Montague "The Beautiful" Races

The big race meet at Montague "The Beautiful" takes place on next Wednesday, August 13th. The lovely town always presents a bizarre appearance on race day.

The pari-mutuel machine will be snappy, and lucky is he who can get big odds on a "dark" horse. The midway will be most extensive, and the chance games interesting to spectators and players.

It is understood that the Secretary is trying to get in touch with pilot Sherren of the Chicago biplane which showed at New Annan races last Wednesday. There is a good landing field near the race track and if aerial conditions are good pilot Sherren will likely be there in his levitation man-made bird of the air.

Self Defence

We read of a boxer who is learning the Welsh language. It is hoped he only intends to use it in self defence.

Getting cold

By a coincidence, Byrd was paraded through New York's financial district the day the market reached the South Pole.

For all Skin Abrasions — Mianard's Lintment.

Ends Piles Quick

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad circulation of the blood in the lower bowel. Cutting and external remedies can't do this—an internal medicine must be used. HEM-ROID, the prescription of Dr. J. S. Leonhardt, a specialist, succeeds, because it relieves this blood congestion and strengthens the affected parts. HEM-ROID is sold by druggists everywhere, and has such a wonderful record of success right in this city that Hughes Drug Co., Ltd., says to every Pile sufferer, try HEM-ROID at any risk. It must end all Pile agony or you get your money back.

—WOMEN'S INSTITUTES HOLD PICNIC—An enjoyable event was the picnic at West Point on Thursday to which the Springfield and Knutsford Institutes had been invited by the West Point and Dunblane branches of this organization. Owing to the fact that a change of date had been necessary in order to avoid conflicting with another event, there was a misunderstanding and consequent delay in giving the invitations and few members of Knutsford branch were present as they had an outing planned for that day. Springfield, however, was well represented and several former residents were also present and their old friends were glad to meet them and welcome them back to this vicinity. Some took advantage of the motor boats provided by the fishermen and went for a sail while others indulged in swimming, bathing and wading in the balmy water. Refreshments were served by members of West Point and Dunblane Institutes. Although this was a Women's Institute picnic many of the sterner sex were also present. One bachelor was so favorably impressed that he asked to be admitted as an honorary member of the Institute. He was accepted as such, but as he cannot join all the institutes represented and does not wish to offend others by joining one particular branch he has not yet been initiated. At the conclusion of the picnic, Rev. Mr. Loring tendered the thanks of the visitors to the entertaining Institutes. Mrs. Amos Gorrill replied on behalf of Dunblane Institute and Mrs. E. J. Sabine for West Point.

Another Island Man Cured

Severe Cases of Rheumatism Quickly Relieved

Excellent reports come from all directions concerning the grand work of the Farador in relieving pain and sickness. The following speedy recovery was due to the fact that the Farador got in its work before the case had become very chronic. All who know Mr. Bertram must recognize the fact that he knows what he is talking about.

Aug. 6, 1930.

Dear Sir:— I wish to state that my younger brother suffered very severely from rheumatism during the spring and until a month ago. Up to that time he was quite unable to work or even to walk across the floor. He decided to try the Farador and began its use a month ago, with the result that he is now entirely cured and able to work. His sleep has returned and he seems to be in perfect health.

We cannot speak too highly of the Farador and strongly recommend it to suffering people.

Yours sincerely,

FRED BERTRAM.
