

Much Heart Burning.

This Symptom of Dyspepsia Com-
plained of by Many People.

"I have the Heartburn so bad"
How often one hears this remark on the
street, and in the home. Thousands of
people suffer great distress from this un-
pleasant symptom of Stomach trouble.

What is Heartburn?
It is simply a fermentation in the
stomach of that part of the food which
remains undigested. It is a sure fore-
runner of Chronic Dyspepsia.

Many people treat Heartburn only by
denying themselves such articles of food
as they have found by bitter experience
produce it. There is absolutely no neces-
sity for this self-denial. The stomach, if
acting properly, can and will digest all the
ordinary foods, and it is only when that
organ becomes tired and out of condition
that this unpleasant and painful symptom
results.

The stomach needs rest.
How may the stomach be rested without
interrupting the nourishment and susten-
ance of the body?

Dodd's Dyspepsia Tablets answer that
question most satisfactorily. One or two
taken after each meal will digest every
particle of food with little or no aid from
the stomach itself, thus allowing the digestive
organs to rest and recuperate, at the same
time furnishing the body with the needed
nourishment and strength.

Percy F. Gorden, of 170 Argyle Street,
Toronto, had the Heartburn. This is
what he experienced.—

"For three years I had suffered with
Heartburn. I had tried everything but
could not get any relief until I used
Dodd's Dyspepsia Tablets. Two boxes
cured me completely, and I have not been
troubled since."

Dodd's Dyspepsia Tablets not only re-
lieve but permanently cure all stomach
trouble.

KAPLAN MURDER

Brought Home to Prison- er Julius Kill

REVOLVER CARTRIDGES

Afford Strong Evidence Against Him—A St. John Policeman in Luck.

EVIDENCE AGAINST RILL.

BARRINGTON, N. S. Oct 23.—(Special)—
Strong evidence against the prisoner
Julius Kill, accused of the murder of Kap-
lan at Clark's Harbor was given by Conrad
Burns, hardware clerk of Yarmouth, who
sold Kill a revolver and cartridges.

THE CARTRIDGES INDICATE GUILT.

The witness identified a box of car-
tridges found in Kill's room as similar to
those sold.

Some had the ends chipped to fit the
revolver chamber and similar cartridges
were found in the revolver and the bullet
taken from the murdered man's head was
also chipped in the same way.

Guardian Correspondents Everywhere.

THE Charlottetown Engineer Company
was inspected yesterday afternoon by
Captain C. B. O. Symons, R. E., in
Infantry at the Park. He expressed
himself extremely well pleased with the
arrangements. The company then marched
to the Drill Shed where it was inspected
by Engineering. Owing to the fact that
the shed had been under repairs
during the summer it was impossible to
undertake any extensive engineering
tasks but the company by the aid of
some material at hand constructed two
legged trestles, afterwards converting
them into four legged trestles. The
inspecting officer intimated that by the
work done the men were evidently
acquainted with the work required of them
and hoped to meet again with the com-
pany next year when better facilities for
engineering would be at hand.

A PRATY full meeting of the Patriotic
Monument Fund Committee was held
yesterday afternoon in Judge's Chambers,
all the members being present excepting
Senator Ferguson and Col. Moore. Mr.
Hamilton McCarthy, the eminent Cana-
dian sculptor, was present by invitation
his proposals and model having met with
more general favor than any others of the
many submitted. After a conference
with Mr. McCarthy the committee were
quite unanimous in their approval of the
model and general design of the work but
the funds at present subscribed come
short of the price set by the sculptor. It
is hoped that the required sum may yet
be made up in some way, and if this can
be done a contract will be entered into
with a view to have the monument in
place and ready to be unveiled on first
July next. That being a public holiday
when also the militia forces are expected
to be in camp here, the opportunity for
unveiling and dedicating the monument
with military honors would be an excellent
one. It would also be a favorable time
for people from all parts of the Island to
witness the ceremony. Mr. McCarthy
has executed scores of costly
and elaborate monuments, statues
and groups in both Great Britain and
Canada, including the statue of Sir John
McDonald in Toronto, and of Hon.
Alexander McKenzie in Ot-
tawa. His name is a guar-
antee for first-class artistic design
and workmanship, and it is to be hoped
that the committee may yet be enabled to
enter into a contract with him.

