BRIGHT, BRISK AND BUSY AT NINETY-THREE.—One of the visitors to the City yesterday was Mr. Richard Vessey of Little York, who is ninety-three years of age. He came alone with a team to haul a load of coal, and was quite "chirpy" and full of "pep." Yesterday apparently hale and hearty were also to be seen out of doors Mr. Weeks, who is eighty-nine, and Mr. McCready who has passed his eighty-ninth mile stone.

A PLEASING COINCIDENCE.—It is interesting to note in connection with the Free-For-All Race at the Exhibition that the donor of the handsome silver trophy, Dr. Christopher, is a distinguished son of Tignish which he left in early boyhood for Boston where he became a successful dentist, while the successful driver was Mr. Johnny Conroy, who is also a native of Tignish and equally successful in the profession he has followed. Congratulations are due the donor, the winner and Tignish for producing men of such calibre.

LAD TO REST.—On the evening of August 16, the Angles of Death visited the home of Mr. and Mrs. Fred Pidgeon, New London, claiming their only daughter, Vera, at the early age of three years. The funeral was held on Saturday afternoon, August 18, after a brief service at the home of the little one, the remains were removed to St. Thomas Church, French River, where an impressive service was conducted by the Pastor, Rev. Mr. Spriggs. During the service Mr. Roy Phillips, rendered very feelingly, "Beautiful Isle of Scenery." The many floral tributes, truly showed the esteem in which little Vera was held in the community. The pall bearers were: Gordon Constance, Ben Baker, Stanford Carr, Lloyd Ramsay. The sincere sympathy of whole community goes out to the Parents in their sore bereavement. She leaves to mourn, their loss a sorrowful mother and father, and one brother, Fulton.

Walls do not make a home. It is the atmosphere inside the house which makes a residence a "home, sweet home."

Was Very Delicate

New Health Came Through Using Dr. Williams' Pink Pills.

Mrs. Caspar Miller, Lourdes, N. S., says that twice in her lifetime she has reason to be thankful for what Dr. Williams' Pink Pills did for her. She says:—"I was a very delicate girl going into womanhood, when I first found benefit from Dr. Williams' Pink Pills. I was a sufferer with cramps and pains every month and was hardly able to move around at all. One day when I was very sick a friend came in to see me, and she said to my mother, 'Why not try Dr. Williams' Pink Pills. I know they will do her a world of good.' The result was my mother got six boxes and I began their use, and I soon found benefit from them. By the time I had taken them all I felt an altogether different girl and no longer suffered from cramps and pains. Then a few years ago I was attacked with influenza, and was sick for six weeks. Again I started taking Dr. Williams' Pink Pills, and again they brought me good health. I am the mother of a family and do all my own work, so you see I have to keep in good health, and depend upon these pills to keep me so. Now I always recommend Dr. Williams' Pink Pills to any of my friends who may be sickly."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MEASLES.

Measles is a child-killer. This disease which so many regard as, of no account, and which is thought of as a necessary evil, accompanied by certain inconveniences, is, as a matter of fact a serious menace to child life, and because of the number of children it kills, it ranks high among those diseases that take life in early childhood.

In 1926, there occurred in Canada 893 deaths from Measles, of which 471 were children under one year of age. Most deaths from measles occur under five years of age. The disease attacked especially those under three years. The older the child, the better chance he has of recovery.

Measles is a communicable disease; it is passed from the sick to the well. It is very easily spread and practically all who are exposed contract the disease, unless they have been protected by a previous attack.

It is a mistaken idea that every child must have measles. It is essential to expose children to measles, because to do so is to risk their lives.

Measles is serious not only because it kills, but because it seems to prepare the ground for other diseases. It is the pneumonia following measles which makes it so dangerous. Tuberculosis may become active after measles.

Concerning the control of measles, it must be remembered that measles is most contagious during the days before the rash appears. For this reason, it is advised that every child with a cold in the head be kept away from other children, not only to prevent the spread of colds, but because the cold may be the first stage, the most contagious stage, of measles.

Part of the protection of child life is the protection of the child from measles.

"After Our \$400,000 Fire We Used GYPROC"

"Last summer we suffered a fire loss of more than \$400,000," writes C. C. Smoot, Superintendent of the C. S. Hyman Company, Limited, one of Canada's leading sole leather manufacturers.

"We didn't want such a thing to happen a second time, so we took the precaution of lining our new dry lofts with Gyproc. Gyproc gave us fire protection and faster, more economical construction. Its insulating qualities enabled us to economize on fuel. Needless to say, we are well satisfied with Gyproc."

WAS IT HIS WIFE?

WINNIPEG, Aug. 22.—Who says Scotsmen are tight with their money? W. D. Shaw of Edinburgh, Scotland, upset all popular theories today when he put in a long distance call from the Fort Garry Hotel here to Edinburgh. He talked for four minutes, and his bill was \$68. Nor did he ask to have the charges reversed.

This is the longest long-distance telephone call ever made from Winnipeg.

THREE ORDERS

"We have," says Ruskin, "among mankind in general three orders of being—the lowest, sordid and selfish, which neither sees nor feels; the second, noble and sympathetic, but which neither sees nor feels without concluding; and the third and highest which loses sight in resolution and feeling in work."
