CONSERVATIVE CHIEFTAIN AT INVERNESS

Renews His Pledge For National Fuel Policy And The Development of Canadian Trade Through Canadian Ports.

(By Thomas Green, Canadian Press Staff Correspondent.)

INVERNESS, July 8.—In clear cut and emphatic terms, Hon. R. B. Bennett here tonight and earlier at St. Peter's dealt with railway facilities in Cape Breton Island, the fishing and agriculture industries and protection of Canadian labor. At the same time, he renewed his pledge for a national fuel policy and the development of Canadian trade through Canadian ports. "These old provinces, these old communities," the Conservative chieftain exclaimed, "must not be neglected in the providing of railway facilities. They must be provided, because you have a right to them. You have maintained the faith and contributed to the national wealth and if elected to office we will provide the facilities necessary for you to compete on even terms with the nations of the world. That is my conviction and it is a boundless obligation to you."

Touching upon fisheries and agriculture, Mr. Bennett declared, "the collective power of the Dominion must be put behind the development of the agricultural and fishing industries because they are the great food industries upon which lives depend. Cooperation and organized effort on the part of fishermen, aided by the Government he declared, was the only way to make the fishing industry profitable. "What has the government done in this regard during the past eight years," the opposition leader questioned. "What has the appointment of the Minister of Fisheries, Dr. Cyrus Macmillan, done for you to help towards prosperity. Has the government done anything that will justify its return to power? American fish to the value of several millions of dollars were being imported annually from the United States. Mr. Bennett remarked, and he proceeded to emphasize the importance of preserving the home market for Canadian fishermen.

After Record

A. E. Barret, instructor for National Aircraft, Toronto, who converted the City of Chicago, the Hunter brothers' endurance record aeroplane, from a standard model into a refueler. He is a skilled wing builder and engine installer. He will supervise the mechanical preparation of a similar plane for a shot at the new record, to be made in Toronto, Canada.

Warships Leave For Sham Battle

HALIFAX, July 8.—The cruiser Durban, sloop Wisteria, minesweepers Festubert and Ypres and the water transport steamer Alfreda were bound to Georgetown, P. E. I., from Halifax yesterday. They are to take part in the assault on Pietou scheduled to take place during a sham battle between July 11 and 12. These ships will be joined by the destroyer Champlain and the steamer Hochelaga which are also to take part.

BENNETT AT SYDNEY AND GLACE BAY

Delivers Stirring Message In Heart of Steel And Coal Districts.

(By Thomas Green, Canadian Press Staff Correspondent.)

SYDNEY, N. S., July 7.—In the heart of the steel and coal districts of the Maritimes Hon. R. B. Bennett spoke tonight. Here the Conservative leader spoke at a late hour and earlier tonight at Glace Bay. "Yonder," the opposition chieftain declared, "is the great steel industry. What has happened in the last eight years? Receivership, reorganization, slackening of employment, and no present likelihood of an improved situation under the present government."

Mr. Bennett went on: "We sent a million dollars a day to the United States for iron and steel products, how many tens of thousands of American workmen are living on Canadian money today."

Touching upon the coal industry, Mr. Bennett exclaimed, "What we want to do is to back this industry with all the might and power of the Canadian people." He referred to the appropriation made at the initiation of the Government last session of \$10,000 to investigate the possibilities of fuel in Nova Scotia. "Why," the opposition leader remarked, "\$10,000 would not pay the salary of one scientist." It is an act which would be laughed out of court."

He deprecated the large importations of coal from the United States amounting to \$50,400,000 for one year, coke from the American republic to an annual amount of \$6,800,000, and the sending of more than \$300,000,000 annually to the same country for iron and steel products.

"Do you know," Mr. Bennett proceeded, "how much you lost in this land of Cape Breton according to the best computation because of irregularities in employment in a year. Since the King government came into power there was lost through irregularities of employment about \$40,000,000."

The Dominion leader condemned the tariff attitude of the Liberal government since 1921 and criticized the importation of Russian coal and United States coke now being advertised for sale in Canada.

Lucky Flier

AL. Cheeseman, Antarctic flier, who escaped without a scratch when his aeroplane caught fire while flying from Sioux Lookout to The Pas. The pilot brought his machine safely to rest, also avoiding a crash.

Rockefeller Celebrates His 91st Birthday

(Special to The Guardian)
POCANTICO HILLS, N. Y., July 8.—Secluded from all but a few relatives and servants, John D. Rockefeller observed his 91st birthday today with an expression of gratefulness to his fellow men for the kindness they have shown him.

There was little in the routine in the great Manor house in the hills of Sleepy Hollow to set the day apart from any other, although it was expected the famous old millionaire would cut his usual birthday cake at dinner tonight in the presence of the family and receive the personal congratulations of each including two-year-old Abby Rockefeller Milton, his great grand child.

Rustico Meeting Forecasts Gain For Conservatives

Tremendous Ovation Accorded Messrs. McLure And Myers At Largely Attended Meeting.