Mr. J. A. Flett, Vice President of the
Trades and Labor Congress of Canada and
organizer of American Federation of Labor
is at the Revere Hotel. He comes to the
province for the purpose of paying a visit
to the fraternal union already here and
which is affiliated with the Trade and
Labor Congress of Canada. It is what is
known as a mixed union of all employees
in the works of the P. E. Island Railway.
There are 88 national organizations
comprising a membership of one million
and a half men. There are 32 organi-
zations of the Brotherhood of Carpenters
and Joiners with a membership of
86,000 men. There are 800 local
organizers and 30 general organizers on
the road to say nothing of the special or-
ganizers. Nearly all the organizations are
fraternal as well as trade union. In the
onward march it has been found
necessary to keep pace with the different
industries, the American Federation of
Labor believing that arbitration whenever
possible is the best means of procedure.
The union holds that a man has a right to
sell his labor or work for what he consid-
ers worth and to work the number of
hours he thinks proper. One of the prin-
ciples of labor organizations is to reduce
the length of the work day and to secure
for the toiler a higher remuneration for his
labor. Last year the member ip of the
order increased 308,000 and it is expected
that the record of 1900 will be surpassed
during the present year. Benefits are
provided for its membership. Mr. Flett
wears clothes bearing the label and con-
tends that there is as great future before
the Trades and Labor Congress of
Canada, as many of the larger manufac-
turers are placing the stamp right on
the goods.

At a special business meeting of the
Baptist church held last night Mr.
Raymond's resignation was accepted to
take effect at his request on Oct. 31st. The
relation existing between pastor and
people have been of the most pleasant
character and it is with great reluctance
that the church accepts the resignation.
A resolution expressing the church's
hearty appreciation of Mr. Raymond's
efforts to raise a special contribution
towards the church debt was unanimously
passed and duly presented.

THE McKinnon—Bruce election trial
was resumed in Georgetown yesterday
before Mr. Justice Hodgson. When the
summonses against the 18 parties
charged with corrupt practices was
called on the Attorney-General
challenged the jurisdiction of the court
to hear and determine their cases. The
argument lasted for some hours but was
not sustained by the court, and at the
hour of adjournment evidence was
being heard for and against the
parties. The court meets this morning to
continue the proceedings.

A HANDSOME CARRIAGE.—A representa-
tive of THE GUARDIAN whilst passing
the carriage show rooms of Mr. Armas
Fraser, Grafton Street, yesterday noticed
a very handsome covered carriage which
upon enquiry we learned was imported
by Mr. Fraser from Boston for Judge
Hodgson. The carriage is known as a
Rockaway coupe on platform springs
suitable for either one or two horses.
It is beautifully upholstered in green
cloth, has glass doors and windows with
silk curtains. It has a glass division in
front which separates the driver from
the occupants of the carriage and which
can be removed or retained at pleasure.
The carriage was formerly owned by Judge
Huntress of the Superior Court of the
State of Massachusetts, but from its
appearance it would seem not to have
been half a dozen times on the road.
Altogether it is a handsome, comfortable
and commodious carriage, probably the
best ever seen in Charlottetown and
reflects great credit on Mr. Fraser, who
selected it for Judge Hodgson from the
French Carriage Company, Boston, Mass.

An Editor's Opinion

Of the Marvellous Restorative Qual-
ities of Dr. Chase's Nerve Food.

Mr. A. R. Fawcett, the well-known
editor and proprietor of The Leader and
Recorder, Toronto Junction writes:—
"It is very seldom that I need medi-
cine of any description, but this spring
I got so badly run down and out of
sorts generally, that I became some-
what alarmed. Chancing to read a
testimonial about the results derived
from Dr. Chase's Nerve Food, from a
gentleman whose case seemed to be
identical with my own, I purchased a
box, and commenced using it.

"The result was simply marvellous.
I was benefited from the first, and soon
restored to my usual good health. I
never felt better in my life than I do
now. To tell the simple truth, I did
not have very great faith in any medi-
cine until I used Dr. Chase's Nerve
Food, but now I have no hesitation in
strongly recommending this great
remedy to others, as a valuable and ef-
fective remedy."

Dr. Chase's Nerve Food, the great
nerve restorative and blood purifier is
making hosts of cures in all parts of
this broad Dominion. Gradually and
thoroughly it builds up the system
and overcomes weakness and disease.

HOW ONE MILLION IS SPENT.

Not less than one million dollars is annually
spent by people seeking an absolute cure
for catarrh, Bronchitis and Consump-
tion. Numerous are the remedies, but the
one standing pre-eminently above all
others is Catarrhzone. It cures these dis-
eases because it is sure to reach them.
Catarrhzone is inhaled into the lungs
throat and nasal passages, and bathes
every part of the diseased membrane with
its germ killing, healing vapor. You simply
breathe the Catarrhzone and it cures. Price
