

Chief of Police Indorses Tanlac

NORTH SYDNEY OFFICIAL IS RELIEVED OF THREE YEARS TROUBLE

"Tanlac has done me a world of good and I want the people to know it, for if it helps me I believe it will help others," said Daniel A. Cowans, chief of police of North Sydney, N.S., in an interview at the city hall recently.

"At various times during the past three years," continued Chief Cowans, "I have had trouble with my stomach, but for the past six months I have not been able to eat a square meal without suffering terribly from indigestion. Always after eating, gas would form on my stomach and bring on spells of bloating, pain and shortness of breath. At times I would become almost blind, very dizzy and when these attacks came on I would always have to sit down until they wore off. I got to where I never ate any heavy foods, for if I did I would pay for it in suffering. Sometimes I found it hard to get any sleep as I was so restless I would lie awake at night, and I most always felt tired-out in the mornings.

"Seeing Tanlac recommended, so highly I concluded to try it and must say it has helped me wonderfully. It certainly is surprising how quickly the right medicine will get anyone to feeling right again. I am eating just any thing I want now, even pork and cheese and other things I would not dare touch before, and I never feel the least bad effects afterwards. And since the gas has stopped forming on my stomach I don't bloat up or have any more pains about my heart. I have an appetite like a wolf and enjoy all my meals. I am also getting perfect rest at night and am just gaining ground all the time. I can recommend Tanlac very highly and am glad to make this statement for what it may be worth to others, especially those suffering from stomach trouble and a run-down condition."

There is not a single portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive and assimilating organs thereby enriching the blood and invigorating the whole system. Next, it enters the weak, worn-out stomach to thoroughly digest its food, permitting the nourishing elements to be converted into blood, bone and muscle.

It overcomes it is said, that great exciting cause of disease—weakness. It renders the body vigorous and elastic, keeps the mind clear and energetic and throws off the symptoms of nervousness and indigestion. It builds up the constitution weakened by disease and mental and physical overwork, quickens convalescence and is an unfailing source of comfort to all suffering from such trouble.

Tanlac is sold in Charlottetown by Reddin Bros.

COMPARISON OF DIFFERENT KINDS OF WINTER SORES FOR BEES

(Experimental Farms Note) In the experiments with bees at the Experimental Farms, it was early recognized that the nature of the winter stores is an important factor in successful wintering, and the experiments have confirmed this. Experiments at the Central Experimental Farm indicate that clover honey (alike and white clover) makes reliable stores for wintering, but poor results have followed the use of stores that granulate hard during the winter. A colony wintered on dandelion honey came out in spring very weak; the honey had granulated hard and the bees had untrapped it out could use very little of it. In some cases a mixed honey that comes largely from clover, sweet clover, and other plants, granulates hard with the same result and causes heavy loss. Buckwheat honey has been found wholesome, but some of the other honeys gathered in the fall have been found unwholesome, especially in marshy places in Nova Scotia, and have caused dysentery and heavy loss. Honey containing juices collected by the bees from over ripe fruit killed a colony before spring, so also did one syrup used as an emergency food for wintering. Syrup made from refined sugar, two parts of sugar to one of water, fed to the bees in the early fall, has given fairly good results as an exclusive winter food, and has been found to be the best practical corrective for stores that are slightly unwholesome. Year after year at the Central Farm, colonies on natural stores that have been fed liberally with this syrup come out stronger in spring than those that have wintered on the natural stores alone. Syrup made from raw cane sugar has given less satisfactory results than that made from refined sugar.

Mink fur takes first place for the coming season.

No end of pockets appear on sports clothes.

