Five-Year Plan For Nova Scotia Forests

(By The Canadian Press)

HALIFAX, Jan. 23—A "five-year plan" for Nova Scotia's forests was advocated by Attorney-General J. H. MacQuarrie, Minister of Lands and Forests, in his opening address today at the annual convention of the Nova Scotia Fish and Game Association here.

The Minister declared he proposed to present to the government such a plan based on the annual report of the Nova Scotia branch of the Canadian Society of Forest Engineers. He was confident, he said, that the public would support such a plan.

Discussing the closed season on moose, Mr. MacQuarrie said his department felt it would rather err on the side of keeping the season closed too long rather than not long enough.

He announced that the provincial government planned to put into effect the "small tree act" regulating the size of trees that may be cut. The act had been passed some time ago, but because of wartime demands, it had not been enforced.

RECORD EGG OUTPUT

The egg and poultry meat industry has reached its maximum size for the time being, states the Current Review of Agricultural Conditions in Canada. Estimates by the Poultry Division of the Special Products Board indicate that egg production for 1945 is estimated at 396 million dozen, the highest figure in Canada's history and exceeding the previous year by 34 million dozen. Estimated poultry meat marketings will be down to about 298 million pounds, 29 million pounds below the 1944 peak figure.

The Markets AT A GLANCE

WINNIPEG, Jan. 30 — (CP) — Rye futures prices on the Winnipeg Grain Exchange today gave an irregular display and fluctuated widely with light flurries of buying and selling.

CHICAGO, Jan. 30 — (AP) — The unfettered May rye swung briskly up and down in light futures trading today as all other grain except oats, held tightly at ceiling prices.

May rye, only ceilingless grain delivery in any of the pits, fluctuated over a range of around four cents a bushel most of the time.

NEW YORK, Jan. 30 — (AP) — Steels and assorted industrials rallied in today's Stock Market after early declines but the trend as a whole was lower.

A decline of .4 of a point to 79.9 in the Associated Press 60-stock composite followed three rising sessions with the latter two finding the list at new 15-year highs.

MONTREAL, Jan. 30 — (CP) — All groups finished trading in higher ground in the indices today on the Stock Exchange and Curb Market except papers which were down Utilities and industrials went to new all-time highs and golds were at a new four-year top. Increases in individual stocks ran to 5 1-2 points. There was some hesitancy before noon but generally it disappeared.

TORONTO, Jan. 30— (CP) — The Toronto Stock Market continued the advance today and posted new highs for seven years or more for both mining groups. Western Oils finished narrowly lower.

The Abitibi issues were higher and most of the great lakes issues posted gains. Massey Harris common was a heavy trader at a gain of 1-4.

Some of the Quebec gold issues were in the spotlight and an old producer, Kirkland Lake, traded 36,000 shares and closed 17 cents up at 2.85 Perron netted a gain of 27 cents, Osisko closed 30 cents up at 1.75.

TRACTOR WORK COST

According to the Engineering Section of the Dominion Experimental Farms Service, the total cost of operating a farm tractor (depreciation, interest, housing, repairs, repair labour, oil and fuel) depends primarily on, and varies with, the annual use of the machine. For example, a 15 horsepower tractor which operates 100 hours per year costs about $16.00 per day, while the cost is about $7.00 per day when the same tractor is operated 1,000 hours per year.

Are You a Sufferer From Rheumatic Pains?

These pains come from an inflammation in the muscles and are generally caused by a deposit of poison in the blood called uric acid which produces the irritating and painful effect that causes many days and nights heavy with pain.

During the past 60 years Canadian people have found that by purifying the blood stream, Burdock Blood-Bitters aids them to enjoy freer body movement with less rheumatic pain, as B. B. B. helps to tone up the system and clear up the uric acid in the blood, and probably help fortify the system against future attacks.

Hitler Had Plan To Seize Vatican Papers

NUERNBERG, Jan. 29 — (Reuters) — Immediately after the Italian surrender in 1943 Hitler planned to send German troops into Vatican City to seize all Vatican records, it was disclosed in a document which is in the possession of the Nuernberg prosecuting team but which will not be used as evidence in the trials.

The document consists of the minutes of a Hitler conference in Berlin, attended by Field Marshal Albert von Kesselring, then German commander in Italy.

After Mussolini's collapse, the document disclosed, Kesselring proposed to place heavy guards at all entrances to Vatican city.

Hitler said in effect: "We shall not bother with guards. We shall break in there and find out from the Vatican records what has been going on behind the scenes in Italy

"We shall not respect the right of sanctuary in the Vatican."

Nuernberg prosecution sources said they had no documents to show why the Hitler plan was not carried out.

They also denied that there was any document in the hands of the prosecution to show the existence of any Hitler plan or intention to kill the Pope.
