SOCIAL GATHERING—A very interesting meeting of the Y. P. S. C. E. of Zion Church was held Monday night at the home of its President, Mr. Murdoch Ross. After the regular business of the meeting a presentation was made to the President from the Society as a small token of their love and esteem. Mr. Peter Sinclair, M. P., Mr. Garnett Profit and Mr. W. Adams added greatly to the enjoyment of the evening with their piano and violin accompaniments and vocal solos. After which a vote of thanks was tendered Mr. and Mrs. Ross for the use of their home and the singing of "For He's a Jolly Good Fellow" brought another enjoyable evening of this society to a close.

ISLANDER IN CALIFORNIA—John D. Munn, son of John Munn, of Wood Island, P. E. I., enjoys comfort in Los Angeles. Mrs. Munn, a native of Illinois, passed away 12 years ago. He has two sons and one daughter, all married. —Oakland Maple Leaf.

FERTILIZERS

FACTORY MIXED COMPLETE FERTILIZERS VS. HOME MIXED CHEMICALS

There is a growing movement among the farmers of Prince Edward Island to discontinue mixing their own Fertilizer.

Experience has shown many that larger, and more uniform, yields can be produced by using Factory Mixed Fertilizers, and that this increased and better quality yield pays many times over for the additional cost of Mixed Fertilizers as compared with the cost of the Straight Chemicals which they mix at home.

It stands to reason that a thoroughly mixed, properly cured, Factory mixed Fertilizer will be in a better physical condition, and will result in a more equable and uniform distribution over, or through, the soil, and that as a result of this more even distribution every plant will receive the proper share of each plant food, resulting in the whole crop being more uniform and a better yield.

For a more detailed explanation why Factory Mixed Fertilizers are BETTER see page 3.
