

CASH VS CREDIT

After due consideration, have carefully considered trade conditions here from every standpoint. We have concluded in future to do a cash business. We make this important change in our business believing and knowing it to be in the interest of the buying public, as well as this store.

Our object is to make this store which is situated in the very heart of the city one of the most popular houses in this province.

The first essential to the popularity of any store is the magnet of low prices.

We know that under present conditions it is impossible to compete with foreign houses who sell for cash only.

By making this change doing a cash business, it places us in a position to compete with any retail house in Canada.

Our system knows no favorites and it grants no special privileges that cannot be shared by all. Our business is store-keeping, collecting and distributing goods, selling at the closes possible margin for cash only.

Step in and see the difference between cash and credit prices.

WHERE MEN DIVE TO CATCH FISH

Method Employed by Native Fishermen in an Indian Stream

LONDON, June 27.—A unique method of fishing is employed by natives along the Panlaung River. Two dugout boats are employed, about thirty feet long, with two men with long poles, one in the bow, the other at the stern, punting the boat along. They stretch a long rope, made of bamboos and plaited grass, about a hundred yards long and weighted about every ten yards with big stones. This they let down in to the water, and the fish are frightened toward the band. The divers then jump in three-at a time, remaining down about twenty seconds. They carry gafts about eighteen inches long, and fishhooks with cords attached. When they strike a fish they let go the gaft and the fish is hauled up in the boat. A big fire is lighted on the river bank, and the men warm themselves before it when not diving.

C. H. PRUNER
Vice Prin. Union Coll. College.
The work in the Penmanship department of the Union Coll. College this term has surpassed all previous records. Twenty students have merited the Penmanship Diploma from the Zanerian Art Institute, Columbus, Ohio, the leading penmanship institute in the world. This is the largest number of Certificates ever granted in one year to any business college in Canada. The Guardian congratulates Mr. Pruner on this excellent showing.

The King of Fountain Pens. FOR BUSY PEOPLE

The Best Self-Filling, Self-Cleaning Pen, Manufactured in the World.

THE greatest invention in fountain pen construction of the age and the only pen manufactured in America that was awarded the gold medal by the Academies Des Inventeurs Industriels at Expositions, Paris.

Every pen is guaranteed by the manufacturers perfect in every respect; it is simple, reliable, durable and will not leak. To fill, dip the pen in the ink, draw out the plunger and it is filled ready for use. To clean, dip it in water, draw the plunger back and forth several times and the work is done.

No other pen manufactured can compare with it, and although it may cost a little more than some other makes, yet in buying an article like this, it is well to get the best, as it is sure to pay in the end. Price \$3.00 \$3.50 and \$4.00 each.

All pens fitted with 14-carat nibs, and the gold bands are triple plated, both of which, with care should last for twenty years.

Call and we shall be pleased to show the lines.
