The New Plug in!

Victor Radio DYNAMIC

To the famous Lowboy, Victor has added the electro-dynamic speaker. To the instrument, which 80% of the present owners bought principally because of its outstanding tone, is added all that further richness and resonance of the Victor Electro-Dynamic speaker.

Tone is the vital factor in radio's amazing popularity today. To this known fact, and to the ability to meet the demand with Victor tone, may be attributed the great success which Victor Radio has enjoyed from the first. And to the season's most popular model, Victor adds its advanced electro-dynamic speaker—truly, adding more tone to tone!

Authorized Victor Radio Dealers are now showing the beautiful Lowboy, specially designed for them, in all the appeal of its new electro-dynamic-speaker equipment, the new Victor Radio set, seven tubes and rectifying tube, and cord ready to plug in, for only \$310

Or with Regular Victor Speaker, \$285.

Happenings of the Week

Continued from Page 8

One of the enjoyable affairs of the past week was the Afternoon Tea, given by the Ladies' Aid of the Central Christian Church at the residence of Mrs. J. F. McKie, 254 Kent Street. The guests were received by Mrs. B. G. Acorn, President of the Society, and Mrs. J. F. McKie. A delightful tea was served during the afternoon.

Mrs. W. S. Batt of Charlottetown is on a visit to Halifax, having gone there to meet her husband. Mr. Batt is Engineer of the C. G. S. Scotia now in the dry-dock of the Halifax Shipyards. Mrs. Batt has been the guest of honor at a number of social functions, among the number being a very enjoyable Bridge Party given by her friend Mrs. Chas. H. Beers, a former resident of Charlottetown.

A cordial welcome is being extended to the Misses Mary and Edyth Brown who arrived last week from New York. Miss Mary Brown intends making her home here among her old home friends but her sister will return to New York until the warm weather, when both ladies plan to summer at Brackley Beach.

Mrs. (Dr.) Tidmarsh was hostess at a most delightful afternoon tea at her home Wednesday and entertained again on Thursday evening at a Mixed Bridge.

Mrs. W. R. Cruikshank, wife of the recently-appointed Royal Bank manager at Newcastle, N. B., and formerly Miss Dorothy Sutherland of this city, held a delightful At Home on Monday afternoon, from four to six, when a large number took the opportunity of calling and welcoming Mrs. Cruikshank to the town. Mrs. Cruikshank was assisted in receiving her guests by Mrs. Andrew Forsyth. In the drawing room, lovely daffodils, narcissi and potted plants were attractively used for decoration. Mrs. James Stables ushered the guests to the dining room where Mrs. G. Percy Burchill and Mrs. W. B. Spicer of Parrsboro, N. S., presided at the prettily appointed table. Smilax was gracefully arranged about the silver basket of spring flowers, which was used for central decoration, and blue tapers in silver candlesticks added a charming touch. Mrs. F. J. Desmond replenished and those who assisted in serving were Mrs. J. A. M. Bell, Miss Annie Bell and Miss Hazel McMaster. Miss Jean Forsythe admitted the guests.

The Bridge under the auspices of the St. Elizabeth's Society, held in the Odd Fellows Recreation Hall on Tuesday evening was a most enjoyable social gathering.

Mrs. Frances Holl-Trainor, Boston, is being cordially welcomed home on a visit to her aunt, Miss Holl, Prince Street.

Black frocks will be animated this spring by large off-white collars, touches of fine lace, veestes of rose beige and other lingerie touches.

Many people who do not like to sleep on pillows get cold in the neck at night. A very good way to keep the wind from going down the neck is to use a tiny slumber pillow made of down and very sparsely filled so it will be flat.

A beige suit allows it blouse color freedom. The blouse is of beige crepe

IT'S folly to suffer long from neuritis, neuralgia, or headaches when relief is swift and sure, thanks to Aspirin. For 28 years the medical profession has recommended it. It does not affect the heart. Take it for colds, rheumatism, sciatica, lumbago. Gargle it for a sore throat or tonsillitis. Proven directions for its many uses, in every package. Every drug store today has genuine Aspirin which is readily identified by the name on the box and the Bayer cross on every tablet.

novel touch to many spring suits. Bound buttonholes are good, too.

Fox, dyed to match the velvet of a sumptuous coat, makes a stunning cushion collar and deep cuffs for it.

Spring comes to Paris earlier than it comes to New York, which makes for keener interest in hearing what is being worn for luncheons and teas there. It seems that on a recent sunny day, any number of little felt berets were worn by women of sartorial distinction. Reboux' little brown felt beret was among those scoring the greatest success. Reports from the Riviera have dwelt upon the vogue of this little hat inspired, if not actually copied, from the berets worn by Basque peasants.

Another outstanding style impression as reported from Paris are the large necklaces composed of brightly colored stones which were launched by several of the couture at their openings. Naturally everyone expects these necklaces to be quickly popularized, the fate of so many effective fashions but at the moment French women of distinction are finding them helpful in filling in the gap between hat brim and fur-less coat, since so many coat collars are negligible. Certainly the necklaces are most attractive when reflecting the color of the costume with which they are worn, or when instead of reflecting the color they intensify it by an effective contrast.