VOLPEEK MENDS HOLES IN POTS & PANS THE heaviest Iron Pot or the lightest little saucepan: Milk Cans and Frying Pans: Wash Buckets and Preserving Kettles: Coffee Pots and Teapots: Large holes or tiny leaks. All are quickly and permanently mended with Vol-Peek. Easily applied with the fingers and ready for use in two minutes. Always keep a package in the house. It saves many dollars. At Hardware Stores, Druggists and Grocers. Vol-Peek Mfg. Co., P.O. Box 2024 Montreal

FRIDAY —WEDDING BELLS.—At St. Paul's church, Summerside, on Tuesday morning, the 19th, Mr. B. D. Waite, retired farmer of Little Tignish, was united in marriage to Mrs. Rose Arsenault, Summerside. Rev. J. C. McLean officiated. Mr. and Mrs. Waite will reside in Summerside for the present.

"ENJOYED PICNIC.—The officers and members of St. George's Lodge, I. O. G. T., Georgetown, held a very successful picnic on the premises of Mr. James Hessian. A large number of the members with invited guests were present and a good time was enjoyed by all. The young ladies served up a very appetizing tea, and as their was an abundance for all, it was thoroughly enjoyed by all. The taking of it, the only discomfort that could be felt would be that of over eating.

A FAST PROTTER.—In the summary of the G. W. V. A. races we omitted to mention that "Alice the Great" owned by our splendid horseman Mr. P. S. Brown finished close third in the final and fastest heat stepping the last half in 1.17, timed by three watches. Alice trotted a mile over the Moncton oval last week in 2.17 1/2 last half in 1.07 and was then purchased by Mr. Brown. Her two days trip on the train cramped her muscles and did not allow her to give a proper exhibition of her speed. She is by Peter the Great which is enough said as regards breed ing.

SPLENDID FIREWORKS.—Among the most picturesque features of the celebration in honor of His Royal Highness Tuesday, special reference to which was unavoidably crowded out of the reports, was the pyrotechnic display at Victoria. This display was witnessed by thousands and was picturesque in the extreme, rockets, cathe-rine wheels, several sets of pieces Roman candles and practically all the other pyrotechnic devices were shown to the best advantage and reflect great credit on the firemen under whose supervision the display was given. The band music discoursed until a late hour added to the pleasure of the affair.

MRS. C. MURPHY DEAD.—After an illness of some months Mrs. Chas. Murphy passed away early Tuesday morning at her late residence in Summerside. Deceased lady, formerly Miss Jane Egan, was born at North Wiltshire 63 years ago and has been a resident in Summerside for the past thirty years. She was very highly respected by all and her death will be regretted by many. There are left to mourn four daughters and one son—Mrs. (Dr.) Doyle of Moncton, N. B., Misses Maude, Ella, Bertha and Mr. Fred at home. Her husband predeceased her eight years ago and up to the time of his death was collector of Customs for Summerside. The funeral took place Thursday morning to St. Paul's church, thence to the Catholic Cemetery.—L.

AQUATIC SPORTS Following were the winners: Fifty yards swim, over 16 — W. Murehison, Harry Tanton J. A. McEachern, Tom Dewar. Fifty yards swim under 16 — W. Murehison, Tom Dewar, R. Perry, W. McInnis. Double Scull—1 Hawk, J. Purcell, I. H. Praught, 2, "48" P. Murnaghan, J. Gordon. Four oar, 2 mile—"Roderick" owned by C. Hodgson, W. Coyle, G. McLellan, J. H. Praught, 2 "Dress" —P. Murnaghan, J. Flynn, A. Walsh, W. Prunty. Pleasure Row Boat, 1, J. Purcell and J. Praught, 2, P. Murnaghan and J. Gordon, 3, A. Walsh and J. Flynn. Quarter mile Canoe, Gents—J. Purcell and P. Murnaghan, 2, J. Praught and J. Flynn. Quarter Mile Canoe, mixed — 1, J. Purcell and K. Docherty, 2, E. Kelly and Mary Brothers, 3, J. A. McEachern and Helen McEachern, 4 Gordon Sutherland and Majorie Burke, 5 Itay Thiney and F. Murdock.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Nature's Remedy OR TABLETS GET A Better than Pills 25c Box For Liver Ills. A. E. Foster, Central Druggist.

"TROUBLESOME WEED.—In the Little Sands section of Kings County there is a great deal of what the people call severe thistles in the grain fields. It would seem that these have become a veritable pest and may soon take control of all grain lands on some farms.

