A SERIOUS OFFENCE.—Capt. Edward Dicks of the schooner "Minnie A" had an unpleasant surprise sprung on him as he was on his way to Magdalen Islands for herring. It seems Captain Dicks provisioned his vessel in Georgetown for the voyage. Stayed in his home town over Sunday. Some time after starting the cook went to prepare dinner when to and behold, no provisions could be found, and not alone the food, but the dishes vanished, all the human what? rat could carry away off. They left the barrel of flour it was too heavy. Capt. Dicks put into Souris for a fresh supply. They should have police officer Hughes in Georgetown.—S.

The following is a letter received by Miss Etta Costain, from Private Harold McCormack of the 26th Battalion who is now with the fighting forces in France.

France, April 22nd 1918.
No. 7th Canadian General Hospital.

Dear Friend: I take pleasure in writing you a few lines to let you know that I am getting along fine, I suppose you heard before now that I was wounded, but not very bad, just a small piece of shrapnel through the left shoulder, I don't know if they are going to send me to England or not, I don't know where Howard is as I never heard from him since I came over I think he is here somewhere but do not know, I was not long over here before I got it, was I? I just made four trips on the line on the first trip we were only in about two hours till Fritz came over us but he got a warm reception, only got as far as our wire. Our machine gun and rifle fire was too much for him, we mowed them down like wheat and No Man's Land was a mass of dead and wounded; there weren't many of them got back to their lines. I think I will change the subject and ask you a few questions about dear old P. E. I. I suppose everybody is preparing for the fishing around

Victoria Day was loyally observed in Souris Friday.—S.

JOINED NAVY.—Quite a number of young men from Souris West have enlisted for the navy.—S.

OWNS NEW CAR.—Mr. A. C. Cox was testing his splendid new car Saturday. He doubtless will find it a fine auxiliary to his hotel.—S.

Kryptok Double Vision Lenses

If one is wearing glasses for distance vision. When the age of forty to forty-five years is reached one needs another pair of glasses—a pair for reading and a pair for distance vision. Kryptoks combine these two pairs into one, the upper half of the lens for distance vision and the lower half for reading. Kryptoks are not two lenses cemented together—they are two strengths of glass fused into one.

They have no seam or uneven surface to catch the dirt or confuse the vision, and in appearance you cannot tell them from an ordinary single vision lens. We specialize in "Kryptoks".
