

A Gentle Harmless Laxative Confection

Owing to the failure of the bowels to act properly substances which nature intended to be promptly eliminated from the body remain and, being absorbed, poison the blood and whole system.

Figsen promptly relieves all these conditions and gives permanent relief as well by toning up the bowels and overcoming their tendency to constipation.

Figsen acts mildly. Figsen contains no drastic purgatives. It is perfectly harmless and may be used by children and the most delicate women.

Presentation

A very pleasant time was spent at the home of Mr. Angus McInnis, Martintvale, on Friday evening, August 25th, when a number of the young people of that place, assembled to bid good-bye to his son, Rev. James McInnis, who with his wife and little girl, has been visiting on the Island for a few weeks.

It is with regret that we learn of your departure so soon from our midst. It has been a great pleasure to us, to have heard the voice of one who has been a school-mate to most of us present, raised in preaching the Gospel. On behalf of the people of Martintvale, please accept this gift as a small token of the esteem, and regard in which you are held, and it is our wish and prayer, that you may be instrumental in winning many souls to Christ, in the work to which you have been called, as we bid you and Mrs. McInnis adieu.

Mr. McInnis was taken completely by surprise, but he thanked the contributors in a few kindly and well-chosen words, after which the event was brought to a close by all joining in singing, "God Be With You Till We Meet Again."

A despatch to Reuter's Telegram Company from Amsterdam states that the Dutch steamer Zeerarend, 4,620 tons, has been torpedoed. The crew was saved.

Tenders

DEPARTMENT OF THE NAVAL SERVICE. NOTICE OF SALE. SEALED TENDERS addressed to the undersigned, will be received up to noon of the 1st October, 1916, for the purchase of the

Dog-Fish Fertilizer to be produced at the Dog-Fish Reduction Works at Canso, N. S., and Clark's Harbour, N. S., during the season of 1916. The total quantity that will be produced is estimated of between 150 and 200 tons of 2,000 pounds.

No particular form is necessary for use in tendering, but envelopes should be distinctly marked across the face, "Tenders for Dog-Fish Fertilizer."

The fertilizer will be put up in bags of 100 pounds each, and a charge of 15 cents will be made for each bag, additional to the price paid for the fertilizer.

Consistent with the price offered, tenders from bona fide agriculturists will receive first consideration; the right is reserved, however, to reject any or all tenders.

Tenders from non-residents of the provinces of Nova Scotia, New Brunswick, and Prince Edward Island, will not be considered, and guarantees must be given that the fertilizer will not be disposed of or used outside of these provinces.

Tenders should state the quantity required in bags, and the minimum quantity acceptable at the price offered, and from which point it is desired shipments should be made. The price offered should be on the basis of so much per 100 pounds.

Terms of sale are cash with ten (10) days of acceptance of tender for specific quantities, all charges for transportation from Works to be borne by the purchaser. Failure to remit within the time specified will result in the cancellation of tender without further notice, and the allotment being diverted to the next highest tender, or such other as may be in order.

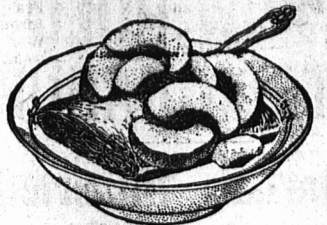

Remittances should be made payable at par to the Department of the Naval Service at Ottawa. Bank cheques will not be accepted unless certified.

Made in Canada

GAME AS A NATIONAL ASSET.

Judging from the rate at which the wild creatures of North America are now being destroyed, fifty years hence there will be no large game left in the United States nor in Canada, outside of rigidly protected game preserves. It is therefore the duty of every good citizen to promote the protection of forests and wild life and the creation of game preserves, while a supply of game remains. Every man who finds pleasure in hunting or fishing should be willing to spend both time and money in active work for

the protection of forests, fish and game. In the settled and civilized regions of North America, there is no real necessity for the consumption of wild game as human food; nor is there any good excuse for the sale of game for food purposes. The operations of market hunters should be prohibited everywhere, under severe penalties. The highest purpose which the killing of wild game and game fishes can hereafter be made to serve is in furnishing objects to overworked men for tramping and camping trips in the wilds, and the value of wild game as human food should no longer be regarded as an important factor in its pursuit.—Code of Ethics, Michigan Wild Life League.

A TRIBUTE.

The following lines were composed by Mrs. Frank Dunning, New London, on hearing that her brother Private Claud Dunning had been killed in action in Belgium on August 12th.

"Killed in action," these dread words fell With a knell on our hearts and home one day. This was the message sent to tell That our soldier boy was lost in the fray.

"Killed in action," oh! can it be? Sacrificed at the German mart, With tearful eyes we only see An empty chair, and aching hearts.

Brave and manly and young and strong, With a past so clean and a future bright, Although we see the years so long, We know he died for the cause of right.

Died, alone, in a foreign land, Far from the ones he loved so well,
