

SHORTAGE OF RAILWAY EQUIPMENT

We are publishing today an interesting photo showing a train of coal cars loaded with Gray Dort Automobiles in the Grand Trunk yards at Chatham, Ont. This photo shows plainer than any words the Gray Dort Motor Ltd. have an output of about 40 cars per day and in order to get the cars shipped when ordered have had to use coal cars and in many cases flat cars instead of the regular box car. Other manufacturers are having the same trouble which is likely to increase as spring advances and perishable freight begins to move to the sea board.

"FLU" IS INFECTIOUS

A DISEASE EASILY SPREAD THROUGH CLOSE ASSOCIATION

It passes in the form of minute germs from the coughs or sneezes of people who in the first stages mingle with others. Therefore, avoid exposure, this may be difficult, almost impossible. But we can all keep our blood full of vitality and enable it to resist the attacks of disease germs, by taking Hood's Sarsaparilla, the pre-eminent blood-purifier and health builder. This good medicine promotes assimilation so as to secure for the body the greatest possible value of food. It aids digestion and "makes food taste good."

After influenza or any other blood poisoning, prostrating disease, it is remarkable how it promotes convalescence and brings a perfect restoration to health. A good cathartic like Hood's Pills helps greatly by keeping the bowels regular.

Largest Deal in Foxes and Fox Property

What has undoubtedly been the largest deal that has ever taken place in connection with the silver black fox industry was finally completed yesterday at noon when Mr. James C. Tuplin, who is known throughout the world as the most successful breeder of silver foxes in the business and who has established the reputation of having the finest silver foxes in the world, transferred his entire ranch property at Black Bank, to Messrs Wedlock and W. K. Rogers of Charlottetown.

The ranch property is one of the best being particularly suitable for the raising of these beautiful animals. The number of foxes involved is thirty three pairs and experts pronounce these Tuplin foxes as the best average lot in the world. There is not one poor fox in the entire lot.

Messrs Wedlock and Rogers are transferring the property to the James C. Tuplin Silver Black Fox Co., Ltd., under which name the property will be operated in the future. There is, however, no stock for sale as Messrs Wedlock and Rogers intend maintaining the entire interest on their own account.

The purchase price of the property is said to have been \$100,000 and among fox men it is generally considered that the purchasers got a bargain at that figure.

The history of this famous ranch is in itself a large part of the story of fox farming. Started some thirty years ago by the late Robert Tuplin, father of James C. Tuplin, with one pair of choice foxes, the ranch was slowly and carefully developed, the greatest care being taken in regard to keeping in his hands only the very highest quality foxes that could be raised. Indeed quality was always the great watchword with the Tuplins and the wonderful prices that they have always received for the pelts sold by them were the best evidence of their knowledge and wisdom. When the late Robert Tuplin died some years ago he left this property to his son James C. Tuplin who kept on developing it on the lines laid down by his father and with his increasing knowledge of the business he was able to develop and advance the quality of his stock beyond even his greatest expectations. Financial success as well as his efforts and he is now able to retire with the standing of being one of the leading financial men in the province. He will however still continue as an advisory counsel to the James C. Tuplin Company as, having been so long associated with his strain of foxes, he is naturally very much interested in the Company which bears his name continuing to be a splendid success.

Mr. W. K. Rogers is already the owner of four large ranches and Mr. Wedlock the owner of an eighty pen ranch and a number of very fine foxes of his own. Adding the Tuplin ranch to their former holdings makes them unquestionably the largest holders of foxes in the world. We certainly wish them every success with the James C. Tuplin Company.

THE CENTRAL GUARDIAN

IT PAYS to buy in this Province. NOTICE.—Fishing in Hunter River mill pond strictly prohibited by order of J. W. Patterson. 7695-3-15-ME31

ST. PATRICK'S at the Country Club, with extra music and the best of everything. 21

DOCTOR TELLS COLLEGE STUDENTS WHAT'S BEST TO EAT AND DRINK

LONDON, Ont. March 15.—"Good fresh beer has considerable food value, being rich in vitamins," said Dr. J. W. Crane, in an address to a Western University audience last night on "The Psychology of the Menu," but, he added, "The two per cent beer sold here has no vitamins and has, therefore, no food value."