Faith Most Important

(By British United Press)
LONDON, April 18.—Some remarkable statements were made during the course of Dr. Bernard Hollander's Society's meeting at Moorgate the other day. In a catalogue of influences producing ill he gave the nagging wife or husband a prominent place, and suggested mental discipline and training as the highway to health.

"Often it is not real misfortune which disturbs the health," said Dr. Hollander, "but the trifling nothings, the petty annoyances, and the pin-pricks of life which cause emotional reactions and, by their constant repetition, produce nervous exhaustion. The general nutrition of the body is influenced by our emotions. Anxiety enfeebles its victims; faith, hope and courage assist in strengthening the body."

"The man of violent temper gives himself a dose of poison, just as if he had swallowed it. Similarly the toxin produced by fear acting on the brain and sympathetic system is one of the most powerful poisons introduced into the blood. The miraculous cures sometimes reported as having taken place without any medical help are generally those of people free of fear, worry or doubt. Such sudden cures are presumed to apply only to imaginary ailments; but strictly speaking there are no imaginary ailments. There are only physical and mental ills, and the mental ills are as real as the physical ills."

Regarding cases of "miraculous healing," Dr. Hollander said: "Faith in miracles produces miracles. It is not the relic of the saint that brings the cure. Ordinary water will be as beneficial in its effects as that of Lourdes, provided that the invalid is not aware of its origin."

"Granted that some of the cures at holy shrines are genuine, their effect in restoring health is produced by the inspiring ceremony and surroundings which fill the patient's mind with wonder, awe and hope, in place of injurious thoughts and emotions. If people were to have the same faith in the skill of their physician, they would get well the same without increasing their superstitions."

Digestion, observed Dr. Hollander, was dependent on the mental state almost as much as any other factor. "But," he added, "indigestion, when due to abnormal mental states, is not always of our own doing. One is just as likely to have dyspepsia from a nagging wife or husband as from a gastric ulcer."

Advising restraint in order to avoid temperamental explosions or nervous breakdowns, Dr. Hollander said: "Many a man or woman who would look with horror upon going on an alcoholic spree does not hesitate to indulge in frequent emotional 'sprees' or nervous 'blow-ups.' Both 'sprees' are due to deficient self-control."

North Tryon Notes

It is beginning to look very much like spring in this part of the country, snow is practically all gone and a few cars running. Most of the farmers have finished their winter's hauling.

ONYX SPRING STYLES

FASHION AGAIN FAVOURS THE FEMININE

SPRINGTIME and Woman... a new Vogue in Footwear... something inspired. A BLACHFORD SHOE

Mr. J. E. Thompson made a business trip to Charlottetown last week.

The many friends of Mr. Harry Malone will regret to learn that he is slightly improved, but all wish him a speedy recovery.

Mr. J. E. Thompson left last week on a business trip to Halifax.

Our genial mail-carrier, Mr. Sampson Walsh, is giving good service in his long route of mail delivery. He has now to contend with bad roads, and weather but invariably makes good time.

Mr. Harold Cutliff Cape Travers was a visitor to Tryon last week.

Mr. A. W. Tanton, St. Eleanors, spent the past week in Tryon visiting relatives.

Miss Winifred Best, teacher of Westmoreland School, spent the week end at her home in Tryon.

Mr. and Mrs. Newton Mayhew, North Tryon, are to be congratulated on the arrival of a bonnie wee lassie.

What might have been a more serious accident occurred Tuesday morning last when Mr. Amos MacWilliams, who was busily engaged hauling hay, fell through a loft sustaining minor injuries. Mr. MacWilliams working close by, made a mistake, but luckily the fall was only about seven feet, but all hope for a speedy recovery.

Mrs. Leroy MacKenzie and Mrs. Parker Delaney, were visitors to Albany and vicinity Monday last.

Mrs. Olive Mayhew has Accepted a position in Summerside, with J. W. Calbeck.

Mr. Amos MacWilliams has recently purchased a beautiful three year old filly, from Mr. Lawrence Newson for which it is understood he paid a fancy price for. She is sired by Land League and has all promises of speed in the future.

Enrich Your Soil and Enlarge Your Harvest

With the Cockshutt Broadcast Lime and Fertilizer Distributor

The Cockshutt Broadcast Lime and Fertilizer Distributor spreads lime and all varieties of commercial fertilizer uniformly and economically. The Hopper is of large capacity and frequent stops for refilling are unnecessary. The machine has a wide spread and is built low down so that any tendency of the lime or fertilizer to blow in the wind is largely overcome. The driving and feeding mechanisms are simple and effective. Handles ground limestone and all kinds of commercial fertilizer such as Phosphate, Chile Nitre, Gypsum, Potash, etc. A thoroughly reliable, light draft machine.

Quantities from 90 to 5900 pounds per acre can be distributed, and spread uniformly in varying amounts, as desired.
