

# St. Margarets Is Conservative In Sentiment

Another evidence of King's County continuing Conservative, was given in the sentiment of the joint meeting at St. Margarets on Thursday night, a poll with always a Liberal leaning. Hon. J. A. MacDonald in his usual compact address covered the Conservative policy in its entirety, and

reputed arguments brought up by his opponent, Hon. Dr. Grant. Mr. H. F. McPhee and Senator McLean as lieutenant speakers for Hon. Mr. MacDonald each scored numerous points. Messrs. H. H. Acorn and George Saville supported the Liberal cause.

## GREAT MEETING

(Continued from page 1)

expressing regret at the illness of Hon. R. H. Jenkins, he reviewed the stand of the Conservative party since Confederation as being the party with a tariff policy. He pointed out that the Liberal party has no fixed policy. For over fifty years the Conservative policy has been one of protection to industry. During its history the Liberal party has had many policies and its late trade policy was leading Canada to the precipice of ruin. Now they have come before the people with the Dunning Budget, in some ways a free trade policy; in some ways a policy of high protection. "Our policy is one of protection for the farmer in agricultural pursuits as well as for the trader throughout the country," Mr. McLure said. If Canada builds up factories in the country, means are provided to offer employment to the sons and daughters of the land. If the raw material is exported the young people must follow to the country where it is manufactured, Mr. McLure declared.

A new form of tariff, a countervailing tariff, has been introduced, a tariff made by the U. S. Government. The disadvantage of this tariff is that American goods imported into this country have their tariff fixed in Washington. "The tariff is an all important question for Canada. The King Government is to be judged on its record, on its tariff records, not in the interest of the agricultural and industrial life of Canada."

### DEBT REDUCTION

The Liberals claim a debt reduction of \$250,000,000. The debt of Canada today is large. It was increased during the war by two billion dollars, and continued to increase from 1922 to 1925. Since 1925 a reduction was made by taxation of the people.

The King Government increased the sales tax from 3 per cent to 6 per cent and lately reduced to 1 per cent. Figures show that \$188,000,000 additional was collected by this means. If proper methods had been adopted the debt would have been reduced yearly by \$75,000,000 more. All other countries funded their war debt. If this had been done in 1922 in Canada the debt would be wiped out in forty seven years. An adverse trade balance occurred of \$103,000,000 according to the Dunning Budget, Mr. McLure stated.

### IMMIGRATION

The King Government, through its agents, is attempting to bring immigrants to this country at the expense of millions of dollars, yet while immigrants were coming in Canadian boys and girls were leaving. Could not, the speaker asked, this money have been loaned to the young people through a period in order to establish them in business.

### OLD AGE PENSIONS

The old age pensions question, begun by the Borden Government, remained unsolved till 1927 when a scheme was worked out by which the Dominion Government pays 80 per cent of the pension. P. E. I. did not adopt the act, yet out of every one thousand there are 80 people over 70 years of age here. The cost to this province would be about \$300,000 if the system were adopted. The Conservative party pledges that the old age pensions will be dealt with in a national federal act, by which eligibles will be granted pensions while the province will be under no additional burden of taxation.

### ADDITIONAL SUBSIDY

The Liberals promise to pay it when additional subsidy is granted.

## Mr. Bennett Not Worrying Over Constitutional Bogey Raised By Mackenzie King

"If the Conservative Government succeeds on July 28, and I have every reason to believe it will," Mr. Bennett exclaimed, "I will see to it that old age pensions are paid to every province of the Dominion from the Federal treasury. That is my answer to a Prime Minister who is not concerned with the importation into Canada of Russian coal and New Zealand butter. That is my answer to a Prime Minister who says the payment of money to the provinces for old age pensions is a vicious principle. It is a national obligation. Premier King says it cannot be done constitutionally! If the Dominion can pay fifty per cent of old age pensions, why cannot it pay 99 per cent?" —Hon. R. B. Bennett at Yarmouth, July 2.

