MR. AND MRS. W. S. STEWART leave this morning for a trip to Denver, Col., by way of Montreal and Chicago, returning via Boston. They expect to be absent about six weeks. Bon voyage.

SENATOR BOWEN, of San Diego, complimented Mrs Kent on the rendition of the "The Lady of Shalotte" saying that he had read it many times, and had never realized the true interpretation before hearing her.

GRANVILLE JOYNTINGS.—We are having beautiful harvest weather now and the merry hum of the binder mingled with the dull rumble of "the broad wheeled wains" laden with the precious fruits of the fields can be heard on all sides. Should this fair weather continue for another week the majority of our farmers will have finished harvesting. The potato fields are suffering from a sort of blight; fields that one week ago had a splendid appearance are now almost ruined.—Pearly Stream Division is not behind her sister societies in campaign work. The members intend holding a grand public temperance meeting about the 20th, inst., and on the 29th Granville will do their part in rolling up a large majority for prohibition and saying to the law makers of Canada "liquor must be forever banished from our shores."—Your correspondent had the pleasure of looking over the new dwelling house of Mr. Albert H. Morris a few days ago. This house is now nearing completion and when finished will be one of the most beautiful dwellings in Granville. Mr. Samuel Haslam, who has the contract, certainly deserves credit for his skilled workmanship.

EDITOR'S MAIL.

Is it Worth Considering?

It is strange, but it is nevertheless true that in some parts of this Island very little interest seems to be manifested in the coming plebiscite.

Some maintain that nothing will be done by the government even though there should be a large majority in favor of Prohibition. And some say that they are not afraid of the ravages of King Alcohol as far as they themselves are concerned, they can take a glass or leave it alone; and therefore there is no need of going to so much trouble. But they must not ignore the fact that there are children growing up around them; and this material is very essential for the successful carrying on of the drink traffic. Are they willing to run the risk of being robbed of their boys? For just as sure as the ranks of the rum army are broken, recruits must be taken from some home, as in the past!

May every man who has an interest in the well-being of his country be found ready and willing to help annihilate this gigantic foe of our nation.

The question cannot but meet with the approval of every right thinking man. On the 29th inst., will be made a record that shall never be forgotten—either a victory for right or a victory for wrong. Voter, which will you help win?

This is a question of the greatest moment. Never before have we had a public issue that should call forth the energies of the mind and body like this.

It is worth considering at least, is it not?
