R.A.F. Fliers Set Distance Record

LONDON, Nov. 7.—(Monday)—A report received in Sydney, Australia, today said two Royal Air Force bombing planes landed at Fanny Bay, near Darwin at 3 p. m. on SAT. 11 p. m. AST Sunday, breaking the world distance flight record of three Russian aviators...

British Defence Plan: Guards Against 'Knockout' Blow

(By Edwin Johnson, Canadian Press Staff Writer) LONDON, Nov. 6.—Voluntary defence of approximately one-third of the population from Great Britain's most congested and vulnerable areas is contemplated by the Government as a safeguard against the event of war. The proposal is the central recommendation of a far-reaching plan of defence drafted by Sir John Anderson before his appointment to the cabinet...

30 Bodies Recovered In One Of Norway's Worst Fire Tragedies

OSLO, Nov. 6.—(CP)—A sudden death that trapped guests crowded in a photographer's studio last night turned a gay party into one of Norway's worst fire disasters. The bodies of 30 victims, most of them burned beyond recognition, slowly were being identified today by jewelry and bits of clothing. The photographer had festooned his third-floor apartment with paper hangings for the party to which he invited about 40 guests. Not all were present when the fire started...

R.C.M.P. Air Force Patrol Expands To Western Canada

OTTAWA, Nov. 6.—(CP)—The embryo air force of the Royal Canadian Mounted Police, which to date has done most of its flying along the Atlantic coast, will be expanded to the west coast of Canada next year, according to present plans. Deputy Commissioner Thomas Dunn said Saturday it was proposed to add another plane to the present fleet of five and to station the new plane, a Noorduyn Norseman transport, in the Northwest Territories. The five moutie planes in the Maritimes have been engaged in reconnaissance along the coast, combating smuggling and the illicit liquor traffic and watching for vessels in distress. The plane in the Northwest...

TAKES ISSUE WITH ONTARIO GOVT. LEADER

Evidence of "Sectionalism" In Hepburn Statement Seen By P. E. I. Premier AMHERST, N. S., Nov. 6.—(CP)—Premier Thane A. Campbell of Prince Edward Island, today over to this Nova Scotia town, scene of the Maritime Winter Fair, Saturday and voiced a twin plea for Canadian unity and greater co-operation between the three seaside provinces. If unity was necessary in face of war it also was essential for the continued interests of constitutional democracy, Premier Campbell said in an address to a Citizens' Banquet that preceded official opening of the fair. Premier Hepburn of Ontario had termed that province the "Milk Cow of Canada," Mr. Campbell said. Such an observation brought a Maritime report that the milk cow had been fattened by these three eastern provinces or an observation that the Maritimes lacked the benefits derived from the west from stabilized wheat prices. He deplored such evidences of sectionalism. "Distinctly Hazardous" The Premier said secession, as discussed in western Canada and in the east was a "distinctly hazardous" adventure. Inter-provincial co-operation and unity were more important to him. "Our friends in western Canada and Ontario contend that many of our problems in the east could be solved by Maritime union. There might be some difference of opinion on this point but I do feel that the three Maritime Provinces have a continuity of interest that could well be served by closer co-operation. Mr. Campbell cited the Winter Fair as an outstanding example of Maritime co-operation. The Maritime Council in discussing policies of education, motor transport and tourist traffic. He suggested there were possibilities of general co-operation. The Maritime Council could discuss problems common to the three provinces. Hon. A. S. MacMillan Nova Scotia Minister of Education, said he was opposed to Maritime union because he felt there were many problems that must be handled by the individual provinces. Mr. MacMillan complimented Amherst people on his support they gave the fair. He said Halifax people did not support the Nova Scotia exhibition this early fall with the result deficit accumulated.

Premier King Returns Today

OTTAWA, Nov. 6.—(CP)—Government activity will speed up this week with the return of Prime Minister Mackenzie King from his West Indies holiday which reports say brought him renewed strength and good health. It is expected the Prime Minister who returns to Ottawa Friday after a cruise in the south, will arrive home tomorrow and will preside over the regular weekly cabinet council session. During the month Mr. MacKenzie King has been away from Ottawa there has been a period of comparative quiet on Parliament Hill. Major decisions of government have been deferred pending the decision as to whether or not Parliament will be called before Christmas. Increased subventions to assist the Nova Scotia coal industry are said to be endorsed in principle and awaiting only the final seal of cabinet approval. This is one of the matters likely to be discussed Tuesday or Wednesday, which evening cabinet meets. Other matters which will demand almost immediate attention include arrangements for the exhibition of the King and Queen when they visit Canada early next summer, appointments to the three foreign legations for which the Government is seeking possible ministers must be found, possible reorganization, and preparations for the session of Parliament which if not called this fall will resume immediately after the new year holiday. The Minister of the question of Canada-United States trade relations, outstanding since early last spring when a trade mission went to Washington to negotiate for a revision of the agreement signed three years ago this month and which expires at the end of this year.