## Old Age Pensions

Premier King did not say anything in his Prince Edward Island speeches about old age pensions, because to have done so would have been embarrassing to the Liberal Government of this province, which is in no position, financially to bear half the cost of pensions for the considerable number of aged people in the rural sections. But when he got to Nova Scotia, where they have a Conservative Government, he said in his speeches, "If you want old age pensions, tell Mr. Rhodes to pass a provincial law and in three months you can have them."

Mr. King says that it would be unconstitutional for the Federal Government to bear the whole cost of old age pensions, as Mr. Bennett proposes. It is difficult to follow Mr. King in all his political meanderings. He says it is "vicious in principle" to give money to the provinces for the highways and he says old age pensions must be dealt with by the provinces. Then he is willing, he says, that the Federal treasury should bear half the cost, while it would be unconstitutional for the Federal Government to legislate for the whole country. It may occur to the majority of ordinary people who do not know the fine points of constitutional law that if it is constitutional for the Federal Government to bear 50 per cent of the cost of old age pensions when taken up by the provinces it would not be stretching the constitution very much to make it sixty or seventy or eighty per cent.

Mr. Bennett is a lawyer, generally admitted to be one of the very best in Canada. Mr. King is a professional talker, who has written some books and spent four years in the United States during the war studying the labor problem for the Rockefeller Foundation. The people of Canada may make their choice of the two leaders.

## Central Guardian

TESTING BRAKES—Last evening the police were busy on Grafton Street, stopping cars and checking up on brakes and lights.

SPLENDID RECEPTION—C. F. C. Y. broadcasting Premier Howard Ferguson speech from Kitchener, Ont., on the coast to coast hook-up last night received many complimentary messages and telegrams on the splendid reception.

A SPECIAL TRAIN has been arranged for to take race horses and spectators to St. Peters Races, Wednesday, July 16th. It will leave Charlottetown at 9 o'clock (Standard Time), 10 o'clock (Daylight Saving Time) and will connect with train bringing race horses from Summerside at Royalty Junction.

Misses Jean and Mary McAntague, Halifax N. S., who have been visiting friends in the city, leave this morning on return home.

The Rev. T. W. Goodwill who has been the guest of Dr. and Mrs. Goodwill, Brighton, for the past month, left for his home in Toronto, Tuesday morning.

Mr. McLure said. The subsidy question arose from the recommendation of the Duncan Commission of which Dr. Macmillan was a member. The Prime Minister stated in Charlottetown that the Duncan Report was almost fully implemented. Hon. A. E. McLean stated that it was completely fulfilled, at Webster's Corner the statement was made that it was almost completely fulfilled.

Last year Premier King advised the premier of Prince Edward Island not to press the subsidy claims at that time. The question has been placed in the hands of an audit board, which has no authority to take into consideration any claim which is an issue. Therefore, the speaker claimed, that this action on the part of the government is a political bluff.

Previous to launching his counter-attack, Hon. Dr. Macmillan gave some reminiscences of his first trip to Mount Stewart as a boy. The speaker did not believe that a policy of high protection was a national policy, while the Liberal policy is a sectional policy suited to the whole country. He reminded his hearers that under the Australian trade treaty \$4,000,000 worth of goods were shipped yearly to Australia. During the last seven years, he said, the whole exports of Canada have increased, as also has the amount of required labour in the country.

While the Conservative speaker has criticized the immigration policy, Dr. Macmillan said, last year Gen. A. D. McRae, Conservative organizer, expressed himself in favour of an immigration policy by which \$300,000 would be expended.

In the way of tax reduction the sales tax has been lowered by the Liberals from 6 per cent to 1 per cent, the speaker pointed out, and one cent has been taken off the postage stamp. He did not agree with the Patriot figure that \$300,000 would be required of this for old age pensions.