IN CUSTOMS.—In the Customs Department, Summerside, Mr. Vincent Harrington having been promoted to the position made vacant by Mr. Harry Baker's promotion, Mr. Ernest McQuarrie has been appointed to fill the position lately occupied by Mr. Harrington.—L.

"GYPSIES.—In Georgetown was honoured on Monday by a visit from an itinerant band of gypsies who camped on the western side of the town, where they attracted a large number of interested and curious spectators both young and old. The culinary habits of the visitors were of a very simple nature. The chief features in evidence were numerous children and lack of soap and water.—G.

New Annan has a name for putting on real sporting shows something out of the ordinary and promoter James Fendergast must have felt pleased as he saw how that reputation had been the means of bringing together over three thousand people to the New Annan Races. People were present from all parts of the province also Nova Scotia and New Brunswick and they all pronounced the races the most exciting they had seen for years. There was great interest taken in the Free For All the people realizing that they were going to see really worth while racing. Peter Farren Maritime champion and record holder and reputed to be the fastest horse in Canada was to meet Our Colonel 2.03 1/2 our fastest horse. The horsemen knew that the "Colonel" was "cherry ripe" but few realized that he would give Peter 2.03 1/2. Fern Hall 2.05 1/4, John A. Hat 2.03 1/2, Prince Rupert 2.04 1/4, and Budlight 2.04 1/4 in straight heats in his three last races and who has lowered three track records this year, the race of his life and miss winning by the narrowest of margins. Our Colonel stepped the third heat in 2.16 1/2 which is fast time and a record for New Annan track. If these horses can be brought together again in the near future it would mean a record crowd and intense interest. The "Colonel" was short of fast race work not having competed since Kensington, July 9th but the race of yesterday should key him up to fine form.

In the 2.20 mixed class another great contest took place and resulted in the defeat of the hitherto invincible trotter Colorado L. Hilda S. liked the track and her mile in 2.19 1/2 shows that she was "some class." Brenton H. was not so good and Dunholm was also a bit different from that of Tuesday at Charlottetown which all goes to prove that Sir John A. MacDonald made a very sage remark when he said that "horse races and elections are the most uncertain things on earth." The 2.25 class was a battle between the western owned pacer John St. and Patola driven by the "Semple" son and father respectively. John proved the stoniest and carried off the long end of the purse. The automobile race between Messrs. Ernest Parkman and Leigh Essory was won by Parkman. Specialties of various kinds entertaining and amusing filled in the waits between the races and kept the concourse of people delighted and entertained.

INDUCTION OF REV. J. M. McLEOD.—The following extract is from the British Weekly, of date July 17th, 1919: The Rev. John M. MacLeod, son of Rev. A. MacLeod, Knox church, Lewis, who has served the church in Canada for the last six years, has been unanimously elected to the Parish and church of Salem, Mull, vacant by the translation of Rev. A. Morrison to Edinburgh. The Rev. J. M. MacLeod was some years ago the minister of Valleyfield and only left the island in April last. (Other papers please copy.)

"MONTAGUE METHODIST CIRCUIT.—The Quarterly Official Circuit met on the 12th inst to make its estimates and arrange the work for the year. Rev. H. Pierce, of Pownall, chairman of the District, was present. He congratulated the members on their splendid work during the past year, and believed this one would be better than last. He expected Rev. Captain C. Graham would soon be in the field, which would permit the supply Rev. E. E. Fyche to return to Mt. Allison. Rev. H. Pierce, on the Sunday, conducted services in Lower Montague, Sturgeon and Montague, to large congregations, who felt greatly strengthened by his able discourse.