Seed Potato Movement Said Slow

Movement of seed potatoes from the Province to date this season has been slow. Mr. J. W. Boulter, secretary-manager of the Potato Growers Association said last night. He was discussing the S. S. Herma which will sail from here this week with approximately 75,000 seed potatoes in the cargo, which is supplied by the Potato Growers Association and Simmonds & MacFarlane, Freeport, are a small quantity of tubers. Slow movement of seed was attributed by Mr. Boulter to prevailing table stock prices, which are within five cents per bushel of that for seed. Seed price to the grower was quoted at 60 cents a bushel with table stock 55 or a "little better." The margin did not pay for grading seed, many farmers thought, and were selling their tubers for table stock. Most of the table stock was going to Canadian markets, it was explained, where prices were stronger than on American markets where seed now sold principally. Turnip prices had sagged to ten cents a bushel, it was announced. Continued warm weather was unfavorable for the shipment and storage of turnips. Prices were expected to strengthen with the advent of sub-freezing weather. The Steamer Herma took part of her cargo at Summerside and arrived Saturday. Loading operations began at once.

Food Stuffs Shipped To Drought Areas

REGINA, Nov. 6.—Eight car-loads of cheese, beans and fish, first shipment in the \$300,000 drive to relieve drought-stricken areas, left here Friday. The cheese came from Ontario and Quebec and the fish from the Maritimes. Territories will perform slightly different duties. At present, police officers in the west make considerable use of the commercial airplanes flying regular routes over the vast network of "down north" airways but with their own plane they will be able to move about more rapidly. The Moutie plane will be used for patrols over limited "beats" for money flights, and for reinforcing rapidly to outlying posts in case of emergency. Meanwhile, the present squadron of four twin-motored De Havilland Dragons and a big Norseman remain in the east doing their coastguard duties. Inspector T. R. Nicholson, the Moutie's air force commander, has 12 pilot and co-pilots under him at Moncton, N. B.

One Dead, 8-injured In Auto Collision Near Antigonish, N. S.

ANTIGONISH, N. S., Nov. 6.—(CP)—Rinaldo Haley, 31, was killed today in a collision which brought injuries to eight others. Haley was a passenger in a car driven by Cyril MacIsaac which turned over after it collided with a car driven by Allan Boyd of Boston. MacIsaac and another passenger, Mrs. MacIsaac, suffered a broken nose and Mrs. Angus Boyd of nearby Morris town, his mother, was believed to have a broken wrist. Boyd's wife, his young son, brother Ronald and Malcolm MacGillivray, both of Morris town, suffered minor injuries.

U. S. READY TO MEET THREAT OF AGGRESSION

WASHINGTON, Nov. 6.—(AP)—The United States is prepared to meet any threat of aggression, the President said today. He said the United States is prepared to meet any threat of aggression, the President said today. He said the United States is prepared to meet any threat of aggression, the President said today.

Many Important Matters For Government Consideration

OTTAWA, Nov. 6.—(CP)—Government activity will speed up this week with the return of Prime Minister Mackenzie King from his West Indies holiday which reports say brought him renewed strength and good health. It is expected the Prime Minister who returns to Ottawa Friday after a cruise in the south, will arrive home tomorrow and will preside over the regular weekly cabinet council session. During the month Mr. MacKenzie King has been away from Ottawa there has been a period of comparative quiet on Parliament Hill. Major decisions of government have been deferred pending the decision as to whether or not Parliament will be called before Christmas. Increased subventions to assist the Nova Scotia coal industry are said to be endorsed in principle and awaiting only the final seal of cabinet approval. This is one of the matters likely to be discussed Tuesday or Wednesday, which evening cabinet meets. Other matters which will demand almost immediate attention include arrangements for the exhibition of the King and Queen when they visit Canada early next summer, appointments to the three foreign legations for which the Government is seeking possible ministers must be found, possible reorganization, and preparations for the session of Parliament which if not called this fall will resume immediately after the new year holiday. The Minister of the question of Canada-United States trade relations, outstanding since early last spring when a trade mission went to Washington to negotiate for a revision of the agreement signed three years ago this month and which expires at the end of this year.

Begin Observance Of Armistice Week

LONDON, Nov. 6.—(CP Cable)—Britons began the observance of Armistice Week today with special services at churches and war memorials. The Field of Remembrance was dedicated in the shadow of Westminster Abbey. It consists of a grass plot in which tiny crosses have been placed annually in memory of Great War dead. Sir Frederick Maurice, president of the British Legion, planted a cross in behalf of the Legion and a minute of silence was observed. Representatives of all the Dominions also planted crosses. Lieutenant Stanton represented Hon. Vincent Massey, Canadian High Commissioner.

