### Halloween Fun At O'Leary

Halloween, that traditional celebration of witches, black-cats and goblins was fittingly celebrated by the young O'Leary and district at number of Church parties and celebrations. On Friday last the O'Leary C. G. I. T. group of the United Church enjoyed the most enjoyable party in the Sunday School room of the Church. There was a fine attendance and games and contests were enjoyed to the limit. Devotional service and election of officers brought this enjoyable function to a close. Delicious refreshments were served. The hostesses were Mrs. W. G. Dickson who is assisted by Mrs. Herbert Vatcher. The officers are as follows: President - Blanche MacNevel; Vice-President - Isabel MacDonald; Secretary - Doris MacLellan; Treasurer - Peggy Ellis.

A fine program of songs and contests was held under the leadership of the Minister, Rev. W. G. Dickson, after which a short worship service was held in the hall. It was announced that the Trinity Ministers of the Summerside Y. P. U. will be presented at the O'Leary Nazarene Church on Nov. 17th, under the auspices of the O'Leary Y. P. U.

### New Turkey Suits Small U. S. Family

By ROBERT GEIGER  
WASHINGTON, Nov. 1 — (AP) — The United States Government reports success this year in its campaign to reduce the number of cold turkey sandwiches Americans will have to eat during the Christmas holidays.

The apartment-size turkey, called the Beltsville Bird or the Small White turkey is on the market in larger quantities, although the turkey crop as a whole is the smallest in 10 years.

It took about 10 years to develop the bird to fit the smaller ovens of the smaller modern family, of the average five weight is less than 10 pounds, compared with about 20 for a Broad-Breasted turkey. Ready for the oven, the Beltsville turkey weighs less than eight pounds on the average.

Government turkey experts began talking about developing a breed of small turkeys almost 20 years ago.

### Experiments Begin

In 1924 the experiments started at Beltsville, Md., where there is a big government agricultural station.

The turkey scientists worked with five breeds, including wild turkeys. They finally came up with a satisfactory model in 1940. It has some of all five breeds in it. Now the birds are being produced in commercial quantities.

The 1942 model apartment turkey is white, so that its pin feathers aren't so noticeable. This makes it more attractive in the butchers showcase.

### Blind From Birth Canadian Pianist Reaches Success

By NORMAN CRIBBENS  
(Canadian Press Staff Writer)

LONDON, Nov. 1 — (CP) — Mary Munn, gifted Canadian blind pianist now living in London, is a philosopher as well as a musician.

"I sometimes think that if I studied and politicians listened to great music before going in to debate the world would be saved a lot of headaches," said Mary when interviewed in her home at Ealing Common.

"There is a power in the work of the fingers that transcends petty grievances. That at least has been my experience. I get very angry sometimes... but it passes when I play the piano or go to a good concert."

Since the first left her native Montreal 22 years ago, Miss Munn's talent has been divided between Canada, Britain, the United States and European countries. She has given recitals in London regularly since last January and the critics have been unanimous in their praise.

She has been asked to play Greg's piano concerto with the London Symphony Orchestra at the Albert Hall Nov. 21.

"I regard it as an honor," she said, "and I shall certainly give of my best."

Remarkable Memory  
Born blind, Mary has trained herself since childhood to memorize full-length symphonies works note by note. She can repeat as much as five pages of Mozart after hearing them played only once, complex music has to be learned progressively in five-bar sections. She memorized the Greg concerto in 14 hours.

Learning as a new piano concerto I always study the conductor's score as well. I like to know what to expect from the orchestra, and not have horns coming in when I'm expecting strings.

Tall, with dark hair and a bright smile, she came to London when she was 16 and studied at the Royal Academy of Music. Then she returned to Canada for 15-weeks engagement with the CBC in Toronto.