FAMILY REUNION.—A very pleasant family reunion took place on Friday afternoon last at the home of Mr. and Mrs. James Arthur, North Rustico when Mrs. Arthur welcomed in her usual hospitable manner about fifteen visiting guests. Conspicuous among them were her five nephews, children of each of her sisters and brother, viz., Willie Brown, Station Agent, John Landin, Mr. and Mrs. J. P. Brown of Mayfield, Melvin McLeod, son of Mr. and Mrs. John L. McLeod of New Glasgow; Sergeant Leslie Andrews of the 1st New Hampshire Regiment, son of Mr. and Mrs. John Andrews of New Glasgow; Cpl. Leith W. Smith (Telegraph operator) son of W. W. Smith of Summerside and Gunner Arnold Mackay son of Mr. and Mrs. Eldon McKay, New Glasgow. These latter soldiers recently returned from the tumult of the world conflict were warmly welcomed by their relatives and friends.

Rotarian S. A. McLeod presided at the weekly luncheon of the Rotary Club in the Rose and Grey yesterday, and Mr. J. O. Hyndman was the speaker. Mr. Hyndman chose a subject with which he is thoroughly familiar, viz., "The Resources of our Native Province," and treated it in his usual comprehensive and masterly manner. After showing from official statistics that F. E. Island led Canada in the matter of live stock per square mile, he went on to show that after many years of neglect, the province was on the brink of prosperity due to its being linked up in transportation facilities with the rest of Canada. He denounced in unmeasured terms the small politics which made much of little disadvantages and which spread bad advertising abroad. He considered we ought to boost the province and its agricultural possibilities for all they were worth. Not only our agriculture, but our fisheries and other resources as well. The four natural resources of the province were farming, fishing, fur farming and tourism. The improved transportation would further the interests of all these, and it was our duty to develop them as we had the best country on the continent for each of them. District President Inman emphasized what Mr. Hyndman said about petty politics and said they were to be deprecated. He also took exception to the publishing of picture postcards showing the island in its winter garb at its worst—say about 30 years ago. Nothing was to be gained by such publicity except a bad advertisement. He advocated the publication of little handbooks, such as the Dominion year-book put out some years ago and the distribution of these broadcast at conventions and otherwise.

Mr. C. J. Gallagher said one of the best advertisements the island could get was through moving picture films. He inquired into the matter when in St. John recently and found that they could get 1,000 feet of film for \$1,000, and for a few thousand dollars they could get the biggest publicity boost possible. The visitors present were Mr. Wm. McCallum, Bonshaw, and Mr. W. E. Turner, O'Leary.

St. Bernard's Parish, Moncton, has just sustained a heavy loss by the death in the City Hospital of Marion McMillan, wife of Percy M. McMillan. Still in her prime, she was caught up from labor and the sorrows of earth by the hand of God who appeared more anxious that His servant should receive the reward of merit than that she should continue her exemplary life here below. For some time past the shadows of death had been slowly and stealthily extending itself towards her home in Moncton. On Sunday, Aug. 10, the grim messenger crossed the threshold and summoned from this life the beloved wife of Mr. McMillan. Although death is that supreme law before

FRECKLES Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails. Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely. Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee, prevent progress towards health.

which all must in obedience bow, and although we see that heartless messenger every day in its every form, dealing its fatal strokes right and left without discrimination as to persons, station or age, yet that ever recurring and daily spectacle does not in any way remove the bitterness of the sting it inflicts, nor lessen in any degree the incredible sense of pain it carries with it, for beneath the darkened shadow of that angel's wing separation from all we cherish and love is involved. Its decrees stern and inimitable, are difficult to bear, especially when it marks as victims those still in their prime. We can easily realize, then, the bitterness of the sorrow which afflicts those nearest and dearest to her, who, just emerging from her girlhood years, we might say, the beloved of the household, their pride and joy was snatched so soon from their midst.

Mrs. McMahon was an exemplary wife and mother, in every way worthy of her husband's and children's love and well deserving of the admiration of the community where she resided, particularly of her relatives and acquaintances of P. E. I., where she came every summer to spend the summer months. In the home circle, her cheerful and enterprising disposition, her bright and pleasant countenance, her musical abilities which were of no mean order, these made her at once a favorite and a necessary acquisition. Yet more—hidden beneath that external demeanor or though constantly making themselves evident in her daily conduct, were planted the principles of genuine womanly goodness. Besides being possessed of the lovable traits of character, the deceased was a model Christian and during her illness a most heroic sufferer.