Y. W. C. A. Secretary Succumbs In Sask.

PRINCE ALBERT, Sask., Nov. 6.—(CP)—Miss Hedwig Dora Hobacker, 56, Toronto, National Executive Secretary of the Young Women's Christian Association, died here today after an illness of a week. ST. SHARKS, N. B.—(CP)—A "basking" shark, a species rarely found as far north as this, has been caught in Passamaquoddy Bay near Antigonish, N. S. It measured 12 feet and weighed 1,083 pounds. Three fishermen harpooned the shark and then had to shoot it to end the struggle.

Announces Aim To Provide Force To Keep Peace

WEIMAR, Germany, Nov. 6.—(C. P.)—Reichsfuehrer Hitler today lectured the democracies and, speaking "as a peace-loving man," declared: "I have decided to give the German Reich a defence force that will be conducive to peace being kept." He singled out Winston Churchill, former British First Lord of the Admiralty, and Arthur Greenwood, Labor frontbencher in the House of Commons, for mention by name in attacking anti-Nazi influences against which Germany must be strong. He referred to British politicians generally as "umbrella carriers." "Germany must arm intellectually, morally and materially," he said. "We are ready to disarm on condition that the war-mongers are disarmed. But just so long as this is not done I suppose they want to set a trap for us, as in 1918. But it won't happen this time, Mr. Churchill!" He said he was suspicious of talk of reducing armaments while the rest of the world armed to the teeth and took cognizance of British Labor criticism of Nazism. Greenwood had said in Parliament he hoped Nazism and Fascism would be destroyed, Hitler continued. "It is my duty to see that this Reich shall not be crushed."

Work Proceeds Apace At New Ferry Terminal

Steel work in the landing pier of the new ferry terminal at Wood Islands was complete, it was learned yesterday, and the placing of steel on the structure was in progress. A large hydraulic suction dredge arrived at Wood Islands from Pictou Saturday and dredging at the site is to begin this week. Approximately 40 men are employed on the project, recruited, except for "key men" from the ranks of local labor. Construction of the terminal began last September and was completed at the main pier. The work is progressing "very satisfactorily" it was said, and will be completed easily within the estimated time. If weather conditions permit operations will continue all winter. However, even if storms and sub-zero weather force a "shut down" for a time the terminal will be ready by July. Plans for the main pier are being done by the Dominion Construction Company of Toronto. Contract has been awarded for dredging at Caribou Island. It was announced recently. The new ferry service, linking this Province with Nova Scotia, is expected to be in operation late next summer. Hon. Mr. Cardin, Federal Minister of Public Works announced when he visited Charlottetown some time ago.

Rare Eclipse Of Moon Will Occur Tonight

BY HOWARD W. BLAKESLEE Associated Press Science Editor NEW YORK, Nov. 6.—(AP)—At sunset Monday night the moon will show a rare eclipse, revealing to the man in the street that sun and moon are not always "where his eyes see them in the sky." The eclipse will be total in the eastern half of the United States and Canada, partial in the Rocky Mountain area and Penumbra, that is only a hazy shadow, on the west coast. But the spectacular sight of seeming misplacement of moon and sun in the sky will be visible only on the eastern seaboard. Spectators will see the sun still unmet on the western horizon, and the moon already risen in the east. This risen moon will be a paradox, for it will be all but totally covered with the earth's shadow, and will slip wholly into the shadow.

Government Counter-attacks Halt Insurgent Offensive

HENDAYE, France, Nov. 6.—(AP)—Spanish Government counter-attacks of unexpected strength were reported today to have held back an insurgent offensive aimed at wiping out the Government's salt works on the west bank of the Ebro River. The advancing insurgents clashed in a battle with a reorganized Government Army near the confluence of the Ebro River and Benisat Creek — the outer defences of Mora de Euro, the Government's last stronghold in the zone on the west bank of the Ebro. The Government counter-attack was unleashed just after two insurgent columns joined forces, one moving west between Venta de Las Campolinas and the Caballos Mountains and the other driving north toward Benisat Creek. Before the merged columns could organize into a single fighting unit, Government troops struck. Waves of tanks led their attack while warplanes bombed and machine-gunned the insurgent rear guard. Insurgent dispatches said General Franco's troops took cover in hills, rushed up field guns and held against the Government attacks. Government reports contended the counter-attack had fulfilled its objective — to bring Franco's eight-day advance to a halt before it reached Mora de Euro. Dispatches from both sides indicated combined casualties for the two armies in eight days of fighting mounted to more than 5,000.

Refers To British Politicians As 'Umbrella Carriers'

WEIMAR, Germany, Nov. 6.—(C. P.)—Reichsfuehrer Hitler today lectured the democracies and, speaking "as a peace-loving man," declared: "I have decided to give the German Reich a defence force that will be conducive to peace being kept." REVENUE INCREASED FREDERICTON.—(CP)—During the last year four assistant motor vehicle inspectors have increased the revenue of New Brunswick by many thousands of dollars. They travel about the province checking the weights of trucks and loads. Truck registration fees in New Brunswick now are based on gross weight.
