BAPTIST CONVENTION AT FREDERICTON, N. B.

FREDERICTON, N. B., Oct. 19.—After a great day on Sunday the convention took up its business sessions again this morning. Dr. Francis conducted the devotional service for thirty minutes to a full house. Dr. Francis is a great asset to the success. He is a delightful man and deeply spiritual. His mission to this convention will bear much fruit during the coming year. Many will go home with a new vision of Christian life.

000,000. The Baptists of the Maritime Provinces have a great plant at Wolfville, N. S. The weather was inclement in the afternoon, but a large audience assembled to hear Dr. Francis. After the devotional exercises, Rev. G. A. Lawson, Secretary of the Minister's Annuity Fund, read his report. There was considerable discussion on the report. The report that caused the most discussion was that of the Minimum Salary Plan. This advocated an advance movement to increase the pastors' salaries. The matter was finally left with the Finance Committee to inaugurate a movement for a large endowment. A number of other reports were read and adopted.

THE PEOPLE'S.—As usual, The People's Theatre was packed to the doors last night, and there was every good reason for the circumstance. The programme of a kind one does not often have the pleasure of seeing, and "Ashes of Hope" proved to be a masterpiece of dramatic acting. The Kathlyn number was also shown and was very interesting. Two first-class comedies, "Forced to be stylish" and "Snakeville's Romance", created unbounded laughter, and "A Back Yard Theatre" was a "cute" picture full of child life. The "All Red Feature" was one of the best films and was a highly interesting picture. The Strand War Series will be shown at the People's stage and a great deal is expected of the series.

PRAISEWORTHY.—The clan McKinnon of Prince Edward Island are endeavoring to establish one or more beds in the Hospital at Rouen, France, for the accommodation of wounded Canadian soldiers. Many Highlanders of the Scots Greys and Camerons have been killed or wounded in the Battle of the Aisne, when the enemy were stronger than they in point of numbers by ten to one. Amongst the killed was Lieutenant McKinnon, a young man of great promise, whose father was a daughter of Lord Hood and father-in-law of the Duke of Devonshire. The clan propose to provide comfort for a few of their brave Highlanders and for the purpose a circular letter has been sent to all the McKinnons in the island, soliciting contributions. The proposal is meeting with a hearty response and subscriptions are being received all round. The movement was projected by Ex-Governor McKinnon.

THE PRINCE EDWARD.—The large crowds at the Prince Edward Theatre last evening were given an excellent bill, consisting of three dramas and a comedy. A two-part detective story, featuring Helen Holmes, entitled "The Flaw in the Alibi" held the attention of the audience to the end. It was the story of a bank robbery, of which a young clerk was wrongly accused. The real culprit was caught and the suspected one exonerated not only in the eyes of the law but by the President's daughter, his sweetheart. Warren J. Kerrigan clearly demonstrated his unusually high qualities as an actor in "The Passer By," a two-part masterpiece, greatly appreciated. Another drama and a comedy in which Ford Sterling kept the audience in a continuous uproar, were the other numbers and were greatly enjoyed.

CATTLE SOLD.—The auction sale yesterday of pure-bred Shorthorn cattle from the herd of Senator Yeo, of Port Hill, was well attended and the prices realised were quite satisfactory. Following were the purchasers and prices paid: For bull calves, Norman Ramsay, Beach Point, \$62; George Yeo, Knutsford, \$60; Norman Montgomery, Bedeque, \$65; Arsene Gallant, Miscouche, \$68; for heifer calves: George McFarlane, Fernwood, \$53 and \$30; Fred Compton, St. Eleanors, \$47; older heifers: Arthur Simpson, Hamilton, \$65; Collingwood Yeo, Port Hill, \$68; Richard Clarke, Summerside, \$40; Percy McMurdo, Kelvin, \$37. A two-year-old Shorthorn bull was sold from the herd of Professor Theodore Ross to Messrs. McAusland Bros., of Bloomfield, for \$85. Some horses were put up, from the stable of Dr. Church, but only one was sold. The auctioneer was Mr. Fred Wright, of Summerside, and the sale was begun at one o'clock.

EXCELLENT ADDRESSES.—A very large meeting was held on Tuesday night at Cambridge Hall, near Murray Harbour North in aid of the several patriotic funds. The large hall was well filled, although the night was very unpleasant and travelling very bad. The meeting nominated Mr. Temple McDonald, M.L.A., chairman, and after stating the objects of the meeting he called upon the speakers in the following order: Mr. Aeneas A. McDonald, Rev. Mr. Sutherland, clergymen of the district; Mr. K. J. Martin, Rev. Theodore Gallant and

Dr. Fullerton. The speeches of Rev. Dr. Fullerton and Rev. Mr. Sutherland were particularly inspiring and were highly appreciated. The districts subscribed ninety-one bushels of oats, which have been supplemented by very large contributions from the joint districts of Sturgeon and Gespreau. The sum of \$14 was collected. Some patriotic music by Rev. T. Gallant enlivened the meeting, and the chairman closed the proceedings with a fervent and strong appeal for the whole-hearted support of his hearers. Enlistments from the neighbourhood are not unlikely. At the conclusion the National Anthem was sung.

