

TWICE-A-DAY

Remove the Film on Teeth to Which Many Serious Tooth and Gum Disorders Now are Traced

To Clear Clouded Teeth and Give Gums Coral Firmness, This Way is Widely Advised

Modern dental advice now leans largely to twice a day removal of a viscous film that forms on teeth. Run your tongue across your teeth and you will feel it; a very sort of coating.

Film absorbs discolorations from food, smoking, etc. That is why, according to leading dental opinion, it looks dingy and "off color." Film clings to teeth, gets into crevices and stays. It invites and feeds the germs of decay. And it is why it is judged so grave a danger to the teeth by authorities.

Film is the basis of tartar. And tartar, with germs, is the chief cause of pyorrhea. That is why regular removal is urged as probably the best method of protection.

Most dental authorities urgently advise thorough film removal at least twice each day. That is, every morning and every night.

For that purpose, obtain Pepsodent, the special film-removing dentifrice which leading dental authorities favor. Different from any other tooth paste.

Pepsodent circles the film, then moves it; then polishes the teeth gently safely to enamel. It combats the acids of decay and scientifically firms the gums. It multiplies the alkalinity of the saliva. And

meets, thus, in all ways, the exactness of modern dental science.

On dental advice, people are adopting this new way of tooth cleansing. Obtain Pepsodent, the quality dentifrice, at drug stores. Two months' supply at a moderate price—or send coupon for 10-day tube. Use twice every day. See your dentist twice each year. Make both a habit.

THE BRIGHTEST LIGHT is produced by using White Star American kerosene. Your dealers has it or can obtain it for you. W. H. Aiken & Co., Importers, 2421-11-2,61

HUNTER RIVER United Church Rev. J. C. MacConnell, D. D. will speak in the interest of the maintenance and Extension Fund on Wednesday evening, Nov 3 at 7.30 o'clock.

USED CAR BARGAINS—Willis Knight four perfect shapes Nash Six in good order. Baby Grand Chev., a real good buy.—McLaine Service Station. 2312-1-21

INVESTORS NOTE.—Attention is called to sale of Bonds of Penitentiaries Limited amounting to \$2,000,000, which appears elsewhere in this issue.

PLEASANT VALLEY, United Church, Rev. J. C. MacConnell, D.D. will speak in the interests of the Maintenance and Extension Fund on Thursday evening, Nov 4th at 7.30 p. m.

PATIENT RETURNS—Residents in the vicinity will be interested to know that Patsy McCloskey a patient from Falconwood Hospital, who has been in Iona is now back in the Hospital.

TO CORRESPONDENTS.—Will writers to the "Forum" please note that their communications must be accompanied by their real names and addresses, not necessarily for publication but as a guarantee of good faith.

THANKOFFERING SERVICE—On the afternoon of Sunday, October 10th, the W. M. S., of the Belfast United Church held their annual Thank offering Service. A large congregation was present, in spite of the unfavorable weather, and greatly enjoyed the special music, provided by members of the choir of Trinity Church, Charlottetown. A large collection was received.

VICTORIA—The schooner "Karmoe" Capt. J. Lord, cleared from Victoria for Charlottetown, on Friday last with a full cargo of 1930 bags of certified seed potatoes. Much credit was due to Stevedores who loaded her in two days. Already there has been shipped 15,000 bushels of seed potatoes from Victoria by D. Murchison, agent of Potato Growers' Ass'n.

ARMISTICE DINNER—A great deal of interest is being taken in the Armistice Dinner for Officers from the various Maritime Province Militia and C. E. F. Units. Definite word has now been received that Col. Ralston, Minister of Militia will be on hand, and Sir Arthur Currie will also be there. Any officers who intend going should get their tickets from Capt. J. H. Paton, Riley Building, Charlottetown, not later than Thursday of this week as Mr. Peters, Manager of the Admiral Beatty, where the Dinner takes place must have word by Saturday next.

