Gas would often form in my stomach and I was in daily fear that it would get around my heart and kill me. "Fruit-a-lives" is the only remedy for indigestion!" C. T. HILL. NEAR SIX MILLION MEN LOST BY WAR.

ROME, April 10.—The nations now at war have lost 5,500,000 men in the first eight months of the conflict and spent \$4,400,000,000 in the first six months, according to figures prepared for the Avanti, a Socialist organ by its military expert. The article declares the only result of the war will be a reciprocal wearing out of the forces engaged and not a military victory. It is calculated that nine or ten months will exhaust the reserves and that the country which will suffer least from this exhaustion will be Russia.

—SCHOOL IMPROVEMENT.—On Monday evening 5th inst., Mr. Maxim Gallant, Inspector addressed a meeting of the ratepayers of Abram's Village school district, in the school house, on the subject of Agriculture instruction in the schools and school gardens. Mr. Gallant in an eloquent discourse fully explained the new movement made by the department of Education in that line, and forcibly impressed on the hearers, the necessity in our schools for more enlightenment in the principles of Agriculture and Nature Study. The idea in having gardens either at school or at home under the directions of the scholars who can look for guidance in their work, either to their teacher or their parents, is to exercise the pupils in the practise of observation. The speaker also spoke on the sanitation of the school and referred to the great improvement made in that line by women's institutes. He then explained the requirements in connection with the home projects in order to be entitled to a bonus. He was followed by Mr. Harry Darby who heartily agreed with all that had been said. Mr. Darby spoke on the advantages of gardening and stated that we can only learn by experimenting, what can be successfully grown. He pointed out that in his work, but it is only by experience that we have found out that we can grow wheat until a few years was considered impossible to grow. Mr. Stephen M. Arsenault thought that the farmer could be fitly compared to a king. The farmer was in reality a king on his domain who enjoyed full despotic powers, hence the noble occupation. Mr. Arsenault was highly in favour of home projects. Mr. Aime D. Arsenault also spoke a good word in encouragement of the movement as did also Mr. Charles M. Arsenault. Mrs. Arcade Arsenault being called to give her opinion, declared herself highly in favor of these home gardens and said she was ready to help her young ones in the enterprise. Mr. Joseph M. Gallant in supporting the suggestions of the Inspector, said that he thought the present school too small as it is now actually too small for a playground, and hinted that an attempt to increase the size of the yard to what it should be might meet with very little difficulty. A few remarks were also made on Education in general; parents were cautioned to fully understand the meaning of the word "Education" inasmuch that it means to training of a pupil, the formation of his character, more so than the amount of knowledge acquired in books. The meeting on the whole was a good success, and was presided over by Mr. Joseph L. Gallant who had the pleasant duty of tendering to Inspector Gallant the unanimous vote of thanks of the meeting for his valuable lecture. Mr. Gallant in a few well chosen words accepted the vote of thanks. A short programme of recitals was rendered by the pupils throughout the meeting.

—TO ADJUST LOSSES.—Mr. John Hyndman of Hyndman & Co., and Mr. W. K. Deceased met her death by accidentally drinking poison instead of a prescribed medicine, and was at the time of her death a resident of Graig, Saskatchewan. The remains were on the way here for fifteen days, occasioned by the delays of poor connections on trains and the icy condition of water travel between the Island and the mainland.—Z. —LARGE FUNERAL.—With tender hands those who had in his lifetime been his dearest friends lowered to his final place the remains of the late Mr. John Arsenault, in Tignish Catholic cemetery, Friday morning. The funeral services were conducted by Mons. D. J. MacDonald, who had been his spiritual adviser for nearly fifty years, assisted by the full choir. LETTERS FROM FRANCE ing the paper that was inside them. It is well worth saying, I am gathering a bunch of souvenirs to send home and will send them the next time I am in Billets if I can get a box to send them in. Well I can't write any more news and it is getting dark so I will close with love to all, JOE. J. J. SIMONS, 23185, 6 Platoon, 2 Coy, 2nd Battalion, 1st Canadian Contingent. I don't know where I will be, so you don't need to put any place. I will write to Charlotte soon.—Joe. March 12, 1915 Dear Charlotte:—Just got your letter this morning and as I am doing nothing else I am answering it right away. I did not answer your last letter so this will have to do for both. I wrote to mother a few days ago and got a letter from her the same evening. You see I get your letters better in France than I did in England. We are in the trenches now but will be going back to Billets tomorrow night. I don't know where our home will be this time but we had a very good barn to sleep in last time. We have very good trenches here. Good and deep and very little mud. I am writing this by the fire and every few minutes I get a puff of smoke that nearly blinds me. I walked ever so far in the dark last night to get a rafter in a barn for wood. The Germans have not shelled any buildings near us for some time so the wood is getting scarce. When they throw a few shells into a house or barn they knock us down a lot of wood. Some places there is very little left but the hole in the ground where the shells burst. Well I celebrated my birthday yesterday but I must say I've had better ones. For dinner I had hardtack and canned corned beef. The same for the other meals. We have lots of tea all the time as black and strong as we wish to make it. A good hot drink goes good when we come off guard on a cold night. I did not see Dan for a couple of days. He is the transport now. One of the boys saw him last night when they were out for rations and he is all right. I am sorry about those ducks I was sure I would have a piece of one to eat when I got home. Just now a bullet hit the top of the parapet of our trench. A big bunch of clay fell into one of the boys' dinner that he was cooking over the fire so he is saying all kinds of things.
