Master Workmen Work for Canada

IN NORTHERN ELECTRIC plants and branches 4,623 workers daily exert all their wealth of training and experience to create, perfect and distribute much of the equipment necessary to transmit electric current to supply the needs of Canadian householders and Canadian industries from coast to coast. Thus each worker is playing an important part in the development of Canada and in the building of a great industrial nation.

The guild spirit, which inspired the master craftsmen of former days and created a standard of perfection which was easily recognizable by all, is strong in the hearts and minds of these workers. This healthy pride of workmanship has become a part of every product of NORTHERN ELECTRIC workshops.

The NORTHERN ELECTRIC COMPANY is proud of the record of service of its employees. The oldest employee in point of service has been with the company for forty-nine years; another man for forty-four years; and a third for forty-three years. There are twenty men who have a record of more than thirty-five years of service; sixteen who have been with the company upwards of thirty years; one hundred and twenty-six for more than twenty-five years; and one hundred and ninety-seven for more than twenty years.

Information

It is inevitable that this wealth of experience has been reflected in the high standard of NORTHERN ELECTRIC products which are in daily use for the service of Canadians and the development of Canada's resources.
