SANDYFIELDS, N. Y., Nov. 23—(AP) The 125 residents of this ancient hamlet celebrated today what may be their last Thanksgiving in the homes built for them by their forefathers before the revolutionary war.

Only 17 stout little houses that make up most of the village it was an occasion of joy and part of concern for the future.

Only a court order yesterday had permitted the residents to observe even this Thanksgiving at home. It was a temporary stay—issued by state supreme court Justice Russell in Albany, against a dispossession obtained by the Palisades Interstate Park commission, which wants to tear down the 17 houses to make way for a lake.

Keep Minard's in the home.

German fishing fleets have been deprived of their North Sea catch
A part of the auxiliary propaganda is the Nazi claim to domination of the North Sea. It, like other propagandist efforts, is designed to discourage neutral ships from attempting to reach British ports.
This particular claim, however, lacks substantiation when the Germans fail to explain why the City of Flint, while under German control, hugged Norwegian territorial waters on its interrupted trip from Murmansk, Russia, toward a German port. Nor is the fact that persons die from tuberculosis.

DISCOUNT SALE
Beginning the first week of November we advertised that we would allow a 3% discount off all goods from \$1.00 upwards until November 25th, and after three weeks' trial we have decided to continue this discount for the next two months. This allowance is off our regular cash prices and will apply to everything we carry excepting gasoline.
We are well stocked with Groceries, Hardware, Boots and Shoes, all Rubber Goods for men, women and children, also Dry Goods, Crockerware, Fancy Goods, etc., etc.
The greater part of all merchandise in stock was bought before the advance in prices, so it is no mistake to buy now as goods will be still higher.
While this Special Sale is on our books will be closed to all credit, thus saving work and expense.
We find that we still have several hundred accounts not settled. This should not be at this date, as this condition is a handicap to any business.
We urgently ask all who owe us to make payment without delay, as we must collect our bills.
We trust December and January following may be the best two months of our business year.

Daily War Survey
(By The Canadian Press)
Propaganda is an auxiliary weapon in Germany's sea-warfare. The aim of the campaign is to isolate Great Britain, interrupt the movement of British trade along the sea-lanes cause want or hardship among the British people and turn neutral trade away from the united Kingdom.
A large number of our local prominent foxmen are daily visitors to Charlottetown attending the Charlottetown Fox Show, now in progress there.