The British North America Act must be changed before complete federal aid can be given in old age pensions. The Duncan Report, the speaker believed, was not a bluff, and Premier King promised to implement every recommendation contained in it. The recommended increased subsidy was the most important factor owing to the natural resources claims of the western provinces it has not been possible to deal with the Island subsidy claims, the speaker stated. An interim subsidy was recommended by the commission. The speaker believed that it would be foolish for the Island to press its claims while the Western provinces were demanding their rights, as he prophesied, that now the province will receive more than it otherwise would have.

### Unemployment

Dr. Macmillan pointed out that a great unemployment question is existing in United States under a system of high protection. The railways were a wreck when the King Government came into power, and the high tariff stifled trade. The speaker stated that under the countervailing duties tariff cannot be reduced to nothing, only to the general tariff rates. The work of the speaker in his new position will be largely for fishermen, Dr. Macmillan claimed. A department of fisheries is very necessary, he pointed out. Dr. Coady has been a very energetic and sincere worker. The Minister of Fisheries, the Deputy Minister and the president of the Maritime Co-operative Association have all come from P. E. Island. Fishermen ask only that they may live. All they ask is to be put on the same levels as workers in other industries. Dr. Macmillan stated.

The second Conservative speaker was Mr. J. H. Myers, who was received with tremendous applause. He expressed regret at the absence of Mr. McLure's response to the

Mr. Jenkins. The speaker was glad to see so many ladies present.

### Tariff Policies

The tariff policy is one of the main questions under discussion, a very important question, the speaker thought, and the Liberal party claims to be able to change its policy very quickly.

### New Zealand Butter

Mr. Myers next reviewed the history of the Australian trade treaty, an agreement that was extended to New Zealand by order in council. A Liberal speaker had been accused of stating that Canada had requested New Zealand to send over her butter, Mr. Myers stated. Was not the lowering of the tariff on butter to 1c per pound, a request to send butter into this country, he asked. In 1925 Canada imported \$198,000 worth of butter and exported \$24,502,000 worth. Due to the trade agreement, the butter export was forced down to 1,000,000 pounds last year, while the importation amounted to 36,000,000 pounds. The reputation the province held some years ago for fine quality butter, and its reputation of being a disease free area is now worth absolutely nothing. New Zealand butter is now allowed to be sold in Canada, as Canadian butter, stamped by the firm selling it, Mr. Myers stated. This practice, at least, might be stopped by the government.

### The Dunning Budget

The Dunning Budget at one time was supposed to be a high protection policy, yet one speaker points to the unemployment situation in United States, under a high protection policy. The Liberals now stand for a higher protection than Conservatives ever stood for. The United States have raised their tariffs too high for the good of that country, and the Liberals are following suit.

Hon. A. E. McLean, Mr. Myers continued, says in reference to countervailing duties that when reduced by U. S. will be reduced to an equal figure in Canada.

Under the Dunning Budget potatoes have been placed on the free list, and the 35c. protection has been removed. In the spring when United States is producing excess quantity of eggs, that country can reduce its duty, and so must Canada, allowing the commodity to enter free. When later Canada begins to export eggs, United States can "countervail" again.

### HIGHWAY GRANT

Hon. R. B. Bennett has promised to restore to P. E. I. the highway grant which the Liberals removed. Prince Edward Island will claim the right to use the money where it will do the most good. Highways are no longer a provincial matter. Last year 5,000 foreign cars came to the province; these Island highways are not only interprovincial but also international.

Hon. Senator Sinclair was the last speaker of the evening. He considered butter a slippery thing to deal with. He pointed out that the New Zealand agreement was made before the ratification of the Australian Treaty in 1925. From 1925 till 1928 a larger amount of butter fat was exported to the U. S. than was imported in butter. Last year duty was raised in U. S. 50% on milk and cream hurting Canadian business. Senator Sinclair claimed that the whole dairy industry should be taken into consideration and not butter alone. The Australian trade treaty resulted in a favourable balance of trade to the Antipodes, the speaker pointed out. It is not in accord with the B. N. A. Act for the Federal Government to build highways. The speaker did not consider it reasonable that the Canadian Government should first handle the money and turn it over to the Provincial Government. The speaker next gave an account of his and Mr. Jenkins' stewardship as far as the constituency was concerned.

