The horticultural department a considerable amount of work is being done in preparing the gardens for the coming year. Men are at present engaged in planting the grape vines. The Wealthy proved to be the best autumn apples. For an early winter apple there is none better than McIntosh Red. The following three varieties of late winter apples were the Gam, Scotch Winter and Pawankee. Although the variety is large only a small number can be recommended for culturing in Canadian gardens.

I have tried many remedies and underwent many very painful surgical operations, without obtaining any permanent relief. When about to give up in despair, I was told to use Dr. Chase's Ointment, and did so, finding relief at once. I used three boxes, and am almost entirely cured. The itching is all gone. I advised others to use it, believing it would cure them as it has me."

Brain, Rogers 17, Delaware, Brighton, and Wilder. Owing to the long autumn the grapes ripened much better than at first expected. A crop of clover will be sowed upon the orchard to protect the roots from the frost during the winter. During a winter of light snow the roots suffer much from the frosts. Very soon also the young apple trees will be wrapped around with building paper, and soil heaped up at the base in order to protect them from mice which attack the bark. Notwithstanding the thorough sprayings which the trees in the orchard at the Experimental Farm receive, the oyster-shell bark-louse, which has infested the apple trees for several years, has never been entirely destroyed. Spraying with lime has been resorted to in order to destroy, if possible, this pest. Specimens of young insects were examined under the microscope and were found to be dead within an hour after the time they were sprayed. Some time later the trees were sprayed with whale oil soap, eight pounds to forty gallons of water in order to kill any that were left. Although their numbers were greatly reduced a great number escaped.

It will be Handed Over by the Builders on March 30.—Precautions to Preserve Secrecy.  
NEW YORK, November 5.—A special to the Herald from London says:—Sir Thomas Lipton and G. L. Watson designer of the new challenger for the America's cup have been staying at Glasgow. In reply to a London Express correspondent Sir Thomas Lipton declines to make any statement in regard to building the new new racer. The question of design and construction he said was entirely in the hands of Watson. From an authoritative source it is learned that Sir Thomas' visit to Glasgow was for the purpose of signing the contracts for the building of the yacht. These as anticipated has been placed with D. and W. Henderson Meatowside Yard, builders of the Thistle, three Valkyries, Britannia, Meteor, and Sybarita. The date specified in the contract for handing over the vessel in March 30th. The framework will be laid down this week. The greatest precautions are being taken to reserve secrecy as regarding the design. A footpath along the banks of the Clyde which skirts the Henderson yards is already closed.

## ALCOHOL AND MORPHINE HABITS.

Rev. Father McClist's Tribune.  
On the occasion of a lecture delivered before a large and appreciative audience in Windsor Hall, Montreal, in honor of the Father Matthew Anniversary Rev. J. A. McCallen S. S. of St. Patrick's Church and President of the Total Abstinence Society paid the following grand tribute to the value of Dr. Dixon's new discovery for the cure of the alcohol and drug habits. Referring to the PHYSICAL CRAVE engendered by the inordinate use of intoxicants he said: "When such a grave manifests itself there is no escape unless by the miracle of grace or by some such remedy as Mr. Dixon's Cure about which the papers have spoken so much lately and if you judge of the value of 'The Dixon Remedy' by the cures which it has effected under my own eyes I must come to the conclusion that what I have longed for twenty years to see discovered has at last been found by this generation." Full particulars of this new medicine are sent sealed free to all applicants. Address Mr. Dixon, 81 Willock's Street, Toronto, Ont.

## PLAIN MR. KRUGER.

PARIS, November 4.—Diplomatic circles were much relieved yesterday by the receipt of official notification from Great Britain of the annexation of the South African republics. Consequent upon this action having been taken prior to the landing of ex-President Kruger, the embarrasments resulting from the manifestations by Boer sympathizers will be rendered innocuous, as Mr. Kruger will then become ipso facto, a private individual.