He had at one time advised his students not to use tobacco, believing it weakened digestion, but tests had shown the saliva of a smoker digested starch better than that of a non-smoker. But, he declared, the experiments show that the average output of work cannot be increased by tea, coffee, alcohol or other drugs.

Candy, he declared, the best food for children, who need far more sugar than their parents. Oatmeal, Dr. Crane asserted, is the cheapest and most efficient breakfast food. Fireless cookers and prolonged boiling destroy vitamins.

THE SMELL OF LONDON.

—The air of London, which we abuse for its fogginess when we come into it from the country, is impregnated with character. Its public buildings, as I have indicated, have each their own atmosphere (that of the Law Courts is particularly repulsive, official and year rather unwashed), and even its streets are so distinguished from Piccadilly, where the motor promenades over the horse, to Guilden street, where the horse is triumphant, and the Embankment, where the putrid mud, Thames water, and sea conflict with various success according to the wind and tide.

—One stress the local odours, those which drift across Soho Square, sickly with Seville oranges or tart with vinegar, according to the activities of Messrs Croisse and Blackwell, to a fragrant catalogue appearing in a baker's shop?

This latter, but how immeasurably more fantastic and savory, was characteristic of certain streets of Paris in peace times. Very likely these observations set down hazily in a frigid catalogue appear a little ridiculous, but consider what use could be made of them by a modern continental poet who would exploit them cunningly to evoke just the right corner of London, just the right touch of cynicism or pathos.

She's up and at Her Work Again

THAT'S WHY MRS. KARGUS RECOMMENDS DODD'S KIDNEY PILLS

Lynedoch Lady states that she was so weak she could not get out of bed till she found relief in Dodd's Kidney Pills.

Lynedoch via Wolfe, Ont. March 15th.—(Special.)—"I feel like telling everybody about what Dodd's Kidney Pills did for me."

On Entering a New House

Peace to this house where we shall enter in!

Here let the world's horse din Against the panels dash itself in vain!

Like gusts of autumn rain; Here, knowing no man's sway, In the brief pauses of the fight, Let music sound, and love and laughter light. Refresh us for the day.

The window waits where I shall sit me down

And sing a quiet song.

When sleep descends upon the darkening town,

And winter nights are long, Then with the dawn I'll fling the casement wide

And o'er the brimming tide I'll send it forth, as Noah sent his dove

Across the world of waves on warring winds of love.

—Herbert M. Hopkins, boy ill.

LEAVES FOR CHIPMAN N. B.—Rev. A. Sutherland, Murray Harbor North leaves this morning for his new charge in Chipman, N. B. He will be accompanied by Mrs. Sutherland, infant and nurse. Mr. Sutherland has been nearly 30 years in Murray Harbor North, and leaves amidst the regret of his congregation, after having done great work in Presbyterianism and Evangelism in the Province. Mr. Sutherland has been a strong worker and every inducement was offered him to remain here, but he felt it his duty to accept the call to the larger sphere of work at Chipman. The Guardian wishes him every success in his new charge.

PERSONALS

Mr. F. Jordan, Murray Harbor, was in the city yesterday.

ISLAND BISLEY REPRESENTATIVE IS CHOSEN

Mr. G. R. Beer, of this City, Has Been Selected as the Marksman from this Province

His many friends will be delighted to learn that Mr. G. R. Beer, one of the crack shots of this Province has had the honor of being selected as the representative of Prince Edward Island on this year's Bisley Team. This is certainly quite a distinction and Mr. Beer is to be congratulated. He has made some decidedly fine scores since he started in on rifle shooting some eight or ten years ago. Mr. Beer is said to be the only island marksman to have made the grand possible score of 105 points over the two, five and six-hundred yard ranges. This he did in June, 1919, and was presented with a cup of the Bisley in honor of this notable feat. When the new ranges at Summerside were opened in 1914, Mr. Beer had the distinction of winning the grand aggregate over competitors from all parts of the province under very trying conditions. He also won the ladies challenge match at this meet with the score of 49 points out of a possible 50. In August last Mr. Beer in the P. E. A. competition made the magnificent score of 101 out of a possible 105; winning the Prowse Match and a valuable rifle. He also won the Governor General's Medal. Mr. Beer, it will be remembered, was overseas with Major McKinnon and was transferred in England to the 35th Field Battery and served 18 months in France with that unit, and was slightly gassed at Passchendaele and was subsequently sent to "Brighton" where he was two months in hospital. After leaving hospital he was sent to the Reserve Depot at Witley. In a series of athletic and sporting events held there he competed in several musketry competitions, the first of which he came out the winner and was awarded a valuable medal. In athletic events he entered the hammer throw and was successful in winning a place on the Witley Area team that competed in the Canadian championships at Stamford Bridge, August 14, 1918. In this meet Mr. Beer won second place in the hammer throw, being beaten by Capt. Ed. Archibald, the famous Canadian Olympic champion. The Bisley shoot is to be held in July and the team will sail early in June.