The Conservative party in Canada was elected to power but once in thirty-four years Senator Sinclair believed. An outstanding feature of the Dunning Budget was the fact that three Conservatives voted for it. Countervailing duties could be lowered only as far as the regular tariff permits.

He stated that the Conservatives "countervailed" with U. S. in regard to potatoes in 1917. Great Britain has done well by Canada in the way of reciprocal trade in response to British preference. The Canadian government in the past year has expanded trade, he said. Senator Sinclair next dealt with the Duncan Commission report, stating that the commission realized that the recommendations could not be fulfilled.

### REBUTTAL

In rebuttal Mr. McLure stated that it is fortunate for Senator Sinclair that he has been appointed to the senate, where he will receive a pension for life. "Look at the size of your milk checks at the end of the month," Mr. George Clark acted as chairman, fairly and impartially.

## HOME MARKET

(Continued from page 1)

read an address of welcome. The usefulness of the King administration has ceased he said, and this is manifested by the scurrying of our opponents for shelter from the approaching storm on July 28.

### Pays Tribute to Mr. Arnett

Mr. Bennett declared that he brought from fellow Maritimers now living in Western Canada a message of hope. A message not to be discouraged—to their old homes in the Maritimes. He spoke of the many Maritimers now living in the West and who had made notable places for themselves in the church, law, medicine, the judiciary and every walk in life. To the ability of Mr. Arnett, he paid a stirring tribute. If you make the selection of Mr. Arnett, the Leader proceeded who will bring pride to this Garden of the Gulf. If he criticized the Government in his remarks, he went on, it was for the purpose of what was best for Canada. Do you recall in days of prosperity, Mr. Bennett asked, when the Government used to talk in days gone by of the large amount of goods we were selling as compared with the amount we were buying; and they claim credit for it. They boasted of it in speaking of prosperity. What about it now. Forty-five millions more was paid out for products during the first two months of this year than was received from the sale of our products. He went on, now they must accept responsibility for less revenue an adverse balance of trade and unemployment. You cannot have it both ways. You cannot say the Government is responsible when times are good and not responsible when times are bad. The prosperity of agriculture can only be brought about, Mr. Bennett said, if the industry is not only attractive but profitable. Is farming more profitable than it used to be, he questioned. If not, a man should not be at it. Unless you can make money in your business, you should not be in it. That in my judgment is the cardinal rule in respect to any avocation whether you make your living, fishing, farming or in any other industry. You must make a profit or you cannot succeed. No man is happy if he does not succeed. In order that people in the agricultural industry may succeed, the Conservative Chieftain said, these engaged in it must have the benefit of science and study. So he continued, we made grants to establish schools, experimental farms, not only in the agriculture but in the live stock and dairy business. Mr. King discontinued the grants to agriculture. That is his privilege. We have said we believe in these grants and we will renew them when we come back to power. That is not a death bed repentance. This is no Dunning Budget. This is not a matter of countervailing duties.

Accompanying the Conservative leader are Messrs. Thos. Green, Canadian Press, Robert Rankin, Halifax Herald, Paul Reading, Ottawa Citizen, and J. A. McDonald, C. N. R. Telegraphs.

An extended report of Mr. Bennett's speech will appear later. The Conservative chieftain was met on his arrival at Borden yesterday afternoon by Hon. J. D. Stewart, K. C. provincial leader, and Mr. J. Frank Arnett, Conservative candidate for Prince County. Band music and a delegation of prominent citizens led by Mayor Lidstone met the train at Summerside station and cordially welcomed Mr. Bennett and Miss Bennett to the Prince County capital.