Back in London two years later, a series of piano recitals proved so successful she was invited to play in other European capitals. Seeking a companion for her travels, Mary became friendly with concert and operatic singer, Eileen Mann. Miss Mann accompanied her to Rome, Budapest and Berlin and enjoyed it so much she gave up singing to become Mary's permanent companion.

"We've been together nearly 13 years now," Miss Mann said. "Our friends call us Munn and Mann — as if we were some sort of comic team."

The house which they share has two grand pianos in the drawing-room — one for each. It will be let, next January, however, as Miss Munn is returning to Canada for a concert tour.

TEL AVIV, Oct. 28 — (AP) — Israel's troops made new unopposed advances at Egypt's expense in Southern Palestine today and the Jew's Prime Minister declared "we will never retreat" to truce-line positions.

### JINX TELLS HOW TO KEEP SVELTE

New mothers who want to regain their trim figures are defeated by a complacent attitude of thinking they can take it easy after Junior arrives.

That's the warning advice of one young mother — Jinx Falkenberg (Mrs. Tex McCrary). She says, "The longer you postpone doing something to regain slimmest, the harder it will be to achieve it."

Jinx started her own slimming program while she was still looking starry-eyed at her son, Patrick. When she left the hospital she weighed her normal 130 pounds.

Two weeks later she had regained her normal measurements. "I regard it as an honor," she said, "and I shall certainly give of my best."

After you've regained a svelte figure, keep it that way with exercise and disciplined eating habits, advises Jinx.

"Swimming," says Jinx, who admits this is her best-loved sport, "is wonderful for keeping the tummy flat and firm."

"But," she adds, "to get in the water and dawdle for an hour is not exercise — you have to swim, and swim hard to win figure benefits."

### SAFETY GROUP HAS HOUSEHOLD DON'TS

Chicago — Housewives wanting to survive the annual fall house-cleaning are urged by the National Safety Council to observe the following "don'ts":  
Don't allow rolled rugs to block doorways.  
Don't permit stray nails and tacks to lie around the floor.  
Don't pile your arms so full of things that you can't see where you are going.  
Don't stand on a rocker or unsteady chair to take down curtains and drapes.  
Don't allow greasy rags or debris of any kind to accumulate. They are fire hazards.  
Don't use inflammable cleaning fluids near open fires.  
The council said that one-third of all accidents in Chicago during the first six months of 1943 occurred in homes.

### ST. ANTHONY'S ALTAR SOCIETY

In spite of the disagreeable weather on October 3rd, the St. Anthony's Altar Society held their annual meeting in the presence of a good number of members. The different officers in charge gave substantial reports, instilling encouragement for the future.

The work accomplished by the members in the upkeep of the altar linens, boys' gospels and surplices, and the sanctuary rug is certainly worthy of credit. The pastor, Rev. Father M. J. Rooney, is always the instigator in the Society. He perpetually insists on the spiritual advantages attached to such work and is ever ready to give the necessary advice to that of the members.

Such work done by the members surely demands a spirit of sacrifice for the hours consecrated to the care of the sanctuary and church decorations; it also incites such respect and love within the hearts of the workers because they see more and more how particular the parish priest and the church are toward anything pertaining to the holy place. Each one goes about her work in silence and does the work allotted to her regardless of its nature. Some of the work demands a skilled hand, such as looking after the lace-bordered linens. Mrs. Dominic Arsenault of Lot 6 has shown her great ability in this line.

The financial committee's report was most encouraging, showing an amount of \$81.00 on hand.

After receiving a new member into the Society the members considered that more women and girls should be asked to join the Society, enabling all to participate in such meritorious work. This it was decided to have "bring a new member" as the roll call for the next monthly meeting.

The election of officers had the following results: Mrs. John F. Gallant of Woodstock succeeded Mrs. Gilbert Gaudet as president. The latter saw fit to allow the opportunity of leadership to another member, Mrs. Hector Richard of Howland was named vice-president, and Mrs. John Finnan of Woodstock was appointed secretary-treasurer.

The meeting was adjourned with the usual prayers.
