A large, enjoyable and profitable picnic was held on the Experimental Farm Saturday afternoon by the Lots 27 and 28 Farmers Institutes. The visitors came by special train and were cordially welcomed to the farm by Superintendent Clark, who showed them over the farm, explaining what the Experimental Farm is doing, the experiments in dairying etc., etc., in the course of the round of the fields answering questions innumerable. After the inspection of the farm, speechmaking was indulged in on the well shaded lawn, among the speakers being United States Consul Frost, Mr. McCreedy, Hon. M. McKinnon, Commissioner of Agriculture, D. Nicholson, M. P., Dr. Doherty, Reuben McDonald of the Patriot and others. Later the party repaired to a beautifully shaded grove where tables were spread and the contents of numerous baskets brought by the visitors were discussed, together with the strawberries, cream, tea and coffee furnished by the farm. At the close a cordial vote of thanks for the hospitality, instruction and pleasure enjoyed was tendered Superintendent and Mrs. Clark. The picnic was thoroughly enjoyed by the visitors who unanimously declared it to be one of the pleasantest in their experiences.

Rev. W. F. Parker of Ottawa very acceptably supplied for the Charlottetown Baptist Church yesterday. Mr. Parker's sermons were of much spiritual depth and power. His theme in the evening was the Gospel of God upon the human heart and life. He it saved men; and it satisfied men and it glorified men and made them fit for earth's duties and heavenly joys. The church is to congratulate on securing the services of Rev. Parker who supplies for the remainder of this month, as the pastor Rev. Z. L. Nash is spending his vacation at Bay View. A very pleasing feature of the service was the presiding of Prof. C. M. Wright formerly organist of the First Methodist Church in this city at the organ. Prof. Wright kindly took this part of the service as Miss Earl was unable to be present. His playing was much appreciated by the church at the close of the evening service the audience were delighted with several selections given by him in his masterly manner which brought out the fine qualities of the splendid instrument.

SOME FACTS.

In 1891 The Morning Daily Guardian was established, and is still issued each morning with the latest local and foreign news, including the Canadian Press and a special telegraphic service.

In 1887 The Weekly Guardian was established, but its issue proved too infrequent for readers as the Province advanced, and from time to time was changed, first to a Semi-Weekly, then to a Rural Daily, and later to a Rural Daily, so that for two decades as at present—one in the morning as a Morning Daily, and the other in the afternoon as a Rural Daily.

The name of the latter was never sufficiently clear as to what it implied and always required much explanation, it was in May last changed to Evening Daily, continued as an afternoon paper.

For some time past the management has felt that Prince Edward Island is justly entitled to a twenty-four hour telegraphic news service, as enjoyed by the other Provinces of Canada, rather than the night wire service only, as up to June 30th last supplied by The Morning Guardian and afterwards printed in The Evening Guardian.

Accordingly a representative visited St. John and arranged for a Canadian Press day service, which is appreciated by the general public.

It is thus to The Guardian that the people of Prince Edward Island are indebted, first for a night Canadian Press service and now for the day Canadian Press and Special Telegraphic news published since July first and thus enjoyed by its readers.

The friends of both The Morning Guardian and The Evening Guardian are quite extensive and their appreciation of their favorite paper contains the latest day and night, as well as night and day Canadian Press and Special Telegraphic and local news, and thus a complete twenty-four hour service. Advertisers are also more than pleased with the rapid increase of fully two thousand readers already in The Evening Guardian's circulation, as well as several hundred for The Morning Daily.

The Guardian ever realizes its obligation to furnish its readers with the latest and best news service obtainable, and to give to its advertisers the largest and most valuable circulation possible.

The Guardian is now, but issuing two dailies, one in the morning and the other in the afternoon, as it has been doing for years, but since July first its afternoon paper contains its own day's news in addition to that of The Morning Guardian, or, in other words, the news of the twenty-four hours immediately before it goes to press. The Morning Guardian occupies a similar position.

A DISCIPLE OF EVE.

CHICAGO, July 12—Mrs. Edmund Trowbridge Dana, whose unconventional views of the proper dress for women attracted no less attention than her marriage to her Socialist husband, was unable to receive a reporter when he called last night at her home, 1111 North Dearborn Street. Her husband, who was walking in the grounds, explained that she was taking an air bath. My wife is fond of air baths said Mr. Dana as he kicked some leaves with a sandaled foot. She believes an air bath is as beneficial as to bathe in water. She also does not go into details as to the method employed in taking a satisfactory air bath. He left that entirely to the imagination.

101 YEARS OLD STILL PLAYS GOLF.

PLYMOUTH, July 11—Uncle Tilden Pierce, 101 years old next December, has just played his first game of golf. He has just had his first auto ride, too, and to fill out the list of novel experiences, had his first glass of ginger ale.

"Fine," cried Uncle Tilden, when asked how he had enjoyed his afternoon. "It's never too late to learn. I used to think golf was foolish. Now I know better. I used to hate automobiles. Now I like 'em. And I had any idea how good soda pop was till I had that glass of ginger ale. It's a life saver."

