SUMMER RESORTS LIT

The annual meeting of the Charlottetown Summer Resorts Ltd. was held in the office of Messrs. F. B. McCurdy & Co., last evening. Mr. J. O. Hyndman, president, presided over a good attendance of shareholders. Mr. R. L. Cotton, manager, submitted the following report of the Directors in the year's working: "We beg to submit herewith a report of the results of the past season's operations of your Company. The venture, we think, has been as successful as could have been expected under the circumstances.

"The Profit and Loss account shows a net profit of \$1,200.59, equivalent to 37.1 per cent per annum on the amount of Preferred Stock paid to date which your directors deem highly satisfactory. "Owing to the difficulty of obtaining both men and materials and the scarcity of capital during the early part of the season we were not able to construct as many cottages as had been intended. Our plans called for sixteen bungalows. In addition to the dining hall we were able to build but eight and they were not all ready for the opening of the season. Had we had the sixteen there is little doubt that all would have been occupied. We trust that it will be possible to complete the programme authorized at the first general meeting before the season of 1914 begins.

There were well-grounded complaints made regarding details of the dining-room operation. In this connection it must be remembered that the business engaged in by your Company was new to all connected with it, and some of the employees highly recommended to us were not very satisfactory. The past season has given us valuable experience which will be of great assistance to your officers in the future. Attached is the General Balance Sheet and Profit and Loss Statement and Statement of Revenue and Expenditure. The report was unanimously adopted and the Directors congratulated on the successful showing. The Board of Directors was re-elected as follows: Messrs J. O. Hyndman, J. P. Gordon, W. R. Aitken, A. McKinnon, and R. L. Cotton. Mr. R. H. Jenkins was appointed Auditor.

TO INVESTIGATE COST OF LIVING

(Canadian Press.) MONTREAL, Nov. 28.—The Board of Controllers passed a resolution which will be submitted to the City Council on Monday asking the Dominion Government to institute an enquiry into the high cost of living in Montreal which the Controllers believe is far greater than can be justified even by the failure of production to keep up with demands. The claim is made that it is more expensive to live in Montreal today than in any other city in America.

(Canadian Press.) TORONTO, Nov. 28.—The Board of Control has decided to ask the Dominion Government to appoint a commission to investigate the high cost of living in this city.

CONSERVATIVE WINS IN ONTARIO

LONDON, Ont., Nov. 27.—John McFarlan, (Conservative) of Nissouri, today defeated John W. Laidlaw, East Middlesex, Alliance-liberal candidate for the legislature, by a majority of 243. The vote was a large one, totalling 4,237, of which McFarlan received 2,266, and Mr. Laidlaw, 1,972. The majorities by townships were: McFarlan Laidlaw, London 523, Dorchester 105, Nissouri 120, Westminster 215, Total 628, 335. The fight was a warm one, Mr. Rowell, the Liberal leader, appearing several times in the riding. The temperance issue, while it played a large part in the fight, did not altogether account for the result. Mr. McFarlan's own township, Nissouri, gave a majority against him of 120. This was on account of a bitter fight on bilingual schools in this strong Conservative township.

C., and carried amid enthusiastic applause, by a standing vote. Mr. O'Connor, as had Major Thompson, spoke of the bigness of Mr. Borden—a man whom we had confidence in and who was worth having confidence in. The passing of the resolution was signalled by three cheers and a tiger for Mr. Borden.

MEXICO AN AMERICAN PROBLEM

(Canadian Press.) LONDON, Nov. 28.—The National Review, which is ordinarily hostile to the United States, says of the Mexican question that the proximity of Mexico to the United States is the most important of outstanding elementary facts to be taken into consideration. He pronounces as an utterly farcical idea that Mexico is a suitable field for a spirited British policy which we would undoubtedly have pursued if the problem were ours. She is confronted by a grave problem at a highly inconvenient moment. The President is the soul of sincerity and detests the idea of going to war. It is a palpable case for masterly inactivity on our part. Mexico is an exclusively American problem as the Transvaal was exclusively a British problem.

TWO MEN KILLED ON INTERCOLONIAL

AMHERST, Nov. 28.—Another fatal accident occurred upon the I.C.R. yesterday at noon at Little Forks when the Canadian Pacific express collided with a small handcar, carrying four men, hurled the car and men from the track, killing one man instantly and the other victim, who was put aboard the train, breathed his last shortly after he was taken to the Highland View Hospital, Amherst.

