LIFE GOVERNOR AT AGE OF TWELVE.

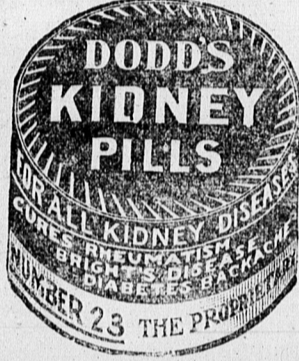

LONDON, Oct. 4.—To be made a life governor of a hospital at the age of twelve, as a reward for industry as a collector, would be surely an exceptional—if not unique—experience. At all events, a fair haired, blue eyed boy, named Frank Sturton, living in Central Park road, East Ham, may be soon in a position to claim this distinction.

Since he entered the Central Park road Council school as a tiny lad he has always taken an active part in an annual collection for the West Ham Hospital, arranged by the headmaster. The school children are given about a week in which to gather contributions, and Sturton has never raised less than \$2.50. Last year however, he collected \$8.05, and his total this year was \$9.70. Other children seem unable to bring in more than about \$1.25.

Both in school and on the field of play Sturton has an excellent record; and the headmaster formed the opinion that his industry ought to be recognized. So he wrote to the hospital authorities suggesting that they should mark in some manner their appreciation of the boy's efforts on behalf of the institution. The matter came recently before a committee, who expressed the view that "it would be an encouragement to other boys if Sturton were appointed a life governor of the hospital."

In the circumstances it is expected that steps will be taken shortly to nominate him for the office. Until he is of age he would not, apparently, be called upon to act in an administrative capacity at the hospital. But it is thought that the honor would stimulate other children to interest themselves in charitable work. Sturton is anxious to join a technical school in East Ham.

"After school hours," he said, "I have tramped long distances to get people to give me a contribution. They seldom refused. It was pleasing to see my total gradually mounting up, and, besides, I knew I was working for a good cause. I have not heard yet whether I am to become a life governor of the hospital!—I should certainly like to be one."

The dress goods department requires a few feet of room—and in order to get it a bargain results. About 15 pieces of hand-some all wool Canadian Tweed Suits—in a wide variety of colourings and designs—worth from 1.20 to 1.75 go on sale at 99c. These tweeds are all right in every way but they occupy room that is wanted for something else—and the dress goods man has "called time" on them. Moore & McLeod. 10 7dtf

CHOLERA GUARDS DOUBLED.

WASHINGTON, Oct. 5.—How grave the public health and marine hospital service regards the possibilities of the invasion of cholera from the infected sections of Europe became known today when the Advisory Public Health Board was called to meet in Washington, Oct. 10.

The board, which is an advisor to the public health service, is composed of Dr. Herman Flexner of New York, director of the Rockefeller Institute for Medical Research; Prof. William F. Seidwick of Boston, a biologist and director of the National Association for Study and Prevention of Tuberculosis; Victor C. Vaughan of Ann Harbor, Mich., President of the Michigan State Board of Health; Prof. Frank Westrook, of Minneapolis, Minn., and Prof. William Henry Welch, Baltimore, the pathologist of Johns Hopkins University Hospital.

Another evidence of the alarm with which the situation is viewed came tonight to-day, when the service decided to double its officers at every port from which steamships sail or at which immigrants gather in Italy, Germany or Russia.

A VALUED CIVIC SERVANT.

OTTAWA, Oct. 8.—The police and state officials of Belgium, Holland and England are searching for Mr. Robert Venning, Superintendent of Fisheries for Canada, one of the valued men in the service of the Dominion, who went to the Hague as an expert to advise with H. M. R. Aylesworth in the fisheries arbitration.

After the decision was given Mr. Venning was seen at the Canadian pavilion at the Brussels exhibition. Since that time the most anxious search has failed to reveal any trace of him.

Venning was born in St. John in 1854 and became an official of the Marine and Fisheries department in 1882.