OLDER BOYS' CONFERENCE—Arrangements for the Prince Edward Island Older Boys' Conference this year have been completed. Three conferences will be held in all. Two of them in November at O'Leary and Mt. Stewart, and the third at Hunter River shortly after the New Year. The O'Leary Conference, which includes Summerside and the western districts will be held Nov. 5-7, under the joint auspices of the Maritime Religious Education Council and the Prince County Y.M.C.A., and will be under the leadership of Rev. F. M. Milligan, Mr. H. H. Simpson and other boys' work leaders. The Mt. Stewart Conference which will serve Charlottetown and all districts east is scheduled for Nov. 12-14 and will be under the leadership of Rev. W. C. Machum, Mr. H. H. Simpson and local boys' work leaders. Dates and leadership for the Hunter River Conference have not yet been decided, but it has been arranged in addition to the other two, in order that the territory between Charlottetown and Summerside may be served to the best advantage. These Conferences which are open to any boy of fourteen years and over and to men interested in boys' work are a splendid opportunity for instruction in methods and for inspiration, and it is hoped that as many as possible will avail themselves of the opportunity. Registrations should be sent immediately to Rev. J. H. Copeland, O'Leary, or Dr. Angus Martin, Mt. Stewart.

CHARTON, a trusted employee of the Paris-Lyonne Railroad, on Saturday when about to board the Cologne Express with a valise full of secret documents, among which were the French Secret Service plans for the mobilization of the captured Maurice Philibert French Army.

Crop Report

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

GENERAL

While, owing to damage by rain and snow during harvesting, grain in the Prairie Provinces is grading lower than last year, the loss to the growers is partly offset by the present higher prices. 75 per cent of the crop which is estimated at somewhat less in quantity than last year has now been threshed. Deliveries today are slightly behind last year. In Quebec and Ontario farmers have had a fairly satisfactory year, although not quite up to the standard of 1925, adverse weather conditions having caused damage during harvesting. In the Maritime Provinces crops generally have been satisfactory and farmers will benefit materially. In British Columbia crops generally have been satisfactory with the exception of those in the Nicola District and Caribou. Details follow:—

PRAIRIE PROVINCES

Seeding was completed early and the acreage was about the same as last year. Rainfalls were unevenly distributed but late rains helped wheat sufficiently to insure that it did not develop any serious damage. Hail was more prevalent than in the previous year but frost was confined to small areas. Cutting, which commenced early, was delayed by bad weather. Threshing became general early in September but rain and snow have greatly interfered with operations. While some districts have nearly finished, in other places 50 per cent remains. It is estimated that 75 per cent of the crop has now been threshed. Grades are disappointing as a great deal of the grain has been damaged by wet weather. The price of wheat at present, however, is 16c above last year's figure at the same date. Deliveries by farmers to country elevators to the 22nd October totalled 133,000,000 bushels as compared with 141,000,000 last year. The Manitoba Free Press on the 15th September estimated the wheat yield at 367,157,000 bushels and the Northwest Grain Dealers Association on the 6th instant leave their estimate at 377,472,000 bushels. The Dominion Bureau of Statistics on the 10th September estimated the yield at 375,697,000 bushels as compared with last year's final estimated returns of 382,959,000. The Bureau also estimates the oat crop at 239,698,000 bushels or 330,000,000 bushels over last year and barley at 94,434,000 being practically the same as a year ago.

PROVINCE OF QUEBEC

While the yield of grain was not as large as first expected and oats in some localities had to be cut green, the crops with the exception of corn are considered average in quality and yield. Hay was slightly below average in yield but of good quality. Root crops were good in yield and quality, potatoes however suffered from rot. Fruit crops generally were average in yield and good in quality. Tobacco was harvested in good condition and up to the average in yield. Grass pastures throughout the season were good.

PROVINCE OF ONTARIO

Fall wheat and clover were harvested under ideal conditions but later grains were damaged by frequent rains and oats and barley were harvested under trying conditions. Barley is a good sample but oats are light and affected with rust. The Ontario Department of Agriculture estimates the yields of all grains for this year at an average decrease of 13 per cent as against last year, being 146,622,778 bushels compared with 168,000,000 last year.

