Disarmament Is Eagerly Discussed

LONDON, July 13.—The disarmament conference continues to be the most prominent of the discussion, dividing honors with the Irish Peace Conference, no doubt. It is felt in London that all nations invited will accept, and as the French Premier M. Briand seems already to have decided to go to Washington, it is considered all the more likely the British Prime Minister will also go, always provided that state of affairs at home at the time will permit his absence and his health will permit him to make the trip, as there has been talk of the Premier taking a long rest in Switzerland by the advice of his physicians.
