REPAIRS WANTED

Sir,—Any one who has lately gone to the Beach Grove Inn by way of the new bridge knows what a shocking condition that bridge and the approaches are in. No doubt the government is responsible for repairs, but endeavour should at once be made to make the approaches to that bridge passable. Two men with a horse and cart could do the work in half a day. "Verbum Sap."

DR. PEARL'S CREDENTIALS

Sir,—May I be permitted a few lines of comment upon the leading editorial in yesterday's Patriot. "Temperance and Longevity." Dr. Raymond Pearl of Johns Hopkins University as "one of those specially prepared canned articles" is an example of the wholesale ignorance of the Patriot prohibition writer. Dr. Pearl's reputation as a scientist is not national—it is world wide. His recently published book on Alcohol and Longevity, the gist of which was published in the Mail and Enquirer and reproduced in the Guardian, is the culminating work of some twenty years painstaking scientific experiment and has been awaited with interest by the whole scientific world. Dr. Pearl's career has been a brilliant one. Graduated from Dartmouth College (A.B. 1899) and the University of Michigan (Ph.D. 1902) afterwards proceeding to the University of Leipzig, the Naples zoological station and University College, London, he became an instructor in zoology at the University of Pennsylvania (1902-7) and was appointed biologist and head of the department of biology at the Maine Agricultural Experimental Station in 1907. He became professor of biometry and vital statistics in the school of hygiene and public health, Johns Hopkins University, in 1918, and professor of biology in the medical school there in 1919. In 1919 he was appointed director of the Institute of Biological Research, a new division of Johns Hopkins University. In that position he had had extraordinary facilities for pursuing scientific investigation with regard to alcohol and longevity. Dr. Pearl became widely known through his biological researches or variations in organism and his studies in heredity, qualifications which eventually fitted him to perform the task of clearing up some misconceptions and misrepresentations with respect to the effects of moderate use of alcohol. Dr. Pearl was a member of the executive committee, chairman of the agricultural committee and member of the executive board of the National Research Council, 1916-9, being also chief of the statistical division of the U. S. Food Administration.

Far from being the irresponsible authority whom the Patriot writer, in his ignorance, seems to think, Dr. Pearl was considered sufficiently authoritative to be called upon to supply for the new (13th) edition of the Encyclopaedia Britannica the important article on "Death" which contains the result of much original research work. He is also the author of various standard scientific works, including: Variation and Differentiation in Ceratophyllum (with O. M. Pepper and F. J. Hagle, 1907); Correlation in the Crayfish (with A. B. Clawson 1907); Diseases of Poultry, Their Etiology, Diagnosis, Treatment and Prevention (with F. M. Surface and M. R. Curtis, 1915); Modes of Research in Genetics (1915); The Nation's Food (1920); The Biology of Death (1922); Introduction to Medical Biometry and statistics (1923) and the Biology of Population Growth.

The insinuation in the Patriot that such man as Dr. Pearl was engaged by the "liquor interests" to write "specially prepared canned stuff" is certainly ridiculous. Naturally the Patriot scribbles being totally ignorant of Dr. Pearl's book, does not attempt to refute it. He thinks it easier to make the sweeping declaration that Dr. Pearl's "statistics and conclusions" have been torn to shreds and his methods exposed most unmercifully.

If Dr. Raymond Pearl's methods have been "exposed" it would be interesting to know by whom? The next question to suggest itself would be: What is the scientific standing of the gentlemen who are doing the "exposing"? Have they any scientific standing, or are they, like the Patriot scribbler just verbose ignoramus?

I am, Sir, etc.,
ENQUIRER

Aged Man Is Burned To Death At Inmore

A sad fatality occurred at Inmore on Thursday morning, resulting in the death of an aged resident, Mr. Henry Moore.

Mr. Moore lived alone and it is thought that he probably upset a lantern when rising early in the morning. Some parties returning from a wedding noticed that his house was on fire and attempted to rescue him, but the flames had gained such headway that it was impossible to enter the house or do anything to save the doomed man. The house was burned to the ground and nothing but a few charred bones of the unfortunate man recovered.

Mr. Moore who had passed the four score span of life was a quiet, inoffensive personage whose untimely end is deeply regretted by the community.

Interesting Demonstration

Miss Ruth Carlington Explains Advantages Of Electrical Cooking at Rose and Grey.

A most interesting demonstration of cooking by Electricity is at present in progress in the Rose and Grey tea room on Richmond Street. Miss Ruth Carlington, Home Service Director of the Associated Gas and Electric System is the demonstrator and the programme for today and tomorrow as well as yesterday is: 10 to 12 a. m. Lecture on Electrical Cooking. 2 to 5 p. m. and 7 to 9 p. m. Demonstrations.

Yesterday in the forenoon, Miss Carlington lectured on "The Art of Electrical Cooking and Time and Temperature Cooking," and in the afternoon she demonstrated a most appetizing way of baking a ham, also "Her Majesty's Bread Pudding" and other recipes.

In the present instance, a Hot point "Hi-Speed" electric range, equipped with an electric timer, and thermistor Oven Heat Control, insuring a constant temperature in the oven.

By these mechanisms, one is enabled for instance, to place a roast in the oven, say at eight o'clock in the morning, set the electric timer to 10 a. m. for two hours baking, and the thermostat at 350 degrees, go out for the morning and forget all about it. At ten o'clock the heat will be timed on and maintained for two hours at 350 degrees, when it will be automatically turned off.

When the housewife comes back say at half past twelve, she will find the joint done to a turn, ready for the table.