ROCHFORD SQUARE SCHOOL

Follow the directions in each package of Rakwana Golden Orange Pekoe and obtain twice as many cups—making it cost less to use than the cheapest bulk teas.

Rakwana Golden Orange Pekoe

—First for first

161,120,636 bushels in 1925. Hay and clover are better than last year, the estimate being 5,113,319 tons as compared with 4,888,577, an increase of 4 per cent. Corn from a poor start developed rapidly during midsummer and a good average crop was the outcome. A large percentage of the crop is still not cut owing to the wet condition of the land. There is considerable rot in potatoes, other root crops are a good average with the exception of turnips. Winter apples are scarce but otherwise the fruit crop was good. Tobacco was a large crop but about 25 per cent was damaged by frost. Improved prices prevail over last year. The bean crop is almost a failure. Pastures were exceptionally good throughout the summer. There will be plenty of coarse feed for winter feeding.

MARITIME PROVINCES.

In New Brunswick grains, chiefly oats, are under average in yield and quality but pastures have been good. The potato yield is rather above a 5 year average and is of good quality. Opening prices are high. The hay crop is also a little above average and Nova Scotia hay is a fair average crop of good quality. Potatoes are a good crop. The Annapolis Valley apple crop is but 50 per cent of a 5 year average and the smallest since 1915. The fruit is of good quality and colour though undersized. Prices are only fair. Grains are below average. In Prince Edward Island the potato yield has been heavy and prices are good. Other crops are of good average yield and quality.

BRITISH COLUMBIA.

Hay and grain were a good average yield. Potatoes and roots, owing to droughts, are slightly below average. Small and soft fruits were a good crop. The apple crop estimated at 3,000,000 packages is almost a record. Peaches, pears, plums, prunes and apricots are all good crops. Pastures and ranges were affected by a long dry spell but are now in good condition.

Is Your Chest Sore? Does Breathing Hurt?

Proper treatment is a vigorous rubbing of the chest, neck and sore side with good old Neville. This wonderful liniment sinks into the tissues where the pain is seated and gives instant relief. That catch disappears, all sense of soreness goes quickly. Just try Neville for chest tightness, coughs, colds and soreness. It is a wonderful liniment, saves the whole family from numerous minor ills, and should be in every home. Large bottles, 35 cents, at all dealers.

Student Nurses Scarce In England

(Canadian Press)

TORONTO, Ont., Nov. 1.—"In my opinion the nursing profession is at a critical point," said Prof. Lyle Cummins, of the University of Cardiff, Wales addressing the Ontario Hospitals Association: "There are many avenues today for the woman seeking employment. Nursing must be made more attractive to get the proper type of recruits for the profession. We find in England that it is not so easy to secure student nurses as it once was. Not by trade-union methods, but by the creation of public opinion. I believe you should see to it that urse secure proper salaries. In addition, there should be provision for old age. There should be a system of pensions whereby the nurse who has grown old in her profession will not want after her usefulness is over."

Don't Neglect The Cold

Dangerous Sicknesses often start with a cold. Ward off your cold with Nya's Remedies at the first sneeze. Take Nya's Syrup of Tar and Cod Liver Oil. It fortifies the system against further inroads and then Nya's Laxacod it is a safe dependable laxative. We have it in sizes for self and family.

Light Will Beautify Your Home

CORRECT lighting works wonders in the appearance of any room. Draperies, rugs, decorations—even the furniture itself—take on new beauties under the radiance of a harmonious lighting scheme. Electric light is the least expensive of your household conveniences. A few cents will light your entire home for an evening. You can afford to use light abundantly. No other single item can do so much toward making your home more bright and attractive. There is a type and size of Edison Mazda Lamp for every socket and every fixture in your home—and each is a thoroughly dependable, long-lived lamp that will give you a maximum amount of light for the current you use. Ask your Edison Mazda Lamp dealer for information regarding proper illumination for your rooms. He will help you to enhance the beauty of your home.