"I have heard that canvas set forth in the City of Charlottetown. It had been considered by Mr. McLure and myself as beneath contempt," said Hon. J. H. Myers at the Rustico joint meeting last evening in response to the demand of Dr. Cyrus Macmillan that the name of the Liberal candidate in Prince Edward Island, charged by Hon. R. B. Bennett, with misinforming soldiers regarding soldiers' pensions by the statement that it was necessary only to send the name to Mackenzie King and a pension would be forthcoming. Mr. Myers, however, did not charge the Liberal candidate as being parties to the act, but added that Dr. Macmillan knows the size of his own head, and he can see for himself if the cap will fit. Both Conservative candidates were well received, and carried both the sentiment of the meeting and the battle of political issues. Applause and cheers vigorous and long continued heralded the opposition and marked the close of the speech of Mr. W. Chester S. McLure in his native district. Demonstrations broke all bounds at the close of Mr. Myers' masterly rebuttal. Much pointless heckling was indulged in by a large audience, carried away by political enthusiasm.

Mr. J. H. Myers, the opener dealt first with the importance of tariffs. One of the worst features of the New Zealand Treaty is the permitting of the New Zealand product to be sold as Canadian butter. In Quebec in the eastern townships, Mr. Myers stated, the people are up in arms over the situation, and according to information will vote against the King administration. The Dunning budget, countervailing duties, and the restoration of the highway grant were next dealt with in a masterly manner by the speaker. Referring to the latter question Mr. Myers stated that Senator Sinclair at Mr. Stewart opposed Mr. Bennett's idea in that regard although he supported such a measure in the House of Commons. Three things essential to the fishing industry, the speaker

thought, were better harbors, better means of preparing fish for marketing, and better methods of transportation of the product. Good highways are necessary at points remote from the railways, the speaker stated and promised that this matter would receive first consideration from him. He felt certain that branch railways will soon be in existence in many parts of Queen's County, one is needed in Rustico, although many say that it will be impossible under present conditions.

Amid loud cheers Mr. McLure began his speech, challenging the Liberal candidates to explain their tariff as set forth in the Dunning budget. Senator Sinclair, he thought, made as weak a case of defending the government record as he did in presenting the claims of Rustico for a railway. There is an adverse balance of trade for the country of more than \$30 per capita, Mr. McLure stated. He next dealt with debt reduction and the sales tax. According to available figures 400,000 lbs. of butter was manufactured in Prince Edward Island in June, 1929. Through the butter treaty \$40,000 was lost right there, the speaker asserted.

2,500 factories have been closed during the last nine years due to the King government's tariff policy.

Power Development Will Cost \$274,000,000

(By W. W. Murray, Canadian Press Staff Correspondent)

OTTAWA, Ont., July 8.—A double-stage deep-water navigation and power development, costing in the neighborhood of \$274,000,000 (or \$231,000,000, according to certain alternative features of the project) is envisaged in the report of the conference between the members of the Canadian section of the joint board of engineers and representatives of the Ontario Hydro-Electric Commission, who investigated the deep-water navigation and power possibilities of the St. Lawrence in the International Rapids section of the river. The Ontario Hydro-Electric Commission was represented at the conference by Dr. F. A. Gaby, chief engineer and Dr. T. A. Hogg, chief hydraulic engineer. The Canadian members of the joint board were, D. W. MacLachlan, of the Department of Railways and Canals, Brigadier Gen. C. H. Mitchell, of Toronto, and O. Lefebvre. The report, which was the unanimous recommendation of the conference, was made public from the Prime Minister's Office here today. It is dated Dec. 1929 and has been studied by the Governments concerned for the past few months.

Diocese Mourns Death Of Beloved Bishop

Rt. Rev. Bishop O'Leary Passed Away At Dayton, Ohio, Yesterday. Remains Will Arrive Friday Evening, the Funeral Taking Place On Following Tuesday.

It is with deep regret that the Guardian chronicles the news of the death at Dayton, Ohio, yesterday of the Right Reverend Louis J. O'Leary, D. D., Bishop of Charlottetown. Official confirmation of the news did not reach Charlottetown until 6 p. m. last evening, when a telegram from Rt. Rev. Monsignor Maurice MacDonald was received announcing the Bishop's death and announcing that the remains will arrive in Charlottetown at 6.30 Friday evening. Monsignor MacDonald, who left for Ohio on receiving word a few days ago of the very serious condition of His Lordship will return with the remains and will be accompanied, it is expected, by Archbishop O'Leary of Edmonton.

Arrangements are being made to hold the funeral here on Tuesday next.

In ill health for several months past, Bishop O'Leary consulted a New York specialist about a year ago and on arriving home was com-

pelled to enter the City Hospital as a patient for some time. Although last summer he assisted in the dedication of the Basilica and the laying of the corner stone of the Church of the Most Holy Redeemer, the task was almost too much for him and he again entered the City Hospital where he received every attention. On his physicians advice he left for Montreal to consult a specialist. En route his condition became such that he was obliged to stop off at Richibucto and from there proceeded with his brother William, who came from Dayton, Ohio, to meet him and a trained nurse, to Montreal.

Here after some months he gained sufficient strength to allow him to proceed to Dayton where reassuring news was received of his continued improvement.