Uncle Tilden is an inmate of the Ryder Home for Aged People, Charles L. Willoughby, millionaire of Chicago, a Plymouth summer resident, and Captain Ellis Harlow, former harbor master, took the old man to the golf links in Willoughby's car.

The course is a long one, but the three made the rounds, and Uncle Tilden enjoyed himself like a man of fifty.

THE DIFFERENCE BETWEEN THE ARISTOCRACY AND THE COMMONERS IS EXEMPLIFIED IN A STILL MORE STRIKING MANNER. All the commoners of both sexes have their lower central incisors knocked out, and even the grandchildren may conform to this practice if they please.

Though the people honor the king in his prime, when he attains senescence they promptly prepare for his funeral. The sovereign is killed with due ceremony at the first sign of ill-health or old age. Any son has the right to attempt to dethrone his father, and if successful to reign in his stead. The deed is carried out at night, because the king is alone in his inclosure with his wives, and without the bodyguard which attends his movements during the day.

COLONEL ROOSEVELT ON SECTIONALISM.

OYSTER BAY, N. Y., July 12—A protest against any hint of sectionalism in the new progressive party was made today by Col. Roosevelt, who said that he did not care to rap where a man was born or whether his father wore the blue or the grey, so long as he was the right type. Col. Roosevelt was told of a speech made yesterday by Major General Daniel E. Sickles of New York at the meeting for the organization of the new party in this state, Major General Sickles was quoted as having said that Woodrow Wilson was born amid rebel surroundings, and that we of the North have never been disposed to put such a man in the White House.

Colonel Roosevelt said he could not discuss the speech, but that it was the desire of the founders of the new party to make the movement one which would truly represent all sections of the country.

I am myself by blood half a Georgian. The brothers of my own mother served in the confederate navy as the kinsfolk of my father served in the union army.

No man has been more prominent in this movement than Judge Ben Lindsey, who in the south, whose father served in "Johnny's" cavalry. We appeal to northerners and southerners, easterners and westerners alike. All I ask is that the man himself be of the right type and that as an American he face in patriotic spirit, from a standpoint of one to whom all the citizens of this country are equal.

The great and vital issues which are now before the American people are alike and I do care a rap where he was born.

Ex-Senator Allee and nine other Delaware men who have enlisted in the new party, came to see Col. Roosevelt today.

They came to talk over conditions in Delaware, said the colonel. In their opinion the new party will not only draw a great part of the Republican vote, but will command the support of the wage earners and the small farmers who have been Democrats.

RIOTS WHEN THE IRISH ORANGEMEN CELEBRATE.

BELFAST, Ireland, July 12—In a series of fights between Orangemen and Catholics various parts of the city today 100 persons were hurt. All the regulars and reserve police in the city were on riot duty, and at one time the situation became so serious that troops were held under orders in the barracks.

The trouble started with attempts to wreck arches erected by the Orangemen in connection with today's celebration of the battle of the Boyne.

Fully 60,000 Orangemen gathered here from all parts of Ulster and arrangements were made for a big rule demonstration which would be the weather was unfavorable and rain fell throughout the morning, but despite this unpropitious condition the procession was held. The Orangemen, headed by half a dozen principal streets, marched through the banners and cheering.

After the parade many of the Orangemen held a mass meeting, at which they passed a resolution declaring their determination to use every effort to defeat the home rule bill.

DIED AGED 110.

OXFORD, Mass., July 12—Mrs. Catherine Snay, aged 110 years and eight months, the oldest woman in New England, was killed by heat yesterday at the home of her aged daughter, Mrs. Peter Snay, "Grandma" Snay lived in the time of George Washington.

She was a native of St. Mary's, Quebec, and lived in Quebec and Ontario for sixty years before coming to the States.

KILL THEIR KINGS WHEN THEY GET OLD.

An African tribe with some most extraordinary customs has just been discovered by Dr. C. G. Seligmann of the Wellcome Tropical Research Laboratories, one of the branches of the Gordon Memorial College at Khartoum. This tribe is the Shilluk. They live in a narrow strip of land along the banks of the Nile on the Northern edge of the Bahr-el-Ghazal province. There are about 40,000 of them. They live in small villages of huts surrounded by fences of durable sticks.

The most striking feature is the veneration paid to the king, and the marked line of demarcation between the aristocracy and the commoners. The former is constituted entirely of the royal family—children, grandchildren, and great-grandchildren of the king. Royal descent, however, is not recognized beyond the fourth generation. Polygamy is practised, and the king has a large number of wives. In fact, the greater number of the king's consorts are the residences of the king's wives, but the daughters must remain unmarried, for the reason that it is unfitting for a king's daughter to marry a commoner, while at the same time she cannot marry a son.

The difference between the aristocracy and the commoners is exemplified in a still more striking manner. All the commoners of both sexes have their lower central incisors knocked out, and even the grandchildren may conform to this practice if they please.
