

ASKS CHANGE OF VENUE FOR CHAS. HYDE

NEW YORK, Dec 28—District Attorney Whitman today made it known that he was actively interested in proceedings taken by former City Chamberlain Charles H. Hyde in his efforts to obtain a change of venue for his trial on a charge of bribery in connection with the deposit of city funds. Mr. Whitman said that the affidavit offered as evidence of public sentiment against the former City Chamberlain was being rapidly investigated. A number of men, he said, had been assigned to this work. Their names were quoted in the affidavit interviewed, according to the District Attorney, and denied they made the statements attributed to them.

ADVANCED STEP IN LABOR LEGISLATION BOSTON, Mass., Dec 28—One of the most important matters to be considered and acted upon by the Massachusetts legislature when it assembles next week will be the measure known as the minimum wages bill, which is designed to insure a living wage for woman and child workers. The measure proposes the creation of a permanent State commission of three members with power to do the following things: Conduct a searching investigation of all industries where women and children are employed at a wage that does not permit living under healthful conditions. Form a joint wage board of six employers, six women at work in the establishments affected and three representatives of outside interests, who shall fix a minimum wage for the calling. Make special provision for physically and mentally defective employed by permitting them to work for a special rate below the regularly established minimum. Punish violations of the law, through the courts, by a fine ranging from \$10 to \$50 for every such violation or by imprisonment of from ten days to three months.

LETTER FROM PROWSE BROS LTD. We have passed another mile post in our business experience and the dawn of 1912 finds us thankful for the generous and hearty support accorded to us during the year 1911. Just a year ago today we made our first appeal to the buying public of this Province, with the only honest and business like proposition under the sun. Viz "strictly cash and one price to everybody." Our principal reason for making this change was the fact that the most of our customers, who spend enormous sums of money distributing to every home in Canada catalogues containing highly colored pictures and filled with catch-penny phrases, were getting a hold on the trade of this province, which was sure to prove disastrous to every legitimate financial institution that came within the radius of their trade demoralizing influence. The only advantage these houses had over us was their spot cash system, not on delivery of goods, but before the customers ever saw what they were paying their good money for, which is not a good business proposition. It is like using a time-worn expression: It is like buying a pig in a bag. In our case a large percentage of our business was done on the credit system, thereby compelling us to pay interest on a large amount of money from which we received no immediate benefit. Then again we had to add an extra percentage to our profits to protect ourselves against the losses incurred through the people who never paid their bills. Therefore you will readily see the disadvantages under which we were laboring. But now this state of affairs does not exist, and we can appeal to you with confidence knowing that we are in a better position than any other firm in Canada to give you the best value obtainable, in the lines of goods we handle. We are prepared to send any article in our stores on one week's approval to responsible persons on any part of the Island, and we are sure to get from any other source return them at our expense. This must appeal to you as a fair and reasonable proposition. We will go further. You may use any catalogue you have, send us the cut and description of any article you need in our line of business, and we will fill the order at the catalogue price and guarantee you better value than you could obtain from the firm issuing the catalogue. Now about the one price system: What object do you suppose a merchant has in view when he asks \$12.00 for an article, and before he lets you out of the store takes \$8.00? Do you think he is trying at first to get more than the article is really worth, or do you suppose that he thinks so much of you that he is letting you have it for less than the real value? These are hard questions for you to answer, so ask the merchant who conducts his business in this way: Friends: there is only one way to get a square deal, and that is to trade in a store where the price is the same to everybody. To our old customers who have had accounts with us for years, and whose credit is as good as gold, and whose word is as good as their bond, we extend our heartfelt thanks for the splendid evidences they have given us of their hearty endorsement of our new system. To our new patrons who have enlarged our circle of friends by hundreds, we also extend our sincere thanks, and assure all that it will be our earnest endeavour during the year on which we have just entered, to merit your confidence to even a greater degree than in the past, and we confidently expect every person who has the interests of this little Island at heart to get our prices and compare values, then we know that they will not send their money away to enrich other provinces. Wishing each and every one a happy and prosperous New Year, We remain, Yours Faithfully, PROWSE BROS LTD. 1-2dr11.

You may use any catalogue you have, send us the cut and description of any article you need in our line of business, and we will fill the order at the catalogue price and guarantee you better value than you could obtain from the firm issuing the catalogue. Now about the one price system: What object do you suppose a merchant has in view when he asks \$12.00 for an article, and before he lets you out of the store takes \$8.00? Do you think he is trying at first to get more than the article is really worth, or do you suppose that he thinks so much of you that he is letting you have it for less than the real value? These are hard questions for you to answer, so ask the merchant who conducts his business in this way: Friends: there is only one way to get a square deal, and that is to trade in a store where the price is the same to everybody. To our old customers who have had accounts with us for years, and whose credit is as good as gold, and whose word is as good as their bond, we extend our heartfelt thanks for the splendid evidences they have given us of their hearty endorsement of our new system. To our new patrons who have enlarged our circle of friends by hundreds, we also extend our sincere thanks, and assure all that it will be our earnest endeavour during the year on which we have just entered, to merit your confidence to even a greater degree than in the past, and we confidently expect every person who has the interests of this little Island at heart to get our prices and compare values, then we know that they will not send their money away to enrich other provinces. Wishing each and every one a happy and prosperous New Year, We remain, Yours Faithfully, PROWSE BROS LTD. 1-2dr11.
