And we sincerely hope that the future may have in store many years of prosperity and happiness for you." An effort is being made to re-organize the Maple Leaf Farmers Institute. This institute was formally one of the best in the Province, but for some reason or other the attendance at the regular meetings began to fall off and was soon small and they discontinued. The people now however, realize the loss of this Institute to their community and are very anxious that it should again be put on good footing, and with that end in view J. A. Clark, Superintendent of the Experimental Farm will address meetings at Alberly Plains to-night at 7 o'clock and at New Per-tomorrow, at the same hour. It is earnestly hoped that all interested will turn out, as an Institute is needed in this vicinity and this is the time to have it re-organized.

On Monday morning William McLeod, Hartsville, received a telegram conveying the sad intelligence of the sudden death of his son, Alexander, on Saturday the 18th inst, as the result of an accident in a mine in Wallace Idaho. The deceased went west only a few years ago and was located in Phoenix, B. C., till a short time ago, when he removed to Wallace, Idaho, where he met his death. He was an excellent young man of splendid physique, sunny disposition, quiet and unassuming nature and of good moral habits. His untimely death is a terrible shock to his parents, sisters and brothers, and the heartfelt sympathy of their many friends is extended to them in this sore bereavement. Interment will take place in Vancouver, B. C., where two of his brothers are located.

A great deal of interest seems to be centering around the prospects for the coming iceboating season. Seven of last years fast boats will be under canvas again this year and in addition there seems to be a chance of some newer and faster ones coming out when the season opens. Joseph Praught of the P. E. I. R., is building a boat which will outclass in speed anything he has yet raced with. Murnaghan Bros are also bringing out a new one, constructed of steel and which will enforce other makers to look after their latest. Stamford and Flynn have a flyer all ready to drop on the ice. John Herill and Dominic Butler are working on an elaborate coaster which will probably cut ice with the fastest ones. There are others—but to enumerate them and say all their owners claim for them would perhaps stir up a bone of contention not easily masticated. Perhaps the most novel proposition of all though, comes from one who has taken a "cue" from the "Scientific American." This local genius proposes building a steel ice-boat propelled by a spiked steel wheel driven by a gasoline engine. But he has not purchased the engine yet.

The annual meeting of the Marshfield Farmers' Institute was held in the Hall on Monday, Dec 20, at which a goodly number of the seventy-one members were present. The President, Wm Godfrey, occupied the chair. Immediately after opening the meeting he proceeded to give his annual report as Pres. of the above Institute. He then called for the reports of Board of Directors, Treasurer and Auditor, the latter showing that there is at present a balance in treasury of \$49.34. On motion the above reports were adopted as given. A few minutes were taken up by the receiving of Candidates into membership followed with a discussion as to how to catch them conveniently or meeting. A unanimous vote of thanks was then tendered to the retiring officers, President and Secretary—Treasurer, and replied to by each officer in turn. The election of officers and appointments were then made as follows:—President—E. C. McDonald Vice President—Wm Godfrey; Sec'y—Treas—L. H. D. Foster; Directors—E. Dennis, J. Munn, J. T. Ferguson, A. B. Robertson and G. LePage. Local committee were appointed. The meeting then entered into discussion on the exportation of Stock but finally decided to have this subject lay on the table till next night of meeting and on motion adjourned to meet in Marshfield Hall, on December 27 at 7 p.m. (Pat. please copy.)

John Moreside, North River, received a telegram yesterday morning conveying the sad news of the sudden death of his sister Jimima Moreside, who has been residing in Boston for the past fifteen years. The Guardian deeply regrets to chronicle the death of Isaac Murray Moffatt, son of John Moffatt of Mayfield, P. E. I., which took place at his home on Saturday morning, Dec. 18th, after an illness culminating in pneumonia. Despite kind care and medical attendance the disease made rapid progress and he peacefully passed away. He will be remembered for his cheerful and genial disposition among his many friends at home and abroad but especially under the saddened parental roof will his demise be so keenly felt. Notwithstanding inclement weather a very large concourse followed his remains to New Glasgow Cemetery on Monday afternoon, a last sad token of respect to one held in such esteem. Rev John Stirling spoke fittingly at the house and at the grave. He leaves to mourn a father and mother, two sisters: Mrs Marion Houston of Mayfield and Miss Allan, at home and two brothers W. Allan, at home and J. Lenuel of Berkeley, N. S., who arrived at his brother's bedside the night previous to his death. To all those stricken ones and to many sorrowing relatives and friends kind sympathy is extended.—(Other papers please copy.)