Some time ago Mrs. McMahon was taken ill with a diseased kidney, and after consultation with the best medical authorities in the lower provinces an operation was decided upon as the inevitable. The operation was successful, but pneumonia set in and, due to her weakened condition, the effects were soon noticeable and from that moment she gradually faded away. Yet she never murmured. She knew that the end was approaching, and calm resignation was stamped upon the once bright countenance. Spiritual consolation was afforded her by her pastor, Rev. E. Savage, who visited her almost daily during her illness. Just before her death she was consoled by a visit from her cousin, Bishop McNally, of Calgary. Never was the end of life more joyfully awaited, more peacefully accomplished. On Sunday evening, Aug. 10, the soul of Mrs. McMahon strengthened and consoled by the rites of God's holy church, left its earthly habitation to dwell in His Heavenly Kingdom. Although it had long been known that the recovery was impossible yet the sad news of her death

fell as a painful shock upon the surrounding community. Her remains were kept in Moncton until Tuesday, when they were brought to the residence of G. R. McMahon, Kensington, P.E.I., where hundreds came to view the remains and extend their sympathy to the bereaved family. On Wednesday, Aug. 13, at 2 o'clock p.m., the remains, in charge of undertaker Bowens, and followed by a large number of carriages from different parts of the island, were conveyed to St. James' church, Freetown, where already a large number had assembled to pay the last tribute of respect to the departed. The pallbearers were: Layton-Rogers, T. A. Driscoll, Barnaby Croken, Earl Kennedy, Thomas German, and Thomas Hughes.

Rev. J. McDonald, assisted by the Rev. Doctors J. C. McMillan and Martin Monaghan, officiated at the funeral services, which were most impressive throughout. The choir rendered in a creditable manner music suited to the solemn occasion. After the chanting of the "Libera," the procession slowly proceeded to the cemetery, where the sorrowful duty of committing dust to dust was performed, amid the tears of relatives and friends and the stent sympathy of an assemblage comprising all denominations. Besides her sorrowing husband and children, Margaret and George, are left to mourn her aged mother, three sisters and one brother to whom the heartfelt sympathy goes forth. May their grief be lessened by the assurance that her short life on earth, devoted to the performance of God's holy will, has earned for her soul a glorious immortality.

The fifty-fourth annual meeting of the Provincial Rifle Association was held yesterday, about seventy marksmen competing. The weather was pleasant and the targets, ranges etc., were in first class shape. Good shooting was a feature of the day. In the MacKinnon Drug Co. match Sgt. A. McCabe, 4th C. A., scored a possible and won. The Prowse match, which always holds great interest on account of its being shot over three ranges viz., 200, 500 and 600 yards was this year made additionally exciting by the fact that a Long Ross Rifle went to the winner. Major MacKinnon finished with 99 points and he looked a winner—then Lieut. R. C. McLean made a better 99, G. R. Beer saw it was up to him to make the effort of his life, and he did finishing with a possible at 600 yards and making a total score of 101 points—a really great shoot.

The two first prizes in the Prowse Team Match went to the Artillery. The representatives of the old 4th Regiment C.A. winning by a comfortable margin. Today the Corporation Match seven shots at 500 yards and the Moors and McLeod match at 600 yards will be fired. The thirty-six highest in the Grand Aggregate will shoot off for thirty-six ladies the highest scores winning the Ladies Challenge Trophy for the Lady he represents. This match will probably be fired about 2 p.m.

ST. MARGARET'S COLLEGE CANADA A RESIDENTIAL AND DAY SCHOOL FOR GIRLS FULL ACADEMIC COURSE PREPARATORY TO EDMUND'S MATRICULATION, FULL COMMERCIAL COURSE, MUSIC—ART—HOUSEHOLD SCIENCE—PHYSICAL EDUCATION—GAMES—SWIMMING Mrs. GEORGE DICKSON, President Miss FLORENCE H.
