## INSIDIOUS EYE STRAIN

We use this adjective advisedly.

Sufferers from Eye strain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eye strain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health.

Mr. Simon Bannerman remained at the Manse North Bedeque with his former Minister and visited Summerside, Kensington and Charlottetown and saw the beauty spots all along the way. Needless to say these gentlemen were all greatly pleased with the Island. There was only one thing that marred their pleasure and that was the condition of the roads in the western part of the Province where they broke two axels and were held up for some time at Portage by this accident. Every other prospect pleased but truly the roads are vile.

## News About Women

LONDON, July 15.—Window-cleaning, singing and song writing are the three professions of Lady Dean Paul.

Ordinarily she keeps busy singing and composing songs, but conditions are so bad in the musical world at the moment that Lady Dean has accepted employment with a window-cleaning firm in which her friend, the Marchioness of Garisbrooke, is interested. Lady Dean does not actually clean windows, but solicits jobs for the firm. "I canvass for orders," said Lady Dean. "It is hard work, but it has sufficient humor in it to make it tolerable."

CHICAGO, July 15.—A tour of the country, giving public lectures in more than fifty cities, is planned by Dr. Annie Besant of London, international president of the Theosophical Society, following the national convention of the American Theosophical society here Aug. 28 to Sept. 1. It is expected that M. Kirchnamurti, the Hindu leader of the convention, will accompany her. The convention will open with dedication of the cornerstone of a \$250,000 national headquarters building at Wheaton, a suburb.

Mrs. Besant was representative of India in the Congress of Nations at the Chicago World's Fair in 1893, but has not been in this country since.

PARIS, July 15.—Mlle. Mistinguett, the music hall star, has some qualms about fulfilling an engagement in Berlin. The reason is that, during the war, she undertook a number of special inquiries for the French counter-spying service and succeeded in extracting some valuable information, notably in Switzerland and Spain.

The German papers, it appears, are not promising "Miss" a very enthusiastic reception, and the French "anecdotic" and theatrical papers are inclined to dissuade the Moulin Rouge star from making the voyage.

LONDON, July 15.—Dame Margaret Lloyd George and Lord Oxford and Asquith came face to face