The Crystal rink, largest auditorium in Summerside, in which seating argument of Senator Sinclair for a consideration of the whole dairy industry not New Zealand butter alone. The average duty on British goods is one third higher than that on goods coming in from United States. Why are they not made equal? Mr. McLure understood from Senator Sinclair's remarks that an increased subsidy would be granted. In the estimates, subsidies are a little less than usual, while special grants remain the same. Did it appear from that, the speaker asked, that the province is to get additional subsidy this year. Dr. Macmillan deplores high protection. Mr. McLure stated, yet the Duncan Commission of which he was a member recommends high protection on steel, and the government has put on a 100 per cent increase over what the Conservatives had. The speaker did not believe Mr. Macmillan to be sincere in that connection.

Dr. Macmillan attempted to convey the idea that the Conservatives were opposed to Old Age Pensions. Mr. McLure stated, but his leader has said: "I have come to the conclusion that it is a thoroughly vicious principle."

Mr. George Clark acted as chairman, fairly and impartially.

accommodation for about 2,000 people had been provided, was gaily bedecked with flags and bunting in honor of the Conservative leader, whose arrival on the platform shortly after eight o'clock was the signal for an enthusiastic ovation from an audience which packed the huge building to the doors. With Mr. Bennett, and sharing in the applause, was his sister, whose charming presence added to the pleasure and significance of the occasion.

Among those on the platform were Sir Charles Dalton, Hon. J. D. Stewart, Mr. J. Frank Arnett, Mayor Lidstone, Mr. John Hackett, Mr. J. Shelton Sharpe and Mr. J. E. Wyatt, K. C., and Mrs. Wyatt. Jointly presiding were Messrs. D. B. McDonald and J. A. Brennan, presidents respectively of the East and West Prince Liberal-Conservative Associations.

Brief addresses of welcome by Mr. McDonald and Mayor Lidstone opened the meeting.

### MISS BENNETT REPLIES

"I appreciate very much the kind words of the Mayor and chairman," said Miss Bennett, "and I assure you that it is a very great pleasure to be back again in this Garden of the Gulf. We were here two years ago, and today, when we arrived at the station, I noticed many familiar faces. I have had very happy memories of my former visit. The thing that impressed me most when I was here in August was the vast potato fields of the Island. I have been very much more interested in potatoes ever since; in fact so much so that I always ask: 'What did the Islanders get for their potatoes last year?' I know that year you were all hoping for a good market, and I believe last year you did get a very good price. We are now on the verge of a great election and we are all anxious that this market will continue and that you will get an even better price than you did before."

"Following what my brother has been saying, one of the platforms of the Conservative party is to give Canadians a home market. (Applause.) In other words, we hope to do something for you to enable you to secure better markets for your superior products. I did not intend to say this much to you, but I feel so much interested in the vast possibilities here that I perhaps expressed myself more freely than I intended to do."

"It is a very great privilege to be greeted by so large an audience. It shows a very great interest in the Conservative party, and I would like to say to every man and woman here who is interested in that party and in what it stands for: 'Get out and work and give your very best efforts to it from now till the 28th; and if you do that you cannot help but elect Mr. Arnett.' Therefore I hope you will all give 100 per cent of your energy and time from now on to elect Mr. Arnett with an overwhelming majority. I thank you." (Prolonged applause.)

### Mr. Arnett's Address

Further applause greeted the popular Conservative candidate for the County, Mr. J. Frank Arnett, as he was called upon by the chairman. The increased interest taken in politics by the electors throughout Canada, coupled with the increased realization of the importance of the National Policy to this country, as cited by Mr. Arnett as a hopeful and significant sign. He reviewed briefly but convincingly the harmful effects of the King Government's tariff policy on immigration and industry.

"It is true they reduced the sales tax—but who has a better right to reduce that tax than the people who raised it from three to six percent during their term of office?" he asked triumphantly.

"Sir Robert Borden gave the greatest gift this Province has ever received from any Government when he gave us the car ferry," Mr. Arnett continued.

"Though the King Government has been in power nine years the widening of the gauge of the Prince Edward Island railway is not yet complete," he vigorously pointed out. Appealing to his hearers to cast their vote in favor of the Hon. R. B. Bennett and his Canada-first policy Mr. Arnett was answered by a storm of enthusiastic handclapping.