On Sunday, June 30, word was received that His Lordship had taken

HARD HIT BIG HAIL

(Special to The Guardian)
PROVOST, Alta., July 8.—Coming within four miles of Provost Sunday afternoon, the worst hail storm in seven years obliterated thousands of acres of splendid wheat crops and caused damage estimated at between 40 and 50 percent over the entire area.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS ETC.

- **Winsloe Club leading livestock Thursday, July 10. T. A. Rodd, Sec'y. 5251-3

HEAVY DROP

(Special to The Guardian)
BLACKPOOL, St. Thomas, July 8.—Oats and barley promise to be an exceptionally heavy crop in Elgin County, according to a report of a survey made by F. S. Thomas, agricultural representative. The corn crop also is promising, but the cold nights have retarded growth. Field beans also have made splendid growth. Mr. Thomas estimated a twenty-five per cent increase in the corn acreage and 35 to 40 percent in beans. The hay crop will not be heavy in this district due to poor growth last fall.

Pier Collapses, Three Injured

(Canadian Press)
PENNS GROVE, N. J., July 8.—Three persons were injured when the Wilson Line pier here collapsed late today. Less than twenty persons were on the pier at the time and only three were thrown into the river. They were quickly rescued. A Negro, who suffered a crushed leg, was the most seriously hurt. The other two, a man and woman, received only slight cuts and bruises.

Completed Trip

Dr. Margaret Strong, University of Toronto graduate, who has just completed a hazardous 50,000-mile trip through Brazil in the interests of a well-known New York foundation.

The Patriot's Cross Misrepresentation of Facts

In its yesterday's issue the Patriot charges the Hon. R. B. Bennett with deliberate deception in stating that "if you want grants continued for educational purposes in connection with agriculture you can't get them from the King Government."

It says a return brought down in the House of Commons showed that certain sums were paid Prince Edward Island under the heading of Technical Education, "but all of which was used for agricultural purposes."

Improvement In Indian Situation

(Special to The Guardian)
LONDON, July 8.—The Secretary of State for India, Rt. Hon. Wedgwood Benn, today issued a statement in which he declared that indications for July fifth showed a distinct improvement in the Indian situation. The statement, which followed the following conviction, that the civil disobedience campaign cannot succeed is growing and commercial and industrial circles are showing increasing concern regarding the dangerous consequences of its continuance. There has been an increase of constructive effort toward constitutional solution of political problems and Mohammedians particularly are devoting much thought and attention to presentation of their case at the forthcoming London round table conference. While there are many unstable elements, these are neither so numerous nor so pronounced as a few weeks ago.

Trade Within The Empire

(Special to The Guardian)
TORONTO, Ont., July 8.—As a step towards promoting trade within the British Empire, New Zealand has recently appointed J. W. Collins of Wellington, as Trade Commissioner in Canada. Mr. Collins arrived in Toronto yesterday after an extensive tour of the chief Canadian cities. He is accompanied by his wife and proposes to settle in Toronto for the summer months. Later he will decide between Montreal and Toronto for the permanent office of the New Zealand Government.

The balance of trade between Canada and New Zealand is greatly in favor of the former, Mr. Collins declared in an interview.

The Weather, etc

Temperatures 31
TORONTO, July 9.—Westerly winds fair and warm.
High tide this morning at 9.04 and tonight at 11.06.
Sun sets this evening at 7.52 and rises tomorrow morning at 4.19.
Full moon Thursday, July 10, 3.37 p. m.
Summerside tide eighteen minutes later than Charlottetown.

French Min. To Canada

(Special to The Guardian)
PARIS, July 8.—The Quai Dorsay has submitted the name of Arsene Henry, who is French Minister to Siam to the Canadian Government for approval as the next French Minister to Canada. Hon. Jean Knight, the first holder of this post, is returning to France to become head of the French Government Press Bureau.

Opponents Of Protection For Dairy Industry Now Soliciting Farmers' Vote

Senator Sinclair, who at the last federal election was the Hon. John E. Sinclair, member without portfolio in the King Government, is speaking on behalf of his former colleague Mr. R. H. Jenkins in the Queen's County campaign. Senator Sinclair ventures to discuss the New Zealand butter issue. In order that the electors of Queen's County may know exactly where their former representative stood on this question, in order that they may appreciate what Senator Sinclair has done in the interests of protection for the Prince Edward Island dairy industry, we publish his own statement of his attitude as enunciated on the floor of the House of Commons on February 7, 1928, and quoted from Hansard of that date, page 273, by the Conservative candidate at the joint political meetings this week.

"I cannot let the opportunity pass without saying that I am unwaveringly opposed to the suggestion made by the honourable member from Colchester that an additional duty of four cents a pound be imposed upon butter."—Hon. J. E. Sinclair, Hansard debates, Feb. 7, 1928, page 273.

Notwithstanding this emphatic statement made on the floor of the House of Commons against the interests of our dairymen, Mr. Jenkins, the present Liberal candidate, did not disassociate himself from the attitude of his colleague and in this instance his silence must be taken as consent.
