ADDRESS CORRESPONDENCE TO WAR VETERANS COLUMN, P.O. BOX 365, CHARLOTTETOWN

ON SEEING THINGS.—It was a most terribly cold day of the terrible winter, and freezing hard. The sniping officer, going on rounds, came upon a Tommy who was paring the hair of the highest point of his forehead, and overlooking a mine crater in No. 5 man's hand. He had his eye glued to a periscope, and enflamed as he was by the cutting winds, looked the most abjectly miserable creature on this earth. The officer went near to him, but the Tommy never looked up. "See anything?" inquired the officer. "See anything," Tommy repeated sarcastically, not knowing that he was speaking to an officer. "Why your blinking nose a-running" and your blinking eye a-tumbling every few minutes over your blinking nose, and the blighting perspiration from your mind at the blinding peep 'ole—ow the blazes is a blighter to see hen'think?"

THE ABOVE IS TAKEN FROM the Editorial Column of the Montreal Star. In the olden days we are told that men and armies stood up to fight each other in a manly way, but today, as stated above, war is ghastly and cruel, and barbaric. In modern war, if you can kill your enemy by heavy shells fired from great distances, many as possible into eternity so much the better. There is no chivalry in fighting now as there was in the olden days. Not many will in this generation be drawn into another war for love of adventure, but should occasion arise men from all parts of the Empire will respond to the duty of duty. Every possible means will, we hope, be employed to prevent future wars, but we still believe that the greatest guarantee for the peace of the world is the British Empire, strong on sea, on land and in the air. When the Empire fulfills the thought expressed below, it will mean much for the good of all mankind. So shall we answer Britain's call. Fear not, beloved land. Thy sons are ready one and all. An Empire ARMED we stand."

THE CURSE OF WAR.—When Armageddon sounded in 1914 England had 7,000 hospital beds. When Armageddon was stilling in 1918, England had 700,000 of war. This is the grim story of war. Let us measure our desires for warfare by the number of hospital beds in which the maimed and the suffering and the crippled lie. We talk of "helping the Poles" and of "cleaning out the Bolsheviks" once for all. Talk is cheap, but hospital beds are costly. Not hospital beds in the dollars and cents required for their upkeep, but in the ruined lives and the maimed cripples they give to the world. It is time to cease talking about war in terms of chivalrous adventure in sentences that thrill. War is ghastly and cruel and hideous. We are ready for it, if it needs must but we will employ every means to prevent it. It is time to think of war

ACCOMPLISHED BY G. W. V. A.—It has been the practice of the G. W. V. A. since inception, to work for the cases for which it was founded while others did the talking. The result has been that practically all the soldiers' legislation provided during the past three years is directly traceable

R. A. F. WAR MEDALS.—The Secretary of the Air Ministry announces that Medal Rolls of those who have qualified for the British War and Victory Medals are in course of preparation. Demobilized and Invalided Officers of the Royal Air Force, are requested to write to the Secretary (S. 7. Medals), Air Ministry, Kingsway, W. THE CURSE OF WAR.—When Armageddon sounded in 1914 England had 7,000 hospital beds. When Armageddon was stilling in 1918, England had 700,000 of war. This is the grim story of war. Let us measure our desires for warfare by the number of hospital beds in which the maimed and the suffering and the crippled lie. We talk of "helping the Poles" and of "cleaning out the Bolsheviks" once for all. Talk is cheap, but hospital beds are costly. Not hospital beds in the dollars and cents required for their upkeep, but in the ruined lives and the maimed cripples they give to the world. It is time to cease talking about war in terms of chivalrous adventure in sentences that thrill. War is ghastly and cruel and hideous. We are ready for it, if it needs must but we will employ every means to prevent it. It is time to think of war

Canadian Ships Anywhere to Help Our Trade

OTTAWA, Aug. 11.—In reference to a recent cable from London quoting Baron Monde as saying that the British government and the United States Shipping Board are negotiating agreement to arrange for the carrying trade of the world, Hon. C. C. Ballantyne, minister of marine, said to your correspondent today that he knew nothing about it. So far the references to nationalizing the United States Shipping Board are concerned he said that the Canadian government was known and that it would continue to put vessels on any route where their presence would be of benefit to Canada. The Canadian Government mercantile marine was a great success and would make another good profit this year.

"Is shipping being increased on the West Indian routes since the preferential agreement was announced?" he was asked. "We are now placing passenger accommodation on the three freight vessels going to British Honduras," he answered. "As to the other routes, we are making arrangements for all possible trade of a lucrative nature that is not already looked after."

It is understood that the Australian service of the Pacific fleet of the C. N. R. is having an excellent business and that the carrying business to India is most promising.
