HURRICANE CAUSES HAVOC

(British United Press)
SUVA, Fiji Islands, Feb. 27. (Friday)—Driving tons of water ahead of it, a tropical hurricane of almost unprecedented velocity swept out of the South Pacific today. It raked the island of Fiji, leaving at least 100 dead, obliterating an entire village, and flooding a dozen streams. Of such force was the rush of wind and water that inland streams were filled, literally lifted out of their banks and driven through new channels across the countryside. The ruinous work of crops begun, when they were flattened by the wind, was completed with their inundation. No attempt has been made to estimate the property loss, though it was known to be very large.

EMBARGO PLACED ON DANISH BACON

Prevalence of Foot and Mouth Disease Main Cause of Ban.

(Special to The Guardian)
OTTAWA, Feb. 26.—Competition of Danish bacon has been abruptly terminated by Order in Council, the Star learns in an indirect method, which is nevertheless highly effective. An embargo has been placed on pork products entering Canada from countries where foot and mouth disease has been prevalent during the past twelve months, and since Denmark, according to the Department of Agriculture, is never entirely free from this disease, the order works out as a permanent ban. A high grade Danish bacon has been coming into Canada at a quoted price of 27 cents a pound, which is about eight cents below Canadian quotations. On the same grade, hog raisers and packers have been complaining to the Government about this injurious competition and the Government has, it is understood, taken this action in response.

Mr. Cockshutt continued: "It would mean more employment for our people and I do not think it would harm anyone." Grave Mistake

(Canadian Press)
MONTREAL, Que., Feb. 26.—If Canada were to accept the Russian overtures now before the Dominion Government and exchange her machinery for Soviet coal and gold, she would in the opinion of Sir Herbert S. The veteran President of the Royal Bank of Canada today gave one of his rare newspaper interviews following the publication of a statement by Lt.-Col. MacKie in regard to Russian trade.