Ralph Noyes, of Malden, Mass., is the name of the first victim of the catastrophe, while the other man, W. R. Gray, is a native of Dartmouth, his mother living in that town. J. Congdon, a civil engineer of Dartmouth, was for a number of days busy engaged in surveying the railway from Union Junction westward, for the purpose of gathering data relative to the double-tracking of that portion of the road.

The party comprised J. H. Congdon, of Dartmouth; W. R. Gray, of Dartmouth; Ralph Noyes, of Malden, Mass.; James Woodman, of Boundary Mass.; J. A. Mansfield, of Fort Massachusetts; and A. A. Baker, of Montreal. "SAFETY BELT" BUT TOO LATE. The headquarters of the party were for the present near Spring Junction, where they have their hand-cars and instruments stored. Yesterday morning they made a run to Little Forks, which is about three or four miles to the westward side of Spring Junction, and were engaged in surveying along the line all morning. Just a few minutes before the I.C.R. was due, the entire party were proceeding along the track, J. A. Mansfield and Mr. Congdon walking, while the other four were on the hand-car. None of the party heard the rumbling of the fast approaching express until the train was fairly upon them. Wor-man and Burke happened to look up and saw the locomotive towering over them. They snatched a warning to their companions and jumped for their lives. Beyond a few scratches and bruises these men were not hurt.

FERRIBLE CHARACTER OF INJURIES.

Before the other two men grasped the situation, the train was upon them. Noyes was hurled to a height of thirty feet in the air on to a pile of rails some distance from the track. His head struck the rails and he was instantly killed. His head was literally split open and not a vestige of brain remains in the skull. Gray was also struck, his skull was fractured, both legs were broken, one arm was taken off, his spine, collar-bone and hand were broken. He was rendered unconscious and he was brought to Amherst by the same train, when he was taken to the hospital in the ambulance, where he passed away at one o'clock. The remains of Ralph Noyes were left at Maccan. Dr. T. C. Hewson, the officiating coroner, proceeded to Maccan in the afternoon and ordered the remains of the victim to be removed to Christie's undertaking rooms, Amherst, where an inquest will be held this afternoon at one o'clock.

The reason for delay is due to the fact that the jury will have to await the arrival of Conductor Daley and Driver Friers, who had the C. P. R. train. Ralph Noyes lives in Malden, Mass., and had been employed in this section of the province for some time. His parents were notified. He is unmarried. W. R. Gray lives with his parents in Dartmouth and is unmarried. The disaster has thrown a shadow over Amherst for it is the second fatal railway accident that has occurred in the past three months.

MANSLAUGHTER CASE IN SYDNEY

It is understood that medicine was purchased from Gaskin for Mrs. Ayles and as a result of taking it she died. An investigation and autopsy will be held.

PROVINCIAL BLACK FOXES LIMITED

Hon John Agnew, President of the Provincial Black Foxes, Limited, in his report at the first meeting of the Company's shareholders held Thursday evening, said that the stock of the company has been subscribed from almost every Province of Canada, from different points in the United States and also from Great Britain. Although the stock had been placed on the market at the worst period of the money stringency it spoke volumes for the Company that it was so well received at home and abroad. About 50p.c. of the stock was held by shareholders residing on the Island.

The five pairs of Silver Black Foxes owned by the company were placed in the ranch on the Brackley Point Road, two miles from Charlottetown, about first of October, and are all quite at home there and in a healthy condition. These foxes are all of the Island's best production being from the Dalton, Oulton, Rayner Stock. The five pairs of foxes are all proved breeders and have had a record production of about four and a half pups, on the average, per pair. These foxes are all eligible for registration in class A of the Silver Fox Breeders Association of Prince Edward Island and will be registered as soon as the Association is ready to grant certificates.

The situation of the ranch is an ideal one in every respect; the pens are about the largest of any ranch on the Island and it is considered by competent judges to be one of the finest ranches in the Province; in addition to the protection of a night and day watchman, a splendid specimen of the bugish blood hound is always on duty. The company has also been successful in obtaining the valuable services of Mr. W. E. Petrich as veterinary surgeon.

Since the prospectus was printed it has been deemed advisable to have two additional directors, making five in all; consequently Mr. W. A. O. Morson of Charlottetown and Mr. A. K. Tapper, of Boston, were asked to join the board and accepted. Mr. Morson, said the President, was so well and favorably known throughout the whole community that no comment was necessary. Mr. Tapper was a native of the Island, but for many years a prominent and influential business man of Boston. The company felt sure that the many shareholders in the United States would be well pleased to have a man of Mr. Tapper's standing represent their interests on the board.