Also, owing to the airtight construction and insulation of the oven, none of the good value is lost, and the joint will retain its juiciness and flavor much better than with a coal burning range. Of course all smoke, burning odor, and coal carrying are eliminated.

The Hot point range is remarkably quick in giving oven heat, a temperature of 350 degrees being attained in ten minutes, and one of 500 degrees—the quickest ever used in ordinary baking—in fifteen minutes.

As to cost—With Electricity as its present prices, the expense for the average family, would be about \$4.00 to \$5.00 per month—exclusive, of course, of the first cost of the range. The demonstration, and it is expected that even more will be seen to see this method of cooking today and tomorrow.

Each person attending the demonstration has his, or her name written on a card. At the end of the demonstrations, on Saturday night, these cards will be placed in a hat, and five names drawn. The lucky five will be the recipients of prizes as follows:

1st, Electric Coffee Percolator or \$15.00 credit on range.
 2nd, Electric Double Hot Plates or \$12.00 credit on range.
 3rd, Electric Waffle Iron, or \$10.00 credit on range.
 4th, Electric Toaster, or \$6.75 credit on range.
 5th, Electric Curling Iron or \$3.00 credit on range.

National Convention C. W. L.

The National Convention of the C. W. L. will be held in Calgary, June 25th to 30th and bids fair to be one of the most largely attended conventions of the year. The winner of the National Scholarship will be announced at this time and it is interesting to know that one of the Islanders was chosen as one of the judges of the essays submitted, in the person of Rev. Raymond V. McKenzie of St. Dunstan's University. Rev. Father McKenzie judged the work of all entrants east of Quebec also of the Diocese of Sault Ste. Marie. The district between Toronto and Montreal, from Toronto was Mrs. M. A. L. D., of the University of Winnipeg. The district between West of Winnipeg, Rev. Brother Rogation of the University of Alberta. The scholarship is open for girls who have completed the 4 year High School Course, Sisters or Daughters of C. W. L. members and is a bursary of \$2,000.00 for a course leading to the B. A. degree in an elective college. This year being the first, and the giving of the National Scholarship being decided upon at last year's convention in Montreal, an essay on "In your opinion what the greatest Canadian history had the influence on the development of our country? Show how and why present conditions have been the result of this influence."

In future competitions two subjects, one from the arts and one from the science curriculum will be the basis to determine eligibility for this scholarship to the College course leading to a degree.

First School Days Library Installed Yesterday

A SUCCESSFUL AND ENJOYABLE LUNCHEON AT DUNSTAFFNAGE.

The first fruits of Mr. Adam Andrew's generosity to his native province was the formal installation yesterday afternoon of a School Days Library in the public school at Dunstaffnage.

The teacher, Miss Gertrude Villett and the School Trustees had made excellent arrangements for the auspicious occasion, the school room being gaily decorated with flowers, and the Union Jack flying from the flag pole. The children were there in numbers looking as bright as the proverbial new buttons and, considering the busy season, there was a splendid attendance of parents and friends. Mr. Almon Boswell, chairman of Trustees, presided, the other Trustees Messrs. Robert Rhynes and Herbert Thompson also being present, as well as Messrs Scott Cairns, Robert McCallum, Samuel Stewart and Roland Phillipson, together with a large number of ladies, all of whom took very great interest in the proceedings.

A splendid program had been arranged by Miss Villett and was successfully carried through. After the opening remarks by the chairman, who stated the object of the gathering and welcomed the members of the School Days Library Commission to the school, the children gave a fine rendering of "The Island Hymn."

Mr. F. J. Nash, Chairman of the Commission, next addressed the meeting, explaining the origin of the School Days Library, and expressing the indebtedness of the Province, and especially the rising generation, to Mr. Adam Andrew, Los Angeles, for his great generosity in providing the initial capital for the purpose of installing a library in each school. There were about 400 schools, and this year the Commission was in a position to install 30 libraries, and possibly more. Were the movement as generously supported as they had a right to expect the Commission hoped to be in a position to install 50 libraries per year till all the schools had been supplied. Mr. Nash next addressed the children and parents on the value of good reading and impressed upon them the necessity of getting a taste for reading early in life. He then formally handed over the Library together with a Confederation Jubilee Plaque both of which were gratefully unrolled by little Miss Lorna Stewart, one of the tiniest children in the school.

Master Robert Cairns accepted the gift on behalf of the school in felicitous terms which elicited general applause.

Other interesting and instructive addresses were given by Professor H. H. Shaw, Superintendent of Education, Professor Lloyd Shaw, Supervisor of City Schools, Principal R. H. Rogers, Mr. C. Gavin Duffy, K.C., and Mr. J. R. Burnett, members of the Commission.

Master Robert Cairns, by request, delivered the address of welcome he intended giving had the Lieutenant-Governor been present as was anticipated, and received enthusiastic applause as it was a masterpiece for so youthful an orator. Little Miss Lorna Stewart, then, by request, gave a delightful reading from "Little Red Riding Hood," one of the books in the new library, and also was heartily applauded. The children having retired, the hearty vote of thanks were duly accorded. Mr. Robert Rhynes acknowledged on behalf of the Trustees and Teacher. A plentiful supply of ice cream and cake was then served by the ladies present and was thoroughly enjoyed by all. The proceedings concluded with the hearty singing of the National Anthem, and a memorable day in the history of Dunstaffnage was brought to a close.

QUEEN HOTEL

Since taking over this Hotel we have spent many thousands of dollars in repairs and improvements. It is now the finest Hotel of its class in the Maritime Provinces.
