MARRIAGE OF A POPULAR COUPLE

(Continued from page 1.)

Misses Amy and Marion Byrne cousins of the bride, and the baskets of flowers they carried, as well as the bride's bouquet and that of the bridesmaids were presented by the groom. The flower girls wore pink and blue silk, and were most dainty and attractive additions to an exceptionally pretty and interesting wedding.

The groom's gift to the bride was a beautiful pearl pendant, and to the bride's maids gold bracelets set with pearls, to the flower girls gold lockets and chains. The bride is without exception one of the best loved and most popular young ladies in the city and this was testified to most appreciably by the decorations to the church, which were done by her friends, assisted by Mrs. Ledwell and Mrs. A. S. Hewitt. Always of the sweetest of dispositions, "Ida" as she was always called, won all hearts by her amiableness and innate goodness, and she will be sorely missed by the innumerable friends she leaves behind her. But the loss here will be a gain in the city she will go to, and the memories she leaves with those left, will always remain fragrant and sweet.

Mr. McCourt is one of the boys to whom the Island can point as having made a success of his life in a few years. He was private secretary to M. J. Butler when that gentleman was Minister of Railways and Canals, and when he took charge of the Dominion Coal, Iron and Steel Works in Sydney, Mr. McCourt went there with him, as General Assistant. By his perseverance and attention to his work, he now holds a position of trust in one of the largest concerns of his native country, and his sterling qualities have won for him in the Upper Provinces the friendship of those with whom he came in contact whether in business or socially. He has won a prize in the choice of his life partner, and they take with them to their new home the best wishes of all in the city. The Guardian's being tendered most heartily. After the ceremony was over, the wedding party were entertained by Mrs. Jas. Byrne, the mother of the bride at her residence. Luncheon was partaken of, and the table decorations were of roses and carnations, the menu most beautifully served and chosen.

The happy couple left on the afternoon train via Summerside for their wedding trip, which will include the principal cities of the United States and Canada. They will live in Ottawa, after they return from their honeymoon.

The gowns worn by the ladies of the party were specially handsome and attractive, and the gifts not only generous in number but elegant in detail. The costumes were as follows, and a list of the gifts is also appended. Mrs. Jas. Byrne, mother of the bride, wore a handsome gown of heavy Duchesse satin, with ruby and pearl ornaments and large picture hat. Mrs. McCourt, mother of the groom was gowned in rich black silk, with large black hat. Miss Mary Byrne wore pale blue crepe de chene, with handsome hat, and Tuscan gold ornaments. Mrs. Katherine Robin wore purple silk with large black hat and rubies set in gold. Mrs. John Byrne's costume was of Amethyst silk, with hat to match and ostrich boa. Mrs. F. McGuigan wearing Rose silk and large picture hat. Mrs. P. V. Robin was gowned in white voile with satin finishing and wore a large picture hat. Miss Ruth Byrne and Miss Irene Byrne, the bride's sister, wore white silk and organdie.

Among the younger guests present were William and Edward Byrne, brothers of the bride and Arthur Byrne, cousin of the bride. The bride's going away dress was of dove blue ladi's cloth, made broad simply and trimmed with gold braid. Her shoes matched her costume and her hat was of Alice Blue straw with flowers and osprey.

The wedding was one of the prettiest seen here for some time, and in every detail proved the high esteem in which the participants are held. Following is the list of the many beautiful and valuable gifts: Silver tea service, M. J. and Mrs. Butler, Sydney; silver service, John and Mrs. Byrne, City; silver tray, D. READ THIS TESTIMONIAL Hope River, P. E. I., January 24, 1910. Dr. E. M. Crossman: Dear Sir—I wish to express my gratitude for the great benefit derived from your treatment and glasses. My eyes were certainly in a very bad condition when you began treating them, but I am glad to say that after 15 days of your treatment they are as well as ever, my vision being perfectly clear. Previous to beginning your treatment my stomach was so weak I could scarcely digest any food. A physician to whom I went told me this was due to the condition of my eyes. My stomach trouble has now vanished and I feel as well as ever. Wishing you many years of success in your work, I am yours gratefully. MR. ANTHONY DOIRON. I have many such letters from other patients. If your eyes are weak don't neglect them. Your much care cannot be taken of them. I feel paid for.

Perpellian

sire Parkside, 2.227, dam Lucerne by All Right, will make the stud season of 1910 at Royal Hotel Stables, Montague.

Perpellian weighs 1200 lbs. and his colts a large and well made. Perpellian has started in five races and has won first money four times. In his last race at Summerside, last August, he defeated Money maker, 2.181, Pretoria, 2.231, Owana, 2.25, and two others with the greatest ease, though he had been in training but three weeks.

It is speed close up that counts in a pedigree. "Like begets like," and a sire that has speed himself is much more liable to beget speed than the sire that has to invoke the speed which his great grand-parents were said to possess.

Perpellian is the speediest colt in the speediest family of race horses that the Maritime Provinces have yet seen and his progeny should in the natural course of events inherit his speed.

There Are Fortunes in Farming With Fertilizer

This statement has been approved and supported by expert farmers everywhere—farmers who have spared neither time or expense to find the advantage of fertilizer.

Now, when you accept the statement of successful farmers you profit by their experiments—you derive the benefits from what they have labored to derive the benefits from what they have labored to find out—you get direct returns from these investigations. Is not this a fair and square proposition? Should not this question receive commendation from every industrious, progressive farmer?

When we say these unmixed fertilizers will supply the soil with the lacking plant foods, promptly and economically, we use the words of hundreds of farmers in this Province—we conscientiously believe that you'll find that it's a fact.

As a positive proof of our confidence we'll mail absolutely free a lot of literature that is of incalculable value to the farmer. Your request on a card will do.