PROMPT TREATMENT.—The police yesterday, in pursuance of a telephone message, visited Connolly's wharf, where, in the little fishing vessel, Alaska, they found Captain Phalen lying ill in the cabin. He had been there for three or four days and had had very little to eat. The matter was brought to the attention of Hon. Charles Dalton, Acting Premier, who immediately communicated with Dr. Conroy. Without a moment's delay the suffering man was taken to the Charlottetown Hospital, where he was treated. Late last night it was ascertained by enquiry at the institution that his condition was somewhat improved.

"WORLD CONQUEST."—Zion Hall was crowded last night when Dr. Livingston T. Mays, American Consul, delivered a lecture of unusual brilliance on a subject of absorbing interest, "World Conquest." The lecture was delivered under the auspices of the Women's Missionary Society, and the meeting was presided over by the pastor of Zion Church, Rev. G. C. Taylor. Dr. Mays said the

first commandment given to humanity was given to Adam in the Garden of Eden, to subdue the earth. The world gave a physical reward to those who subdued it in a physical way, and how 30 acres of land in Cuba, which was more completely developed than any other 30 acres in the world, produced an average of \$30,000 worth of tobacco per acre per year; and also \$20,000 a front foot, not because it was intrinsically any better than any other land, but because men had so completely developed that particular portion of the earth by the creation of colleges and other institutions, the establishment of railways, etc. Dr. Mays then spoke of how Christ, the second Adam, commanded a little group of people to make spiritual conquest of the world. This little group had sent the good news of salvation to many portions of the world, and yet there were a thousand billion people in the world who did not know that Christ had died for them. The great duty, continued Dr. Mays, rested on Christian people to carry Christianity to all these. Referring to the war, he said that the fact that it was costing fifty million dollars a day showed what people could do for their King when they were truly loyal to him. If all professed Christians were that loyal to Christ they would make conquest of the world in a very short time. A vote of thanks, moved by Mr. W. T. Huggan, and seconded by Dr. Mays, was heartily accorded. Dr. Mays made a brief reply, thanking his hearers for their kindly appreciation of his efforts. There was a short musical programme, consisting of a duet by Misses Lawson and Murchison, and an exquisitely rendered solo by Mrs. Colwell. A collection of \$50 was taken up in aid of the Home Missionary Society work. With the

singing of the National Anthem a highly interesting and instructive meeting came to a close.

FOOT AND MOUTH DISEASE.

OTTAWA, Oct. 21.—An embargo against the importation into Canada of all animals subject to foot and mouth diseases, and of hay, straw, fodder, manure, etc., from the State of Indiana and Michigan in the United States, has been placed by the Department of Agriculture of the Dominion.

This action follows an investigation by Dr. Torrance, veterinary director-general. Dr. Torrance received word last Wednesday from Dr. Melvin, chief of the Bureau of Animal Industry at Washington, that a subtle disease resembling foot and mouth disease had appeared in Michigan. Dr. Torrance immediately proceeded to Niles, Michigan, where he met Dr. Mohler, chief pathologist of the bureau, and other members of the staff. A careful diagnosis determined that the outbreak was foot and mouth disease and on investigation it was found that about fifty herds were involved in an area comprising a county in the southwest corner of Michigan and the adjoining county in Indiana. On Dr. Torrance's return to the city on Saturday and order was promptly signed by Hon. Martin Burrell, minister of agriculture, putting on the embargo.

It is stated that the United States authorities are taking the most vigorous and rigid measures to stamp the disease out and will slaughter all infected animals and prevent the movement of all stock. The last outbreak of this serious disease was in 1908, when the States of Pennsylvania, New York, New Jersey and Michigan were affected. It was stamped out in six months. The Department of Agriculture will take every precaution to see that the disease obtains absolutely no foothold in Canada.

War Reveals Waste of Food

Apprehensive over food shortage, the London press is advising the English people to save and utilize every article of food value, including the bran coating of grain.

Why? The outer coat of grain holds the precious mineral elements which means so much in vital building and up-keep of body, brain and nerves. And yet the modern miller throws out about four-fifths of these priceless food elements just to make the flour look white and pretty!

Isn't it astounding that it took war to wake people up to such a fearful waste!

Nearly twenty years ago the crying need of a food which would fill the lack caused by demineralized white flour products led to the making of

Grape-Nuts

—a wonderfully nourishing and appetizing food containing all the nutriment of wheat and barley, including the vital mineral elements, just as nature designed them for our use.