### ADDRESS OF WELCOME

The following address on behalf of the East and West Prince Conservative Associations was then read by Mr. J. E. Wyatt, K. C.

To the Honorable R. B. Bennett, K. C. M. P.

Dear Mr. Bennett: It is with great pleasure that we the East and West, Prince County, Liberal Conservative Associations welcome you again to the shire town of this riding as our leader as also your charming and estimable sister, Miss Mildred Bennett and at the same time we desire to extend to you

## Ayrshire Field Day At The Experimental Farm

Large Number Of People Present At Picnic Held Under Auspices Of The Ayrshire Breeders Club.

Yesterday afternoon at the Experimental Farm a very enjoyable picnic was held under the auspices of the Prince Edward Island Ayrshire Breeders Club. There was a large attendance of farmers and other people interested in the activities of the club. They were addressed by Mr. Retson, Mr. Walter Shaw Mr. Charles Archibald Truro, and Dr. J. A. Clark. Following the picnic there was a sale of high class Ayrshires which were especially selected from some of the best herds on the Island. The sale was one of the most successful ever held and the twenty three cattle which were sold brought a price of \$2865, an average of about \$124.55 each. The highest price paid during the day was fetched by the two year old heifer owned by W. R. Younker and sold to Ings & Son for \$245. The sale was in the capable hands of J. A. MacDonald auctioneer.

Following is the list of cattle and buyers.

Name	Price	Buyer
Brightside Fannie, 1438, \$220, J. E. Sinclair.		
Milk Maid, 131351, \$220, Major Andrews.		
Rosy Dream, 97502, \$150, Harvey Edwards.		
Primrose Dairy, 94904, \$150, Harvey Douglas.		
Brightside Katrina, \$160, Major Andrews.		

of Andrews. Brightside Laura, 127222, \$170, J. Jenkins. Birchlea Primrose, 118297, \$20, Ings & Son. Summerfield Dairy, 126106, \$1, Simmons Bros. Summerfield Dairy, 125791, \$11, Simmons Bros. Summerfield Blanche, 126792, \$11, C. F. Hatch. Blackudder Rose, 130178, \$120, Sir Thorns Bros. Thorns Blossom, \$100, Simmons Bros. Brightside Merrymaid, \$95, Jol Huntley. Brightside Mamie, \$95, Wilfred K. J. Brightside Nancy, \$40, Jas. Jenkins.

Red Bank Snowball, 2nd, \$ Harry Douglas. Red Bank Maud, 2nd, \$40, J. Munn. Charlottetown Supreme Prince 134077, \$50, G. Gardiner. Charlottetown Supreme 2nd, 13 985, \$85, Cairns Bros. Greendale Prince, 132910, \$100, V. Fred Hogan. Summerfield D'acon, 136579, \$ Frank McDonald. Blackudder Street Echo, 1279 \$140, A. J. Bailey. Inglebrook Dolly Boy, 134066, \$1 Fred Dollar.

our, our hearty good wishes for many happy returns of your natal anniversary.

We note with pride as evidence of your sincere love for Canada and loyalty to her best interest that since accepting the leadership of our party you have resigned as director from various large enterprises so that you might be free and untrammelled by such connections to adapt such measures as would best promote the principle of "Canada First."

That whilst holding that what is made by Canadians makes Canada and pleading to give Canada a chance by the preservation of her natural resources to be made into the finished product by Canadian workmen led by Canadian farmers and the removal of all handicaps preventing them from competing in their own home market we admire your courage and straight forward declaration that you would not stand for labor being exploited or the consumer being overcharged.

This has been the policy of our party since first introduced by our great chieftain—that outstanding patriot and Canadian statesman the late Right Honorable Sir John A. McDonald and the zeal, ability and self sacrifice which has characterized your efforts to have them carried into effect convinces us that the rank and file of our party which assembled at the great convention at Winnipeg acted wisely when they placed his mantle upon your shoulders.

