MINING

(Canadian Press)

TORONTO, Nov. 4—Bullish sentiment dominated the Toronto mining share market today and a general advance was recorded on good volume. The exchange gold index registered a gain of more than a point and the miscellaneous mines index nearly two points. All metal groups shared in the display of strength though the heavy action appeared chiefly in the medium-price golds. Volume expanded to 650,000 shares, well above the average for recent months.

High lights of the gold group were Pickle Crow, up 21 cents to 3.29, McWatters up 10 cents to 1.80 and Prospectors Airways, up 45 cents to 3.35.

Silver stocks were stirred up by the new silver nationalization policy of the government of China and heavy trading in the group developed from the opening.

(C.P. by Guardian's Special Wire)

MONTREAL, Nov. 4—(C.P.)—New highs for the year were established today as the market continued its upward climb with most of the list moving forward.

Irregular Trend On New York Mart

(A.P. by Guardian's Special Wire)
By FRANK MacMILLEN
Associated Press Financial Writer

NEW YORK, Nov. 4—(A.P.)—Selective buying in a few groups and individual issues in the stock market today finally buoyed an irregular market at the close.

After a steady to firm opening, profit-taking in the motors and a few of the higher priced industrials, such as Allied Chemical, off more than 4 points at one time, although only fractionally down at the close, gave the list a ragged appearance.

As the day wore on buying came into scattered groups, notably the rubber shares, some of the oils, steels, rails, utilities and non-ferrous metals, and by the final gong a moderately improved tone was the rule throughout the list. The Associated Press average of 60 stocks gained .2 of a point on the day at 53.2 which was sufficient to carry it to a new high for 1935, and in fact, to the best level since September, 1931.

The trading pace was less rapid than in recent sessions, though still rather brisk at times. Turnover in the stock exchange was 1,752,840 shares.

Bond market traders generally ignored the mild irregularity most of the day in stocks and the general tone in the loans list was steady. Italian bonds staged a sharp up-rush with gains of 1 to 5 points in important issues. U. S. Government obligations were mostly a little improved.

The overnight news of the abandonment of the silver currency basis in China and the nationalization of the metal had little effect on securities as a whole, but brought some buying into one or two of the silver shares for a time on the theory that concentration of China's silver supplies in the hands of the Government, if it could actually be accomplished, would lessen the floating supply of the metal. Bar silver firmed slightly in London but was unchanged in New York at 65 3-8 cents an ounce.

Business news continued on the whole encouraging, even though its character was a little mixed. Current steel operations were off an even point at 50.9 per cent of capacity, but the magazine "Steel" reported a better demand from automobile makers which was likely to increase further, and an unexpected rise in tin plate requirements from can makers.

Some of the shares which advanced fractions to as much as 2 points included U. S. Smelting at 100 1-2, Deere at 56 3-4, Goodyear at 21, Goodrich at 12 3-4, Consolidated Gas at 31 3-8, Union Pacific at 96, Phillips Petroleum at 36 3-8, mid-Continent at 15 1-2, Bethlehem at 40 3-4, Pennsylvania at 27 1-2; U. S. Steel at 46 3-4 and International Harvester at 58 1-4.

In the Canadian list, apart from the gain in International Nickel, fractional improvement was recorded in Canadian Pacific, Dominion Stores, Canadian Industrial Alcohol, Ford of Canada, Lake Shore and Massey Harris. Dome Mines, Distillers-Seagrams, Hiram Walker and Hollinger averaged slightly lower.

(Canadian Press)

"Did You Ever See Such a Skin" Quoth He, "Such Beauty, Such Size, Such Shine."

"And a Prize Likewise In a Woman's Eyes is a Peerless Black Fox Skin."

When Robert Service wrote the poem from which the above are quotations, the breeding of Silver Black Foxes was practically all confined to this Province. Today the industry is world wide, but Prince Edward Island still holds the honor of producing the finest pelts. That honor we must zealously foster and guard and the way to do it is by encouraging our Silver Fox breeders to improve their herds. Silver Fox shows are one of the best means for improvement.