The agreement between the rancher and the company had been prepared and would be submitted at the meeting.

The prospects of the future of the Silver Black Fox Industry were very promising indeed and large dividends were anticipated for the shareholders for 1914. This meeting had been called in accordance with the act of incorporation for the completion of the organization, which was chiefly to adopt By-laws and appoint directors for the ensuing year. The meeting, however, was open for the discussion of any matter of business the shareholders might wish.

BRITAIN'S LATEST BATTLESHIP.

The British battleship Emperor of India, the last of the four battleships on the 1911-12 naval construction program, was launched at Barrow-in-Furness on Thursday. It was at first intended to call her the Bahli. Her construction had been considerably delayed owing to labor troubles at the ship yard, so that the new vessel is not such a modern type as some of the ships already launched. She was laid down on May 31, 1912. The British Admiralty departed from its recent custom and invited the naval attaches to the foreign embassies in London to be present at the launching, its reason for doing this being probably because the details concerning the new battleship were already known.

SCANDALS IN BRITISH ARMY AND NAVY

Fleet Paymaster Disappears. Between \$50,000 and \$70,000 Missing. N. C. O's of Guards Arrested for Accepting Bribes.

LONDON, Nov. 28.—Two scandals affecting the navy and army of the most serious character were reported yesterday and have created the greatest sensation. Warrants have been issued for the arrest of Fleet Paymaster John Lowry, who has disappeared from H. M. S. Ganges, stationed at Harwich. It is believed that between \$50,000 and \$75,000 is missing, but this cannot be definitely ascertained until the safe is opened, and the detectives do not yet know the combination. Scotland Yard detectives are looking for Lowry, who is the third senior on the list of naval paymasters. He was appointed in 1903 and is 53 years of age.

TO COMMEMORATE CONFEDERATION

ARRESTED FOR BANK ROBBERY

(Canadian Press.) VANCOUVER, Nov. 29.—One man has been arrested at Coquitlam and three others at Abbotford as suspects in connection with the attempted robbery of the Bank of British North America at Aggasiz, Wednesday. All are foreigners. The man at Coquitlam who still carried a rifle was identified by the manager as one of the robbers.

KNITTING FACTORY NOW ASSURED

The project for the establishment of a Knitting Factory in Charlottetown, which has been before the public for some weeks, has assumed definite shape and may now be regarded as a certainty. At a meeting of the promoters held last night final arrangements were completed to proceed at once with the carrying out of the proposition, securing the incorporation of the Company, procuring the plant and getting the factory started as quickly as possible.

The capital of the Company is to be \$50,000. Of this amount \$11,000 has already been subscribed and the balance of the stock, \$39,000, will be offered to the public. The following Provisional Directors were appointed at last night's meeting:—residents, Mr. S. B. Reid; Secretary-treasurer, Mr. John P. Gordon; directors, the above with Messrs S. A. McDonald, John T. Macenzie, W. B. Prowse, C. J. Clark and Dr. A. B. Reid.

The City Council has made generous concessions to the Company, with which Guardian readers are already acquainted, and with the whole province caring for the establishment of industries, there is now no doubt that the proposition will go ahead with a bound.

A knitting factory is one of the few industries for which this province is peculiarly adapted. The necessary raw material is produced in abundance, the manufactured product is worn here in abundance and there is an assured market for all that can be produced. Heretofore Prince Edward Island wool has been exported to other provinces to be manufactured, and the finished product returned and sold—both ways added.

It is therefore pleasing to know that a definite move has at last been made to remedy what has been a serious grievance. That the enterprise will be a success is unquestioned; the names of the promoters will be a sufficient guarantee of this, while the urgent call for home industries and the promise of good dividends will ensure a ready response to the call for stock. The Guardian wishes the project every success.

THE ARMY SCANDAL.

The other scandal, that relating to the army, is more serious, as it reveals a widespread system of corruption throughout the country. A large number of non-commissioned officers of the Guards regiments, stationed in different parts of the country, are under detention on charges of having accepted bribes in connection with orders for the various commissaries. Some of the accused have been brought to London from Aldershot and Windsor under guard and are now in custody at Wellington barracks, the headquarters of the Guards regiments, where a preliminary investigation will take place today.