Your profound knowledge of public questions and your exposure of the delusiveness of the Dunning Budget by which the control of Customs duty on farm and dairy products imported into Canada is regulated not by the Canadians themselves but has been handed over by the King Government to the President of the United States to be manipulated in the interest of the American people

tax—but who has a better right to reduce that tax than the people who raised it from three to six percent during their term of office?" he asked triumphantly.

"Sir Robert Borden gave the greatest gift this Province has ever received from any Government when he gave us the car ferry," Mr. Arnett continued.

"Though the King Government has been in power nine years the widening of the gauge of the Prince Edward Island railway is not yet complete," he vigorously pointed out.

Appealing to his hearers to cast their vote in favor of the Hon. R. B. Bennett and his Canada-first policy Mr. Arnett was answered by a storm of enthusiastic handclapping.

### ADDRESS OF WELCOME

The following address on behalf of the East and West Prince Conservative Associations was then read by Mr. J. E. Wyatt, K. C.

To the Honorable R. B. Bennett, K. C. M. P.

Dear Mr. Bennett: It is with great pleasure that we the East and West, Prince County, Liberal Conservative Associations welcome you again to the shire town of this riding as our leader as also your charming and estimable sister, Miss Mildred Bennett and at the same time we desire to extend to you

has we reel raised sentiment throughout this fair land of ours that far as the welfare of Canada concerned the usefulness of the King administration has ceased.

This is evidence not only by the great interest being taken by the people in this election and the unprecedented attendance at our meetings but also by the general surmise by our opponents for shelter from the approaching storm.

This Mr. Bennett has to a great extent been brought about by his able and tactful leadership, his honesty of purpose your straight forward declaration of policy and your confidence also amounting to certainty that when the voices of people shout on the evening of the twenty-eighth of this month Mackenzie King administration will be found wanting and scattered the four winds of Heaven and your sir, will become Prime Minister Canada chosen by the will of the people.

## Three Drowned

(Canadian Press) ST. THOMAS, Ont., July 4.—Three citizens of the United States their lives during the night when sailing boat in which they were travelling from Port Stanley to Erie, sized. The victims were identified day as Stanley A. Winters, 30 Kensington Ave., Cleveland, 34 Morris Day Carroll, 30 of trout, salesman, and Oscar Layne, laborer, of Fawcett St. It is believed the tragedy occurred while the boat was midway between Wall town and Eagle. The bodies and overturned boat were discovered fishermen. Two of the bodies caught in the nets and the third picked up nearby.

## THE VOICE OF LABOR

"The Liberal Government," according to the Liberal organ, "has certainly been a great friend to labor." Here is what the Canadian Labor Pre an official organ representative of International Trade Unionism, in its issue of June 30th has to say about the King Government's "friendship":

"A Federal Government with a Prime Minister who declares on the Floor of the House of Parliament that his Government 'would not be a single cent to any Tory Government and would give no money out of the Federal Treasury to any Tory Government in this Country for Employment Purposes.'"

"Is that the kind of a National Government that Labor wants Ottawa? A Government that makes Political Capital out of the unemployed?"

"Isn't it bad enough to have hard times and business depression with the resultant Unemployment Situation partly caused at least by Premier King's failure to protect Canadian industry without him now appearing in Parliament and publicly denying the Unemployed any hope of relief because they happen to live in a Province whose Provincial Government is not of Liberal Politics?"

"Why should the Unemployed of Canada bear the brunt of Premier King's Malice, Hatred, Jealousy or whatever you like to call it against Conservative Governments?"

"There are thousands of Unemployed in the so-called Tory Provinces that are Liberal in Politics but they are also apparently to be seen in the star of Premier King's Hatred because they reside in a Province whose Politics he does not like."

Mr. Worker—No matter what your Politics, you have an opportunity and a legislative franchise to Vote on July 28th next and whether you want the return of a Government that is most unfeeling and unsympathetic to Labor or whether you want a change to a Government that pledges all the things in which Labor is interested."