THE CANADIAN EXCHANGE IS SUBJECT OF SUIT

Cable Tolls For the Canadian Pacific Railway Ordered to be Paid in United States. Currency.

NEW YORK, March 12.—An interesting question involving Canadian exchange is the subject of a suit which the postal telegraph cable company instituted in the United States district court here today through its attorneys, Charles E. Hughes and W. E. Cook, against the Canadian Pacific Railway.

The postal company in its complaint says that it paid out in American money to American cable companies on behalf of the Canadian Pacific the sum of \$65,080 for cable messages to South America, Asia, and that the Canadian Pacific Railway Company, while this suit is pending, has refused to reimburse the postal company, thus leaving on the postal the loss in exchange of about twelve per cent.

The postal says that inasmuch as it paid out this money in cable tolls for the Canadian Pacific in American money, it must be reimbursed by American and not Canadian money. The issue is a novel one in New York courts.

Drugs Excite Your Kidneys, Use Salts

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

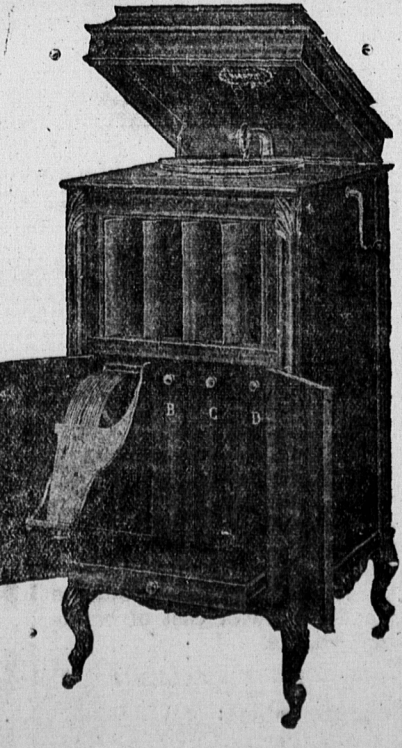

Drink lots of water—you can't drink to much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

ROADS AND RAINY DAYS

Ever live on a farm? Know anything about farms and farm life? If you have you know the answer to this question:

When does a live and industrious farmer prefer to run into town to attend to business there?

In stormy weather of course. The wise farmer takes advantage of good weather to keep his farm going on a paying basis.

He isn't a loner. He makes capital out of fair weather. He knows that sunshine is worth as much to him as his acres, his tools and his knowledge of the farming sciences.

He will no more waste sunshine than he will waste fertilizer, grain nor money.

This is true because the modern farmer is a first-class business man.

He does on a rainy day those things he can do then as well as on a bright day, in order that he may have the bright day for the big and important job of making his farm produce its share of the world's necessities.

And on a rainy day he can go to the city, do his buying, market his produce, and do any manner of business which he has been putting off during good weather. That is, he can do so provided the roads permit.

What saving would it net the farmer could he have roads upon which he could travel with equal ease rain or shine?

For each trip such roads would be worth a day's wages for himself and his team—that is clear enough.

Supposing it happened ten times in a year, the wage saving would easily amount to \$50 for the ten days. We think it would reach \$100. Surely, one should not be able to hire a good farmer and a good team for less than \$10 per day.

And think what he would save above that, in better crops, fertilized land and general personal supervision of the important affairs of the up-to-date farm.

Do not suffer any other day with itching, bleeding or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve at once and as certainly as a box, all dealers, or direct from Dr. Chase & Co., Limited, 1151 Chestnut St., Philadelphia, Pa. This box free if you enclose a paper and enclose 2c.
